TELEPHONE No. 168.

Friday, Nov. 13, 1896.

Of all the non-sensical laws ever placed upon the Statute books of North Carolina or of any other State, the law which provides that successful candidates shall turn in to the Secretary of State and to Clerks of the Court statements of their campaign expenses surpasses them all. If these statements afforded any information that bore the semblance of accuracy they would be worthless, but no intelligent man will suppose for an instant that any candidate is going to render an account which would bear the test of any sort of conscientious scrutiny. The statements are supposed to be for the information of the public but the public knows about as much about it when the statements are made as the gamins in Higans Alley and McFadden's row know about astrology. The sooner the legislature can take that asinine legal dispensation off the statute book, so soon will it relieve itself, the candidates and the public generally from the laughing stock of the earth.

Capt. W. H. Rameur of Charlotte has placed a contract with the car-building firm of Jackson & Sharpe of Wilmington, Del., for a car to be used for the purpose of advertising the resources, products, manufactures and enterprises of North Carolina. It will be patterned after the fashion of the Florida car, and like which, it will travel over the United States. The contract price of the car is \$10,000, and it is to be finished in North Carolina woods, which are as pretty as any produced in the world. This is the enterprise of the North Carolina Advertising Company, of which Capt. Rameur is manager. The materials for stocking the car are being collected and will be ready to be placed by the time the car is ready. There will be a fish and bird display of all kinds from the east; birds, bears, deer and various kinds of game from all parts of the State; woods of all varieties; the different products of the various minerals, and in fact, it will be an exposition on wheels. It will visit the people of all the cities and towns in the North, East and West.

The Postoffice Department is about to enter into a contract with the United States Mail Package and General Pneumatic Delivery Company, of Philadelphia, for the establishment of a mail service by pneumatic tubes between the New York and Brooklyn city postoffices. By the end of the week it is expected that all the preliminaries will have been settled. It is expected that the tube will be ready for service by June or July of next year. By means of this arrangement all letters and first-class mail matter passing between the two cities will make the trip of one and two-thirds miles inside of three minutes from the time the mail is handed in at one office to its delivery at the other. There will be two tubes, one carrying the mail in either direction, and special

machinery will be necessary at each end. The mail going by this route will be placed in a carriage seven inches in circumference by twenty-four inches long. The carriage, which fits the tube very snugly, will, on leaving the New York post-office, go shooting under ground across City Hall park, and across the Brooklyn bridge at the rate of forty miles an hour.

# Cures Talk

"Cures talk" is favor of Hood's Sarsaparilla, as for no other medicine. Its great cures recorded in truthful, convincing language of grateful men and women, constitute its most effective advertising. Many of these cures are marvelous. They have won the confidence of the people; have given Hood's Sarsaparilla the largest sales in the world, and have made necessary for its manufacture the greatest laboratory on earth. Hood's Sarsaparilla is known by the cures it has made—cures of scrofula, salt rheum and eczema, cures of rheumatism, neuralgia and weak nerves, cures of dyspepsia, liver troubles, catarrh—cures which prove
