The Quaker's Crimped Crust Bread Pan.

"Mama, what did Aunt Jane mean by 'the upper crust'?" This crooked-edge bread has crust just the same all around.
"O, she was speaking of people, my dear. They are not done in Quaker Pans, more's the pity, else so many of them wouldn't be half baked."
There is no such thing as an uneven bake for Crimped Crust Bread. Every part of the loaf bakes evenly. It can't burn—the steam held in won't let it burn. It can't run over, or bulge unevenly. Every particle of goodness, every daintiness of aroma is retained. It stays moist within and sweet long after other bread would be stale.
Just as good for Cake or Pudding as for bread.

A Grand Review.

Every eye is on us—every hand applauds. We set the pace—lead by virtue of our buyers—our completeness—our truthness—our liberality. The only competition is Berwanger against Berwanger—the present against the past.
We have fought through thick and thin for better qualities and lower prices. We have made ourselves a part of the great market centres of the world—our buyer stands guard at the very headquarters of supply, and every advantage to be gained by active capital, persistent and untiring watchfulness is yours through this great—great store.
The history of our seven years is a succession of triumphs—victories—unsullied by a single surrender to the temptations of the shoddy and unreliable. Our ambition has raised a high standard of worth—and our energy—our enterprise has paved your way to it with lowest prices.
