ROBBERS GOT LITTLE

Engine Returned and Took the Train to Final Destination. The Way They Do Out in Ctah When a Train is Robbed.

By Telegraph to the Press-Visitor. SALT LAKE CITY, Oct. 14 .- The Union Pacific train due here at 3:15 this morning was held up a short distance east of Uintah, near the mouth of the Weber canyon about eight miles from Ogden. It is supposed that two men did the work. How much booty they got is un-known. The engineer who left the train ran ahead to Uintah, and reported the hold up. He believes from a conversation as they went through the train that they intended to blow up the express car with dynamite. A train was made up at Ogden and was dispatched to the scene of robber, with an order to organize a posse.

The robbers failed to get into the safe. After the robbers left the train made up again and was taken into Ogden. The only booty secured was a few mail bags.

RALEIGH AT SOUTHPORT.

The Presentation Occured at Noon Today Raleighites Present.

A special telegram received by Col. F. A. Olds states that the Raleigh crossed the bar at Southport at noon yesterday, drawing 19 feet 8 inches of water. There was 24 feet of water on the bar at the time.

The presentation of the gift to the cruiser took place shortly afternoon. Southport and the shipping in the fine barbor are beautifully decorated. A very large number of people from Wilmington were present.

Governor Carr was escorted from Wilmington to Southport by a division of the State Naval Reserves.

This evening at the armory of the Wilmington Light Infantry, which is one of the finest company armories in the United States, a reception will be tendered Governor Carr and staff Colfax and Morrell.

The finest musical talent in Wilmington takes part in the affair.

The following persons went from Raleigh: Governor and Mrs. Carr. Mrs. T. J. Jarvis, Mrs. H. B. Battle, Miss Eleanor Carr, Capt. S. A. Ashe, Dr. V. E. Turner, Col. N. F. Alston, Maj. E. M. Hayes, Maj. S. F. Telfair.

INGERSULL O POLITICS.

Epigrams From An Address Delivered to 20,000 People in Chlungo.

The following beautiful chetoricis from the inimitable per of Bob Ingersol:

"Money is a part of nature, No man ever made or created money, It is beyond the power of legislatures and congresses. It is beyond the power of the human race. Money is not made. It has to be found, "Twenty-three and twenty-two

one hundreths grains of pure gold make one dollar. That is the money to-day of the United States. That is the money to-day of the civilized world. Ab, but they say, 'Cannot you make dollars out of silver?' I say 'Yes: but when you make a dollar out of silver you have got to put a dollar's worth of silver in a silver dollar.' If you make money out of something else, you have got to put a dollar's worth of something else into the dollar. It takes a dollar's worth of paper to make a good paper dollar. It takes a dollar's worth of iron to make an iron dollar, and it takes a dollar's worth of silver to make a silver dollar.

"It does not make any difference who issues good money. It is just as good when Lazarus issues it as when Dives issues it. No matter whether the government is bank rupt that coins it, the money is just as good. A piece of gold coined by the Romans 2,500 years ago is just as good to-day as when Julius Cæsar rode at the head of his legions. Since that time darkness has fallen over the Roman Empire, and the empire. has passed into oblivion, but the gold coined shines as brightly now as in Rome's palmiest days, That is good money.

"If the Government can make money by law-and I would like to have some good Bryan man answer the question-if the Government can make money by law, why should the Government collect taxes?"

"No government can afford to be a clipper of coins. A great republic cannot afford to stamp a lie on silver or gold or paper. Honest money for an honest people, issued by an honest nation!

"And why should we envy the rich? The Vanderbilts and the Astors and the Rockefellers never drank and colder water than I have. They never smoked better cigars. They never ate lighter biscuits nor better potatoes, nor drank better and other guests, the officers of the Illinois wine than I have—than you Raleigh and of the Revenue Cutters have. We know the ecstasies of love We know the love of wife and child and friend, and in some respects we have the advantage. They fear and we hope. They are at the top, and they are afraid of falling. We are close to the ground and we hope to climb. And, now, is a man to be envied simply because he has got more than he can use? What good is that? What is the use of carrying 100 canes? What is the use of having more than you can possibly spend?"

"The citizens of America should be friends. We have no permanent classes. The children of the rich today may work for the men who worked for them. Sons of millionmendicants may be millionaires, avenue to distinction and wealth to her children. That is why I like the country. That is why I don't want it disbonored

"I want no classfeeling. Blessed extravagant and the poor economical. Miserable that country where the rich are economical and the poor are extravagant. A rich spendthrift is a blessing. A rich miser is a curse."

NEW BALLOT BOXES.

dors today. They looked like coffics and were colored like coffins and they will be used for coffins on the 3d of Novem-

Those objects of curiosity are the pallot boxes in which we are expected to cast our speckled tickets on election day. The boxes are made in accordance with an act of the last General Assembly. They were constructed by Messrs. Hicks

Each voting precinct must have four boxes. While only two of them are used for voting, the others are known as duplicate boxes in which the votes are deposited as they are counted.

Section 19 of the new election law

That the clerk, or, upon his failure, the board of election, shall prowide ballot-boxes for each class of officers to be voted for in their respective counties, or precincts, as the case may be, in which to deposit the ballots for such officers, respectively. The said ballot-boxes shall be in the custody of the board of election for each precinct during, every election, and shall oe turned over to the custody of the clerk for safe keeping, upon the close of the election, until the next ensuing election. The board shall carefully examine the ballot-boxes before the voting begins, and see that there is nothing in them. Each box shall be labeled, in plain and distinct Roman letters, with the name of the office or offices to be voted for, and the question or questions to be voted upon. They shall be of sufficient dimensions to contain one cubic foot of inside measurement, and shall be provided with a good, strong lock and key; the lid of the box shall be secured by hinges, and have an opening at the top large enough to admit one folded ballot, and no more.

Chairman Holton to Send a Lawyer to Every College, Challenge Day.

Chairman Holton makes the announcement that a lawyer will be sent to every college in the State on the 24th-challenge day-for the purpose of supporting the challenges of the college students. The Repub lican chairman said he had issued a circular to college students advisthey desired to vote. The Republican students will do so, he said.

"Will you send an Attorney to Shaw University?" Mr. Holton was asked.

"No sir, they do not vote here. Mr. Holton said that 113 students had registered at Wake Forest and that he would send Hon. J. W. Graham there.

It has been determined that Senator Blair shall continue his speeches in this state until the day of election. Chairman Holton said last evening that threeRepublicans had register-

ed to one Democrat. Zeb. Walser is in a happy frame of mind these days. He says the Democratic proposal to the Populist is impracticable for the fact that the negroes in Eastern Carolina begin to vote the latter part of the week is that country where the rich are and they will stop about a week after theelection. Mr. Walser thinks the Democrats will make Butler their boss and in the future there will only be one ticket in the field, as the boss is always ready to accept a proposition from the Republicans.

They May not Make a Counter Proposition.

OTHO ADDS INSULT

rys We Can Vote for Guthrie if W. Want to Defeat Russell-Committees Can't Carry the People.

The humiliating spectacle to which the Democratic organization has been brought by the action of the profusionists has stirred the ire of Democrats all over the State. Per-sons who came in on trains today invariably gave the information that the Democrats were disgusted, and it is a fact.

Tonignt Otho Wilson and his al ies will add additional insult. It is evident to persons acquainted with the situation that the Populists intend to hit the Democratic organization as hard a lick as possible tonight. They intend to force Guthrie and they hope by that means to to bring negotiations to an end. It is intimated that the Populists may state in their reply that the time is too late for making any deals.

The Populists will decline to yield their candidate for Governor and they will not yield their five con gressmen whom the Republicans have endorsed.

That they will reject the State Committees' proposal there is no doubt, but whether they will submit a counter proposition is a question which the Populist leaders decline to pass upon.

The fact is the Populists know they cannot carry their forces with such a fusion, no more than can the Democrats carry their hosts and they are not going to risk their ex istence as a party.

Major Wm, A. Guthrie arrived here last evening. The Major is an unusually popular man of late (outside of the Republican breast works) being the possessors of three of the highest nominations within the gift of the people of North Carolina.

A PRESS-VISITOR reporter asked the Major what he thought of the proposition submitted to the Populists by the Democratic Central Committee for fusion.

"I don't think just now." he replied. "I am in the bands of my Royal and Augusta and the Port Committee." Adjutant Wilson re- Royal and Western Carolina have urned to the city today. like chairman Ayer has no idea that the Populist Committee at the meeting them to go home and register if ing tonight will accept the Demo cratic proposal.

"We will write across it 'rejected. shall make a motion before the committee," the adjutant continued, that we invite the Democrats, if they are so anxious to overcome the negro and so much desire Russell's defeat, to vote for Mr. William A. Guthrie for Governor."

"And then what will you do with their offer for fusion on Congressmen. State officers and legislators?' "Why, we have already fused with the Republicans on those offices.

The Populist Executive committee meets in the city this afternoon at 8 o'clock. Chairman Ayer has received replies from most of the members to whom he sent telegrams summoning them here and most of them will attend.

The members of the Populist committee are: H W Ayer, chairman; Dr. Cyrus Thompson, Richland; Capt. A. S. Peace, Oxford; J B Lloyd, Tarboro; S O Wilson, Raleigh; W K Pigford, Clinton; Col. Harry Skinner, Greenville; J T B Hoover, Elm City; V J McArthur, Lissen, Sampson county; W O Stratford, Greensboro; Y C Morton, Rockingham; J H Sherrill, Catawba; R A Under the Ganvass.

M'BEE SAWS WOOD. lays Low and Says Nothing of the Son

The Atlanta Constitution of yes

terday says. General Superintendent V. E. Mc-Bee, of the Seaboard Air Line, was here yesterday. If he had any inside information about the deal that is supposed to have taken place of to be in progress he kept it to himself. He gave that old stereotyped reply: "All I know is what I see in the papers."

As heretofore stated in the Con-

stitution, the New York parties, headed by Mr. Ryan, Mr. Harvey and Mr. Henry Crawford, took an option on 6,000 shares of the Seaboard and Roanoke stock, and paid a considerable sum on the option. They offered a big price for the stock if they ware to have the privilege of looking over the Seaboard system and books, as their bid was based on certain statements made by President Hoffman as to what the Seaboard had been doing in the last vear. The financiers who were doing the negotiating do not buy a cat in a bag without looking at the cat. It will be remembered that the Seaboard bought the Georgia, Southern and Florida once, providing the earnings were a certain figure. After the books were examined the deal was declared off, the Scaboard declining to buy.

In the present instance it is thought that the Rvan syndicate will close the trade after the investigation is completed. There is still no end of guessing as to whom the syndicate is buying for.

That the sale was being planned was known to several persons for some time prior to the offer which General Gill made publicly. The Louisville and Nashville people, that is President Smith and Mr. Belmont, were on to it long prior to the public announcement. Some think that the Seakboard will eventally be operated with a very close understanding between it and the Louisville and Nashville. The belief is gradually dissipating that the Seaboard will be operated under the Southern, even though both systems were controlled by practically the same parties.

The South Carolina authorities, as published in The Constitution last week, are already moving to find out the relations between the Southern and the Seaboard. It will be shown that they are entirely distinct. For some time past the Port been giving their business to the Seaboard in preference to the Southern, when the letter road could have been favored just as well. This would indicate that Messrs. Thomas and Ryan preferred the Seaboard to the Southern.

On its face, it certainly indicates that the relations between Ryan and Thomas and the Southern are not those of intimate partners, but on the other hand it is known that the financiers named have the closest business relations with the financial agents of the Southern. The South Carolinians have been watching for evidence to show that the Port Royal and Augusta and the Port Royal and Western Carolina are controlled by the Southern railway. Close traffic relations between the roads might be taken as evidence. But the Port Roya! roads do not compete with the Seaboard. and there is no constitutional objection to their consolidation. Really the addition of those shorter lines would be an advantage to the Seaboard, for they would give it an outlet to Port Royal and Charleston, and would let the system into some fine territory which it can only reach now over connections.

REGISTRARS AGAIN

The Winston Case Heard on Appeal by the Supreme Court.

Today, before the Supreme Court, the case of the Winston registrars was argued on appeal. Messrs, E. B. Jones and C. M. Busbee, counsel for the defendants, gave notice of appeal yesterday after Judge Montgomery's order. Mr. Jones does not think the case was within the jurisdiction of Justice Montgomery.

The court heard argument today by Messrs. Jones and Busbee and Maj. Graham for the plaintiff. The court will meet this afternoon and review the case and it is possible that an opinion may be filed this evening, though such a proceeding is contrary to the customs and practices of the court
