WEDNESDAY,

The very valuable, instructive and well conceived paper of Prof. Howell, superintendent of the Raleigh public schools, read by him before the Chamber of Commerce last night was one of the most timely productions we have heard and elicited the keenest interest and approbation of every one who was present and a vote of thanks by the chamber. The paper was replete with practical wisdom and progressive thought and is worthy to be commended to the thinking people of Raleigh.

Application for charter was made at Americus, Ga., Saturday for the De Soto Piantation Company, composed of Northern capitalists, who recently purchased the Dodson plantation of 5,280 acres, near Americus. The incorporators ask to be granted the privilege of conducting a general farming business, planting orchards and vineyards, and creeting a cannery for preserving fruits, vegetables, etc. The capital stock paid in is \$50,000, but this may be increased to \$100,000. Already the company has planted 21,000 peach trees, and the old cotton plantation will soon be transferred into one of the largest fruit orchards in Georgia.

Edward Geddings, a farmer living near Sumter, S. C., had been ill fo six weeks with the prevalent grip A few days ago he became much worse and Monday morning diedthat is, was pronounced dead by his doctors, nurse and relatives. The coffin was ordered and the body prepared for burial. In the afternoon it was placed in the coffin, the interment to take place Tuesday morning. During the evening, when the room was full of the dead man's friends, who were talking in low tones, a voice was heard issuing from the coffin. One of the bolder men opened the lid and Geddings rose to a sitting posture and spoke to them. He was quickly undress ed and put to bed. At last accounts he was reported improved, and there are row hopes of his recovery. Doctors say it is a remarkable case of suspended animation and the simple folks in the community are all agog.

Whatever the other Southern States may do, says the New Orleans Times-Democrat, Mississippi is likely to reduce its acreage in cotton. The agitation in favor of a reduced acreage has been going on there for some time past, even before Colonel Lane's address on the subject. Mississippi has had personal experience of the bad effects of an excessive acreage. Last year it planted more cotton than ever before, and yet it got less money than for the much smaller crop raised the previous year, and which cost 25 per cent. less. It will not make the mistakea s cond time, but will devote itself more extensively to food crops and will plant the largest acreage in corn and similar cereals ever known This result has been brought about largely by the constant agitation of the State press, which has always

newspapers have stirred up public opinion, which is demanding that Mississippi shall return to its old position of being self-supporting, raising all the food it needs, and

using its cotton as a surplus or

which it can buy clothing, etc. The

food crop movement seems to be

stronger in Mississippi that in any

other of the Southern States, but if

it is the success there we have the

reason to expect, it will probably
