TELEPHONE, - - - 160 MONDAY, DECEMBER 9, 1896.

Ir is wickedly intimated that Lord Salisbury's reply to Mr. Olney on the Venezuelan question had the effect of sending President Cleveland off on that gunning trip in the Eastern swamps of this State. Lord. Salisbury in his reply distinctly and emphatically announces that England has nothing to arbitrate. It is stated that he plainty intimates that the boundary dispute is none of our business, and that the United States would do well to attend to its own affairs. Of course, this plain talk is phrased in diplomatic language, but its substance has the ring of deflance.

Nor many people realize that the United States is spending \$10,000,003 a year for the diffusion of literature, yet such is the fact. The post master general reports that two-thirds of all the weight of matter carried in the mails consists not of letters, but of "second-class matter"—bcoks, ms ga zines and newspapers -and that the transportation of this second-class matter costs about \$18,600,000 more than the government gets for it. As the annual deficit in the entire service is about \$10,000,000. It is clear that the government is spending a good deal of money in giving the p sople cheap reading matter.

Tue next great spectacle which will challenge the attention of the American public, and that of the world as well, will be the great Cen teonial Exposition of Baltimore in just visited Atlanta will doubtless go home fired with enthusiasm to make their own coming show an overshadowing success, and it may be depended upon that they will do it. The Baltimore exposition will cost about four and a half million dollars, where as the Atlanta show cost about two a id a half million. The Baltimoreana are already thoroughly organized and have for months been making active and elaborate preparations.

Ir is said that Washington is rapidly becoming the eddy of Repub lican Presidential booms and boom lets. A Washington special says: The Reed boom we have nad with us and likewise the Allison boom Now the McKinley boom is here. It came into town quietly by night, but, lo! the next day it was vociferonely yawped from the housetops The Morton boom keeps itself modestly in the background, while the Harrison boom is in retirement and Indiana. Yet there are shrewd politicians who think the man from Hooslerdom will flusly espture the glittering prize, and certainly the weather is favorable. Besides these big booms, there are the boomlets of Collom, Davis and Robert Lincoln. It is the gathering of the clans for the preliminary skirmish of the

Tua Republican National Committee will meet in Washington tonorrow for the purpose of determining where to hold the nomination convention. Chicago, as usual, is in the race. National conventions are good things and the Chicagrans ant all the good things they can get. San Francisco and Pittaturg bons in its deliberate fashion to see Louis, too, is making efforts for it. San Francisco is objected to as too far away. The hotel facilities of urg are hardly regarded as fisient St. Louis has some friends. New York city is not tioned. Chicago is alert and salf-confident, also experienced. It is charged against both Chicago and Pittsburg that the local sentiment is strongly for McKinley, and that Cincinnati might as well be chos If the friends of the others combin arginst these towns they may sucoeed in turning them down. Washington has also put in a bid for the

Bucklen's Arnica Salve.
