SAVE THE STATE.

We have heretofore had occasion to remark upon the need to reconstitute against the acrimonious and vehement intolerance which has characterized the exchange of argument between those who are at variance in their financial views. It is certainly very unfortunate where it prevails among Democrats. We do not remember any political campaign in which citizens of the same political affiliation and having common environments and interests, have exhibited such impatient and overbearing vindictiveness, and such bitter and virulent antagonism upon any one issue within their own camp and party. There should be more of the spirit of tolerance—of give and take. As we have heretofore said, we place the importance of keeping the State government of North Carolina in the hands of conservative and responsible men high above that of the acquirement of any nostrum for the amelioration of any national ills. We stake far more upon the success of the State Democratic ticket, than we do upon the National Democratic ticket, and we would counsel a more liberal feeling among Democrats, one to the other, though they may differ on the financial issue, in order that a solid front may be presented to carry the election in North Carolina.

It is a well known fact that in this State there are a large number of Democrats, who are engaged in railroading, banking, manufacturing, and other similar pursuits, who can not, with due regard for their own interests, vote for free silver. They are good Democrats and are working and will vote for the State Democratic ticket. They are also men of character who can not be turned aside by the abuse which is being directed against them by partisan newspapers. It would seem to those who earnestly desire Democratic success in the State that such tactics should be dispensed with. We see no good to come out of it. Democrats have had honest differences before without parting company and we see no reason now why they should be reading each other out of the party when they have a common interest at stake which is much nearer to them and of far more moment than the issue over which they so violently quibble. What is wanted among Democrats is more of conciliation and less of vituperation, more of confidence and concession, less of suspicion and arrogance.

Mr. Harvey, the author of "Coin's Financial School," is evidently afraid that free silver coinage will prevail. According to a dispatch from Chicago he drew \$2,500 out of bank and insisted on having it in gold. He got the gold and locked it in a safe deposit box.

They the two, whose names are Varlet and Abbadie, began, says the London Telegraph correspondent, to quarrel and strike at each other. One of their companions offered to supply them with sword-bayonets, with which they could fight after the fashion of the knights of old at a tournament, and not, as the comrade observed, like corner ruffians. The proposal was agreed to, whereupon the friend rode home for the weapons and returned with them in about a quarter of an hour. The combatants, having selected their seconds and received their arms, charged at one another while mounted on their machines. The result was a shock which sent the men and their seconds sprawling on the ground. Varlet was the only one who was seriously hurt. The sword-bayonet which he intended for his adversary entered his own body as he fell, and he was carried insensible to a chemist's shop, where he was bandaged and sent home.

Can't Eat

This is the complaint of thousands at this season. They have no appetite; food does not relish. They need the toning up of the stomach and digestive organs, which a course of Hood's Sarsaparilla will give them. It also purifies and enriches the blood, cures that distress after eating and internal misery only a dyspeptic can know, creates an appetite, overcomes that tired feeling and builds up and sustains the whole physical system. It so promptly and efficiently relieves dyspeptic symptoms and cures nervous headaches, that it seems to have almost "a magic touch."

Our banking room has been enlarged and refurnished.

A NEW VAULT,
which is entirely fire proof and burglar proof, has been added. The doors controlled by combination, automatic and time locks, built by the Miller Safe and Iron Works, of Baltimore, and superintended by Mr. J. M. Mossman, of New York, an expert in burglar proof work. In this vault we have placed

SAFE DEPOSIT BOXES
of the very latest design, the convenience of which can not be appreciated until they are seen, and all are invited to see them.
The renter of the box has the key, and no one can gain access to the contents of the box without the presence of the renter, and if he should lose his key, the finder could not gain access to the box, the contents of which can be known only to the renter. There is ample room in the boxes for the filing of deeds, valuable papers, wills, bonds, stocks, etc., and perfect security is obtained for very moderate cost.
Convenient and private rooms have been provided for the exclusive use of customers in the examination of papers, cutting coupons, etc.
We have an excellent vault in addition to this fine burglar proof vault for the storage of boxes and packages.
Everyone interested in beautiful workmanship and most delicate mechanism are cordially invited to inspect the new work.
