EDUCATIONAL PROGRESS IN NORTH CAROLINA.

The next session of the North Carolina Teachers' Assembly, which meets at Morehead City, June 15, bids fair to surpass any occasion of the kind ever held in North Carolina. The work of the session has been planned on a different system, and will be conducted differently from that of any session yet held.

The most important innovation is in the introduction of departmental work. Half of each day will be devoted to the study of the subjects taught in our public schools and academies, special emphasis being given to methods of teaching these subjects most successfully. Each subject will be handled by a teacher of distinguished ability and experience. There will be informal discussions, and the opinions and experiences of all can be heard and discussed. There will also be classes in Education, Vocal Music and Drawing; and lectures on School Law and Civil Government. All of these departments will be presided over by teachers from this and other Southern States who are in thorough sympathy with our Southern people, and who fully understand the conditions and needs of our schools and teachers.

Special departments are being organized for the County Examiners and other school officers, college presidents and professors, city school superintendents and teachers, academy and high school principals and teachers, primary teachers. Each department will be in charge of a committee appointed especially to prepare a program that will interest and instruct those engaged in that particular work.

The convention feature will be managed differently, and is expected to be more interesting and profitable than it has been possible to make it heretofore. Questions will be discussed that will interest all classes of teachers and intelligent citizens. The speakers will include leading educators and others—among them, some of the leading business and professional men and editors of the State. So that the question of education and its influence and effect upon the professions and business interests will be discussed from every standpoint.

The evening, or "Culture," lectures will be of such a nature as to instruct and entertain everybody. The pleasure feature will be looked after with greatest care, and the musical part of the program will be complete.

Hotel rates will be same as before, and railroad rates will be less than ever offered before.

Official Bulletin, containing complete program and full information, will be issued about the 15th of April. All the friends of education are invited to attend.

W. H. Payne, Chancellor of the University of Nashville, and President of the Peabody Normal College, of Nashville, Tenn., will be at the Teachers' Assembly this year. President Payne is the leading educator of teachers in the South, if not of America. He was for several years President of the Normal Department of the University of Michigan. He made such a reputation in that capacity that, in 1887, the Board of Trustees of the Peabody Education Fund, composed of such men as President Cleveland, J. Pierpont Morgan, Dr. J. L. M. Curry, chief Justice Fuller, President Gilman of Johns Hopkins University, and Governor Porter of Tennessee, sent a committee to see President Payne,

with instructions to secure his acceptance of the position offered at any salary he might name.

Under his administration the attendance has increased from about one hundred and eighty to nearly eight hundred. All the Southern States, and a number of the Northern States, have contributed to this number. President Payne is author, editor and translator of numerous works on the Science, History, Theology and Art of Education. He is in full sympathy with the Southern people, and fully understands the conditions that confront us.

The Peabody Normal has exercised a wonderful influence in educational circles in North Carolina. The State has nineteen scholarships at this college, each worth \$100 cash and travelling expenses to and from the college, annually, for two years, with free tuition and books. This is about sufficient to defray the student's expenses. Many of the leading teachers of the State were educated there.

Good Blood

It is essential to health. Every nook and corner of the system is reached by the blood, and on its quality the condition of every organ depends. Good blood means strong nerves, good digestion, robust health. Impure blood means scrofula, dyspepsia, rheumatism, catarrh or other diseases. The surest way to have good blood is to take Hood's Sarsaparilla. This medicine purifies, vitalizes, and enriches the blood, and sends the elements of health and strength to every nerve, organ and tissue. It creates a good appetite, gives refreshing sleep and cures that tired feeling. Remember,

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier.

Pleasant Medicine
The food you eat is of vast importance in keeping the system right. Eat right and you'll rarely have doctor's bills to pay. Good bread and butter is the best medicine in existence. It's bad it's worse. Probably it's never occurred to you how careful you should be about your bread and your butter. We have a flour which we guarantee to make the best bread it's possible to produce. There's no adulteration, no bad wheat in it—simply the best wheat grown, ground in the best and most cleanly manner. It's **Patapson Flour!** And it costs \$3 per half barrel. Better buy the best, but we can give you cheaper if you want it. Now for the batter! It's just as important as the bread. We have a batter which perfectly matches the bread made from Patapson Flour. It's a light, creamery butter, fresh, sweet, clean, appetizing and absolutely pure. 30 Cents a Pound!
