Is the swell idea in clothing. You always get it at our high class tailoring establ'shment. The tailor can no more be banished from clothing than the cook from the kitchen. To buy readymade attire is really as absurd a thing to do as it would be to buy from a general food factory instead of making special dishes in the kitchen. People could eat from a rough and ready assortment of food made for nobody in particular just as men do wear misfit clothing, but why this when good tailoring is within easy reach? It's much better while on earth to look alive and solid in perfectly fitting, well made and stylish clothes such as we're producing to order in the choicest wo less in the market.

A scuttle of it, will keep a stove going all day and make Santa Clause want to enjoy its war th.
