AN UNCHANGED MARKET.

New York went up 7 points, lost the advance and closed steady. By Telegram to the Press-Visitor.

New York, Nov. 22.—Liverpool sent favorable news, good spot basis and advance in futures. Futures advanced 3 1/2-64, but lost 1-64 towards the close. The close was steady at a net advance of 2 1/2-64.

Sales 12,000 bales, of which 11,000 were American; 1,000 bales for export and speculation; middling, 49-16, hard ending.

New York futures opened about 7 points up, but gradually lost the advance. The close was steady at about unchanged rates, as compared with yesterday. Some longs realized.

Continental spinners seem to enter the market at present.

The port and interior movement continues small. Some leading interior towns received during last few days only 38 per cent as compared with last year.

Today's receipts are estimated at 31,000, against 69,000 last year. This indicates a port movement for this week of only 205,000, against 350,000 last week, and 247,000 last year. The port movement next week last year was: Saturday, 56,000; Monday, 70,000; Tuesday, 66,000; Wednesday, 51,000; Thursday, 58,000; Friday, 78,000; total 386,000.

Options closed as follows:
November, 8 21 to 8 22; December, 8 22 to —; January, 8 25 to —; February, 8 30 to 8 31; March, 8 34 to 8 35; April, 8 38 to 8 39; May, 8 42 to 8 43; June, 8 46 to 8 47; July, 8 48 to 8 49; August, 8 49 to 8 50; October, 1896, 8 14 to 8 15.

Sales, 228,000.

Hubbard Bros. & Co.'s Cotton Letter.
Special to the Press-Visitor.

New York, Nov. 22.

Adverses from Manchester are that business is improving in Lancashire with a better demand for goods, and a more cheerful feeling prevails in Liverpool over the situation that the market, however, lost a portion of the advance of the morning on account of the free selling from this side, where the local feeling was decidedly against an improvement in prices. This temper is the factor which prevents a rapid improvement in prices as it exerts an influence all over the country. It is based upon a belief that speculators will not again be attracted to cotton this season, the market having absorbed the offerings of, and advances slowly under the actual demand for cotton from European spinners, who have remained out of the market until now.

At the interior towns the receipts are less than last week, while the stocks increase so slowly that the cotton coming into sight will hardly exceed 241,000 bales crop.

All the indications are to a continued small movement at the interior towns, as the receipts at the last of the week are less than at the first part.

TWENTY TOWNS BURNED

"Unspeakableness" of the Turk Again Emphasized.

NATIVES MASSACRED.

Suppression of Telegrams by Turkish Officials Creates Distrust.—The Porte "Promises" on.

By Cable to the Press-Visitor.

PARIS, Nov. 22.—A dispatch from Constantinople says twenty villages in north-west Aleppo have been burned and the inhabitants massacred.

CONSTANTINOPLE, Nov. 22.—The situation is apprehensive. Telegrams from March yesterday were apparently delayed by Turkish officials. They report that American and other missionaries there are in greatest danger, which in view of the fact that the Porte gave Terrill assurances that the missionaries would be protected, creates alarm and distrust.

American missionaries begged Terrill to do everything possible to save them and not trust to the Porte. Thereupon Terrill and the British Charge de Affairs Herbert went to Porte and positively demanded that the most prompt and effective measures be taken to protect the lives and property, and give safe escorts to missionaries desiring to leave Kharpout and Bitlis. The Porte immediately agreed to take the steps demanded and endangered missionaries have been so informed.

WASHINGTON NEWS.

Gossip About the Opening of Congress.
Special to the Press-Visitor.

WASHINGTON, D. C., Nov. 22.

Only a short time now intervenes before the opening of Congress. Already the city hotels are thriving from the well-filled pocket books of office seekers, many of whom will doubtless spend their way homeward in a sorry plight, minus the office they so much coveted. This is only a repetition of what occurs at the commencement of each term. They are always beset with more or less applicants. With the speakership disposed of in advance, some say the other elective officers should be geographically distributed. As Mr. Reed comes from the extreme east, western men will demand that the second officer shall hail from the west, while twenty-eight Southern Republicans are howling for the third place, which is that of door-keeper.

Each claim to have letters from a majority of the members declaring their support. This is Republicanism over and over again. Some one has miscounted his letters or some member have pledged both ways. Anyhow, it is characteristic of that party and is not at all surprising.

Capt. Sherwood is probably the best known candidate for post-mastership. He served in the capacity in the House during the 48th and 47th Congress and was city post-master of Washington, during Harrison's administration. He is a crippled union soldier.

Won't Invite Mrs. William K.

The feud among the Vanderbilts has attained so bitter a stage that the Cornelius Vanderbilts will have their daughter's wedding strictly private, and unostentatious, simply to be different from the Willie K. Vanderbilts. Therefore, young Miss Gertrude will be married only in the presence of her immediate family. W. K. will be invited—his wife—never. The only reason Mrs. Vanderbilt encouraged the tremendous splurge over the dual nuptials was that she felt anxious to show the Vanderbilts that her family are the people of the house. The coming marriage bells will not, therefore, make any great noise. Cupid alone will ring them, and very quietly at that.

"Gray Eagle" Caused a Scrap.

William Manly and Albert Davie, both colored, were before Mayor Russ this morning on a charge of affray.

It seems that in Hamlin's bar last night some colored fiddlers were discussing music for the benefit of the crowd. Liquor, followed by a long sitting at a stove, had made Manly very pungacious. When the fiddler started on "Gray Eagle," he objected forcibly. Davie took up the matter and pretty soon the two were clearing up the bar.

This morning Manly carried a slightly swollen eye (if it was blacked it didn't show) but no damage was done. So Mayor Russ fined the pair a dollar each and costs.

Death of Mr. Julius Habel.

Mr. Julius Habel, of Durham, aged 43 years died last night at 11:30 at his residence in that city after a long illness.

The remains will be brought to Raleigh this afternoon on the train from Greensboro, and interred in the cemetery here. He leaves a wife and one child to survive him.

A Road Map.

The Department of Agriculture, it is said, is preparing a gigantic road map of the United States. The map when completed will show the condition as regards paving of Macadamized, construction and repair of every highway in the United States. The first step in the construction of good roads is to find out how many bad ones there are, which it is proposed for this map to set forth.

The New Bank Opens January 1st.

The report has gained currency that the Commissioner of Labor Statistics, Mr. Benjamin B. Lacy, is to resign in the near future.

Mr. Lacy is Cashier of the Mechanics Dime Savings Bank. This institution is already assured of success before opening its doors. All the stock has been subscribed.

A committee has been appointed for the purpose of securing a location. The committee has now under consideration several sites.

It is pretty well certain that the new bank will be opened for business January 1st.

BOLTED AT THE BRINK

A Repitition of Saturday's Disaster Averted.

MOTORMAN GOSSIP.

And the Car Sped On—Passengers Scrambled Out of the Cars Poll-Mell—Several Injured.
By Telegram to the Press-Visitor.

CLEVELAND, O., Nov. 22.—Another escape from a frightful disaster similar to Saturday's catastrophe occurred at Superior street viaduct early this morning.

The motorman left the car to gossip while waiting for the draw to turn. Suddenly the current which had been off the trolley wire was turned on. When it did the car dashed ahead to the brink, nearly carrying the two preceding cars into the river. The passengers, thoroughly frightened, scrambled out pell-mell. Mrs. George Snyder, wife of the police presenting attorney, was badly injured. Other passengers were also injured. It was a miraculous escape.

The State Did Not Say It.

WASHINGTON, D. C., Nov. 22.—The State Department officials denied today published reports that Ex-Congress General Waller had no case.

A Token of Esteem.

Last night at the secret session of Pullen Lodge, No. 1,916, Knights and Ladies of Honor, for the untiring labor and love of John U. Smith for the order they presented him with a beautiful watch chain containing an emblem of the order.

Mr. Smith acknowledged the compliment in the following graceful remarks:

The Knights and Ladies of Honor, my dear brothers and sisters: Allow me to thank you all for your kindness in presenting me with the handsome charm. Words cannot express my feelings towards you all, and for the success of this noble order I am with you all forever. First, I honour the ladies of North Carolina. Second, I married a Knight, therefore I am with you both heart and soul, and I do think we ought to be proud of our success. We are only eleven months old in this city, but look at our success. I want every member of this Lodge, him or her, to put their shoulder to the wheel and victory will be ours. This is a noble order, and why should it not swell with an overflowing tide and the water banks up America. After the battle is over, after the end of time, leave something to protect the little ones left behind. I am yours in O. M. A. forever.

Awarded the Gold Medal.

Mr. A. B. Love showed us today the beautiful gold medal which was awarded him by the State Fair management for the best display of manufactured smoking tobacco. It is a beautiful medal of solid gold, about the size of a twenty dollar gold piece. It was the last work ever done by the late Mr. Kahler. Mr. Love's display at the Fair was very neat and attractive, and won the medal on its merits.

The Stockholders of the W. & W.

The stockholders of the Wilmington & Weldon railroad met in Wilmington Wednesday. Warren G. Elliot was re-elected president and B. F. Newcomer, H. Walters, Michael Jenkins, J. P. McKay, H. B. Plant, J. B. Dolsonet, W. H. Willard, G. W. Ward, E. B. Borden and J. W. Norwood were chosen the board of directors. All the officers of the company were re-elected.

NEW LIGHT SHINES AGAIN.

Jack Barlow and John Davis Fight an Impromptu Duel with Knives.

New Light township has long been recognized as the home of the wild and free and savage in Wake county. The number of murders and fights and burnings and whatnot of outrageous crimes which have occurred in that secluded burrough in past few years would fill a book, equal in sensational features to the famous novel from the pen of that dashing novelist, Clyde Frothingham, entitled "Forty Buckets of Blood or the Widow's Revenge." The people generally are glad and free, and moonshining is the most profitable and generally followed business. It is worth a stranger's life almost to go into the worse sections. He sees no one, but from the rear of the houses and the bars and bushes wild curious eyes follow his every movement. Let him wear a white collar and he will be run from the community. The bend of Neuse river, in the heart of New Light, is hardly accessible to the stranger. For there dwell the Harrikins, the tribe that can drink more liquor, and shoot straighter than all their neighbors.

Jack Barlow and John Davis are Harrikins. They got in a row at a corn-shucking last week, and both pulled pistols. But as one was Mayor of Harrickville and the other Chief of Police, the crowd interfered. Each man pulled his remaining gun; these also were taken away. Then while the crowd gathered and cheered like school boys, they pitched into one another with knives. Both men were badly cut, but the crowd interfered before murder was done; the combatants were too valuable citizens to lose.

Mr. R. H. Battle remarked the other day that the voting, and therefore fighting, population of New Light must have been moved to Barton's Creek, as no more murderous reports were heard from there. But this story, which comes from an old, nervous New Lighter, with a six-shooter in each pocket and three gallons of corn whiskey tucked safely away in a cowl low of his head of wood, seems to show that the township is looking to settle difficulties. Strikers are securing work in other buildings. The prospect is for a long fight.

A Novel Delivery Wagon.

Nearly every one has heard of the horseless delivery wagon. Few of the residents of Raleigh have ever seen one. Today the representative of a large New York concern arrived here with one of these modern vehicles. He will be in town for several days, and it is quite probable that some of our leading stores will put these machines in their delivery departments. In Chicago the United States Express Company use them for delivering parcels. Several stores in Richmond and Norfolk also use them.

It has three pneumatic tired wheels, and is propelled in the same manner as a bicycle.

Of course, (it being a three wheeler) there is no danger of upsetting, and anyone can ride it after five minutes' practice. The cabinet and parcel receptacle is nearly 3 feet long, and a little over two wide.

The machine is manufactured by the Tinkham Cycle Co., of New York, and Mr. C. F. Byrd, their Southern representative can be seen at the Park Hotel.

Reception by Knights and Ladies of Honor.

The members of the Knights and Ladies of Honor, though the organization is not quite a year old, gave an annual reception last evening at the hall of the order in the Pullen building. A number of invited guests were present and spent a most enjoyable evening.

Several of the members made short and interesting talks. Messrs. T. B. Parnell, T. P. Sale and J. N. McRary, visiting brethren, made short and interesting talks on various orders. Mr. E. S. Chesk was master of ceremonies. After the speech-making an elegant repast, which had been prepared by Dughi, was served. The occasion was an interesting and pleasant one, and was thoroughly enjoyed by those present.

The order though young, is strong and vigorous in this city. It starts a new year under the most favorable circumstances.

Election of Officers.

At the night session of the Sunday school convention the old officers were re-elected as follows:
President, C. P. Wharton.
Secretary, T. Ivey.
Treasurer, W. H. Worth.
The election of delegates was deferred until the evening session.

THE ATTRACTION TONIGHT.

Agnes Wallace Villa in "The World Against Her" a Splendid Success.

Agnes Wallace Villa will be seen at the Academy of Music tonight in "The World Against Her." The hall has been dark for some time, and no doubt a good audience will greet the clever company, which is spoken of so highly.

The Boston Herald says: "The Grand Opera House was densely crowded last night, every seat in the vast theatre and most of the standing room being occupied. This was the opening of the third week's engagement of Agnes Wallace Villa and her excellent company. The attraction was Mr. Frank Harvey's thrilling English melo-dramatic success, entitled "The World Against Her." The curtain was raised at the conclusion of every act, and this was not sufficient, for those causing the demonstration were obliged to step before the footlights and bow their acknowledgments. Agnes Wallace Villa enacted the role of Madge Carlton, representing a loving wife and fond mother. Suspicion is attached to her on account of her holding a secret for a reckless young woman, and her husband is separated from her by divorce, her child stolen from her, and the words of the title of the play, "The World Against Her," are strongly illustrated her wanderings through the slums of London and falling in with honest people, is a pretty picture of human life in the midst of adversities. Throughout the whole piece the scenes and incidents are so greatly changed that it seems really surprising that so much can be embodied in one drama.

FEDERAL COURT.

Meets Monday Week—Nearly 400 Cases for Trial.

The fall term of Federal Court opens in Raleigh Monday week. The numbers of cases docketed far exceeds the number on the docket at the July term, which was the greatest on record. There will probably be four hundred cases with those continued from last term, says Marshall Carroll. One Commissioner alone has over 100 cases. He is from Durham.

This is the last court in the circuit, and it may probably continue in session four weeks. The length of the sessions at Wilmington and Raleigh are not limited as they are elsewhere in the district.

Most of the cases are for "moonshining," though the docket is for the trial of both civil and criminal cases.

Probably the most important case will be the one from Onslow county. A suit for damages is brought against the Pamlico Reclamation Lumber Company for damages. A boiler exploded at Jacksonville killing several people.
