ECONOMY

May be necessary in many ways when deliars are scarce and wants many, but it is not desirable to practice it in the purchase of food, which is life. Below a certain standard food imperfectly nourishes; up to that standard it costs a reasonable price. We never want more than a reasonable price for our Groceries.

RAPID SALES

Give our customers the benefit of close margins. We never keep any-thing that is not the best of its kind, and we only want a fair profit on what we invest in it.
