TELEPHONE No. 168.

SATURDAY, AUGUST 15, 1896.

The campaign in Georgia was formally opened by the Democrats at Marietta Monday last, where Governor Atkinson and Hon. L. F. Garrard addressed an audience of three thousand people. Governor Atkinson confined himself principally to State issues, and produced figures to show that the State government was wisely and economically administered.

All the people of the United States are deeply concerned in the result of the election held by the Chickasaw Nation on Wednesday last. This branch of the Five Tribes has elected a Governor, Senate and Legislature all in favor of the Dawes Commission compromise and the proposed allotment of the Indian lands. This is one decisive step toward a solution of the vexed problem of these southwestern sovereignties. If the other tribes shall only succeed in expressing as genuine a tribal sentiment as this at their polls, the Federal government will not be forced to violate a single treaty stipulation.

A second rumor has arrived of the safe return of Dr. Fridtjof Nansen, who undertook the perilous voyage, in the little steamer Fram, of drifting around or across the North Pole. This latest report is more plausible than was the former rumor. Although no word has been heard from Dr. Nansen in three years, it has been conjectured that he might not have been able to get into any polar current, and might have eventually sought shelter on Franz Josef Land. The steamer Windward, on which he is reported to have returned to civilization, has just come back herself from that region of the Jackson Farrisworth expedition. If Nansen has thus returned he has plainly failed in his mission.

There are several species of bugs which are said to contain considerable gold and silver. On account of this belief people sometimes gather them and melt them. The most popular is a gold producing insect is the golden ossechafer, which is known to secrete as Cetonina aurata. It is a very handsome yellow beetle, with a metallic luster about as big as the end of a man's thumb. But the most remarkable gold bugs in the world are to be found in Central America. The head and wingcases are brilliantly polished with a luster as of gold itself. To sight and touch they have all the seeming of metal, and it is hard to realize that the creature is mere animal. Oddly enough, there is another species of Plusiotis, from the same region, which has the appearance of being wrought in solid silver freshly burnished. These gold and silver beetles have a market value. They are worth from \$25 to \$50 each. The finest collection of them in existence to-day is owned by Walter Rothschild, of the English banking firm. Though only 25 years of age, he has already spent \$200,000 on beetles. Every year he sends men to Central America to gather them.

Don't All Speak at Once!

I have the following bargains:  
20 shares N. B. Raleigh stock.  
7 shares Farina Flour Mill stock.  
5 shares Dime Savings Bank stock.  
1 house and lot on Halifax street.  
\*2 Handsome residences on Halifax street.  
1 handsome cottage on Oakwood avenue.  
\*2 houses and lots on South Bloodworth street.  
1 house and lot near Bledsoe's Grove.  
\*1 house and lot on North street.  
\*1 store and residence combined (a decided bargain).  
1 (3) room house and lot on South street, price \$250, rents for \$52 per year, has a good tenant who pays in advance every week, which is 20 per cent profit. Call and get prices and make me an offer. Those marked \* thus I will sell on 100 months time or for cash. Recollect if you want to sell, McDonald is a hustler. If you want to buy, McDonald is a seller. Stop paying rent. I can give you 100 months time to pay for a home, and if you can't pay for it this way, you will never have one. It is an actual fact. I can sell you a house and your monthly payments will not be much more than your present rent and in some instances less. Give me a trial.

**Don't You Forget It!**  
That the old Reliable Raleigh Branch of the Southern is the best place for the clerk, mechanic and laborer to save some of their money. Better results are shown. See what we have done. Facts! When people have received all of their money with a profit, call and let me show you who they are; they will tell you. If you are going in to save some of your hard earnings and when you are unfortunate, have to come out, you don't only get your hat back, but every red cent (and if in long enough) a handsome profit. If you make six monthly payments you can withdraw and get every cent of same. How is it with others? Rise up, you suckers, who have been nibbling at every new thing that comes along, and tell the people how you have been fooled and how much less you got than you paid. Let them have your experience and they will profit by going in the Raleigh Branch of the Southern, who has been with you six years, and you can't find a single honest person who has any complaint, but instead, praise—actual fact. I have known strangers to come along and sell building and loan stock to men whom I trade with every day and pay cash. Every cent I make is spent in Raleigh. I can give you names of people who cry "patronize home industry" and who order their dry goods, clothing and other things north, even white underwear, instead of giving their savings to our worthy poor people. I had a neighbor who wanted my wife to order a suit of clothes with her (as she could get two for \$1.99 each when one would cost \$2.) I refused, and said I had rather buy here, as I make my living here, even if I have to pay a little more. How is it in financial matters? Would you show good sense in buying cotton mill stock in Rhamkette when the statement of earnings showed they had spent more than they had made, or in one in Oberlin whose statement showed handsome earnings. All I ask you is to use the same common sense in buying building and loan stock. Don't buy ANY unless you know some one who has tried it. Look well, as it will be too late when you have been fed on promise and got them. Show me a man who has ever been in the Raleigh Branch of the Southern, and if he is a sensible man (most of the sensible ones are "still in it" and the others have come back.) Isn't it strange—it is "shut as easy" to get them back when they have had a taste of its profits, fair and square dealing, wherein other associations you could not pull them back with the force of a mule. They know when they have had enough.

**No Money in North Carolina.**  
Why is it that the Raleigh Branch of the Southern does not lend money in North Carolina? Simply for the PROTECTION of her members who have put confidence in her? How is this? Well, the Supreme Court has decided, more than once, that no building and loan association, individual or corporation, can lend money in North Carolina, EXCEPT on straight 6 per cent. The Southern has sense as well as "cents" and only loans her MEMBERS money in those States where our contracts are L.P.H.E.D. She has bids for her money as fast as it comes in those States. She would be SUICIDAL to lend money HERE, where it would take 15 YEARS to mature stock (as it will all associations who lend money in North Carolina at 6 per cent straight) when she can lend it elsewhere and mature her member's stock in less than 9 years (this is the highest estimate.)

Don't you see, then, why any sound building and loan can't afford to lend in North Carolina. If you can't I'm sorry for what little sense you have, and the Southern will do without your cents.
