Support Republican National Ticket.

DOCKERY FOR MCKINLEY

BUTLER ON SKINNER

Causasian Says a Cable was Formed to Down Butler, But that it Was Sit Down Upon-Praises Republicans.

The statement is made absolutely that Col. O. H. Dockery will support the Republican national ticket In the coming campaign. The statement is vouched by Republicans who should know whereof they speak. A Populist of State reputation was asked today whether their party would support Col. Dockery in the event that he came out in advocacy of McKinley and Hobart. His reply was that Col. Dockery would do no such thing, as the Populists had his word for it that he would support Bryan and Watson. When told that the statement was absolutely made by his friends that he would vote for McKinley, the Populist replied that he did not be

lieve it, but that if he did the Populist party in the State would no longer be bound to him.

Will Marion Butler openly support a McKinley man? He and every Populist in the State has taken the silver pledge as set forth at the 'great' silver convention, and which was afterwards used as a test of Populism in this State. He wanted to nominate Zeb. Walser, when he had a statement in his pocket from that gentleman declaring allegiance to McKinley and Hanna. There is no difference in Walser McKinley and Dockery-McKinley, to use Congressman Skinner's expression

The Caucasian this week is full of the Populist Convention, printing a omplete account of the proceedings. In referring to the Skinner Butler lash Senator Butler's paper says : "Of course there were differences of opinion. These differences caused some friction in the convention because every man felt and knew that he had a right to express his opinion and that in doing so he would be listened to unless he advocated something inconsistent with the purposes and declarations of the Peoples Party.
