Railways Pay One Teuth States' Taxes.

### INCREASED MILEAGE

The A. & N. C. Stockholders Meet Thurs day-Mr. Wm. R. Tucker Payors the Lease as do Other

The Railway Commisson through the Chairman, Maj. J. W. Wilson, has forwarded the sixth annual report of the Commission to Governor Carr. The reports is replete with valuable and interesting information, a good part of which has been

made public.
The report shows that mileage in railway construction for the year ending June 30 was as follows: Caldwell and Northern 10.6, Henderson 10.26, Aberdeen and West End

This is a total of about 26 miles Since June 30th, the Aberdeen and West end road has been completed as far as Troy.

The total mileage of railroads in the State, is 3438.65. The value of this property is put down at \$26,-576,046. There has been an increase in the valuation of railroad property in the State since the establishment of the Commission of \$14,254,392.

One tenth of the entire taxes of the State is paid by the railroad compa-

The stockholders of the Atlantic and North Carolina railroad meet in Newbern Thursday to decide whether they shall confirm the lease of the road to a party of Newbern capitalists. While the statement has been repeatedly made that the Southern was behind the parties desiring the lease, it is stated with much positiveness by several Southern officials that this is not the case.

Mr. Wm. R. Tucker, of this city, who is the largest private stockholder, favors making the lease. The other stockholders of Raleigh are said to favor it.

# IN THE NEXT SENATE

dioted That There Will be a Con tinued Silver War.

The Washington Star of yesterday says: "The man who sits contentedly down and says silver is done for has not looked into anything. He puts a light estimate upon the men in the aste who have vowed to support silver to the last ditch. This is a of the situation to which little study has been given. The prospects are fair that the sound money men will control the Senate after March next, but their majority will not be large, if it should be a majority at all. The minority is made up of strong, able men-legislators who have as much experience as those on the other side. Teller, Morgan and Vest, it is cited, are matches for the brightest men on the other side. The political student sees that these men are not gring to fold their hands in the Senate. It is certain that from the beginning of the first or extra session of the next congress these men, backed by a solid following, will begin the struggle of their lives for mastery in politics. The greatest game of politics ever played in the Senate of the United States is on. Every move to be made, and which must be met by the republicans, will be in the interest of silver. If it does not take the shape of bills for silver remonetization, it will come in other forms. It will be a continual play to reflect upon the administration and to strengthen the cause of the white metal. Nothing will be left undone. The silver men will meet often and caucus over the ments of the situation. They will set practically as a unit. It will be peculiar if there is any divergence of roads for the various elements now. They are bound by a compact which they can not part. They may differ on the that this difference will not be great The Southern men are going to give their Western bretbren a great deal of what they want in the way of proection to Western interests and in-ustries. They will not fall out over these things. So the opposing side will stand solidly together, and the contest will wage fierce and hot for

## COLORED GIRLS' DEATH.

Her Uncle Charges That She Died Fro

Ida Hill, a colored girl of bad character died this morning at her ome in east Raleigh.

Tom Hill, an uncle of the girl swore out a warrantagainst Clarence Upchurch charging him withhaving dealt the girl a blow which resulted

Mr. Upchurch was taken in custody, but subsequently released on his own recognizance.

It seems from what can be learned that the girl made some offensive remark to Mr. Upchurch while passing along the street last Wednesday and that he struck her over the head with an umbrella. It does not appear that the blow was a serious one as the girl came up town the next day for the purpose of bringing ome action against Mr. Upchurch.

Solicitor Pou has been telegraphed to know whether a post mortem examination shall be made of the dead

It is not believed that Mr. Upchurch hit the woman a severe blow and again it is asserted very positively that she died from other causes. His friends say that he will be entirely exhonorated.

### POULTRY KEEPING:

An Interesting Publication on this Subject Prepared by Mr. F. E. Hege.

An interesting and complete publication on the above subject is ready for distribution by the Experiment Station. It is written by F. E. Hege, Manager of the poultry division of the station, and intended for popular reading to give comple information about poultry raising. It has 58 pages and is illustrated with 40 cuts showing the appearance of all the more important breeds of poultry including ducks. Descriptions with cuts are given of easily made poultry houses, rood houses and brooders, an of the various appliances found necessary and useful in poultry raising. Cuts are also given showing the changes that take place in the egg during incubation. Complete instruction is given as to the care of poultry with all the more common diseases. The subjects of artificial hatching by means of incubators, and subsequent care of chickens by brooders are fully described. Feedingand care of young chickens bred by the hen or by incubator, and also grown fowls, are

completely discussed. An important subject which considered is how to improve the common stock by means of a thorough-bred cock. It costs but little any more to feed an improved breed or a well selected cross, than the ordinary barn yard fowl, yet the former is far more profitable. How to dress and ship poultry to market is also described. The bulletin will be sent free upon' application to Dr. H. B. Battle, director, Raleigh, N.

C. Poultry raising with the proper care can be made more profitable than almost any other branch of industry, considering the amount of money required. The object of the organization of the poultry division of the Experiment Station is to show how this can best be done, and this is also the object of the above bulletin. Every farmer or his wife should

### AT THE PLAYHOUSES.

The Academy Re-opens With "A Night" Frolic." ... Good Show at Metropolitan-Gus Thomas' great comedy, "A Night's Frolic," will be presented by Wilson and Thayer's "fun makers" and comedy stars at the

Academy of Music Monday night. This attraction will be followed by Jeffry's Lewis and Jane Coombs and then comes the celebrated Stuart Rolson, former partner of W. H. Crane. Mr. Robson is supported by Madame Janauschek and an all star cast. Augustus Thomas, the author of "A Night's Frolic" who also takes "the blame" for writing the famous plays "Alabama," "The Capitol" and In-Misowri," is one of the best known dramatists in the United States. "A Night's Frolic" is fun from start to finish, with no 'let up" until the drop of the curtain on the last act, which always makes the audience regret the closing.

"A Night's Frolic" is made up of excruciatingly funny incidents, through the characters being at cross purposes. Each and every one of the ten characters is well marked, especially the dual role of the gay young widow and the gallant French officer, played by Miss Orient Anson, and are almost sufficient in themselves to make any play of course, be served.

The Woodward-Warren Company Last Night.

A full house composed very largely of ladies, greeted the Woodward. Warren Company at Metropolitan Hall last evening and the entire company went away highly pleased at the peformance. The Company is a most meritorious one and in addition to giving a lively and vivacious play they introduce many clever specialties including song and dance and jest. It is a meritorious aggregation of people who know how to do good work and entertain an audience and they succeed in doing it. The show is certainly worth the popular price of admission. Every one who attends the performance gets a numbered coupon and the one who holds the lucky number to be chosenSaturday night will get \$25.00 in cash. Those who wish to be well entertained and amused tonight should by all means take in the performance.

The Woodward Warren Company will present "The Great Diamond Mystery" tonight. Speaking of this production the Montgomery Daily. Advertiser says: "The Woodward-Warren Company scored\_another signal success last night in their romantle comedy drama in five acts, entitled "The Great Diamond Mystry." The opera house was packed to its utmost capacity and standing room was at a premium when the play began. The plot is smooth, easily followed. well worded and, best of all, was in the hands of a

canable cast. There have been romantic dramas at O'Brien's before, but by companies who taxed the public a dollar for the privilege of select seats, but few of them have surpassed the performance witnessed last night.

Washington, Nov. 10.—Chairman

Mark Hanna's announced determination to maintain the national republican committee as a permanent in. etitution, and to continue the war on free silver without cessation, means a great deal. It means that he and the business men of the country do not care to go through another scare like the one of a few weeks ago; that they do not want another stagnation of affairs to come in the midst of prosperity. To prevent these disasters and interruptions to business the business men of the country have agreed with Mr. Hanna that the best thing to be done is to crust the idea of free silver further into will be the attractionat M Opera House tonight. interpose again there is no doubt With these ideas in view Mr. Hann: tinus the fight on the white metal the hope being that he can effectually stamp out further agitation before

Johnston county is still the banner county of North Carolina's temporarily terrified democracy. While the democrats in other counties may be terrorized or terrified the Johnston quality is as game as of old.

Johnston has held the banner for the past four years and to the Democrats of Johnston is the honor four more years.

Johnston gave Cy Watson 1.600 majority, which is the largest given by any county to the Democracy's courageousstandard bearer. Several other counties have disputed with Johnston the claim of being the banner county, but Hon. E. W. Pou informs us that Johnston leads all other counties and will keep the banner in her possession.

From official returns received at republican headquarters, it is stated that Russell's majority is 12,009.
