

DIAMOND JUBILEE ON

Queen Victoria Arrived in London This Morning

VICTORIA WELCOMED

By the Seething and Patriotic Multitude—The Queen Travelled in a Magnificent Special Train.

By Cable to the Press-Visitor. LONDON, June 21.—The Queen is now here. An immense crowd gathered near Paddington station early this morning to receive her. The early hours were enlivened by the peeling bells, and in the morning a breeze floated the royal standard.

The first point of interest in the days proceedings was at Windsor, where by 6 o'clock a short route leading from the Castle to the Great Western railway station was lined by a mass of people gathered to see the Queen start. Flags and flowers were everywhere and the order of the day was, "God save the Queen," which appeared on houses and on banners without end. The statue of the Queen near the Castle was decorated gorgeously and canopied in renaissance style. Tall Venetian masts, with fluttering pennons, lined both sides of the route. At 11 o'clock the Queen left the Castle railway station, which was beautifully decorated in scarlet and gold flowers, in bloom and tall palms. The Queen was received by the director of the railway. The Queen's train, which was used for the first time today, was drawn up close to the entrance to the door. A magnificent engine, "The Queen Express," was beautifully painted and picked out with gold leaf. It carried the royal arms, emblazoned in gold and colors in front, and the royal heraldic devices over the splashboards.

The Queen's carriage, 54 feet long, occupied the center. The car is divided in three compartments. The metal work is silverplated. The start for London was made at eleven fifteen. Almost the entire distance of the train was passed between scattered groups of loyal people. Every station was decorated. The railway employees everywhere stood in salute. Paddington was reached at eleven fifty-five.

The state carriage at Buckingham palace was in waiting. As soon as the queen was seated the life guards drew up the front and rear, and a roar of cheers proclaimed to the waiting thousands beyond that she had arrived. Before starting the loyal address was presented by Rev. Walter Abbott, vicar of Paddington.

Throughout the route is lined by an immense assemblage, every window being occupied, and the roofs are crowded. The Queen drove slowly to gratify the people. Her face everywhere loosened the voice of the multitude. Through Burton's gate the Queen passed to the garden entrance of Buckingham palace always the object of endless homage, salutes and cheers, which continued until the gates had shut the Queen from view.

At 4 o'clock this afternoon in the throne room of Buckingham palace the Queen received Imperial and Royal envoys. The last touches are being put on decorations today and the morrow is looked for by the thousands that will pack the streets.

YELLOW FEVER IN N. Y.

A Vessel from Colon Brings Three Cases—Three Deaths at Sea.

By Telegraph to the Press-Visitor. NEW YORK, June 21.—The Columbian Line steamship, *Finance*, arrived this morning from Colon with yellow fever aboard. Three cabin passengers are ill. There were three deaths at sea from the disease.

Sued for \$10,000. Hon. Duck Kitchin, is here to answer a summons in which he and Harry Skinner are sued for \$10,000 by a man named Corpening who they charged with stealing their money and some articles of apparel while at the St. Louis convention last year, says the *Newton Enterprise*. Mr. Corpening was their room mate and Duck says his conduct was of such suspicious nature before and after they missed their money that they had every reason to make the charges against him.

Mr. R. C. Rivers returned from Morehead today.

AN EDUCATIONAL TRAIN.

The Seaboard Air Line Arranging a New Enterprise for the Benefit of the People.

The Seaboard Air Line is undertaking something new and is having fitted up a train of cars for the purpose of conducting a traveling industrial training school in its territory. They will employ experts in canning, preserving, pickling, butter and cheese making; in brief, will have experts to teach the people on their line how to save every farm product, and will make exhibits of agricultural machinery and household conveniences so that the people along their road may learn of the advantages gained by using improved implements. They will have in operation machines for the improvement of country roads, and have the county officials in the fifty odd counties through which the line passes see the improvements that can be made on roads by the use of machinery. The Seaboard Air-Line bears the expense of maintaining this enterprise, not even asking the manufacturer who exhibits his machines to pay freight on what he exhibits. It takes a whole train of cars, including sleepers and dining cars and a crew of twenty men to handle the work. If the road makes a success of this work all other railroads in the country will be compelled to follow their example, and they, as well as the people generally, are interested.

Geologists on a Tramp. In the summer of 1893, Prof. Collier Cobb, head of the geological department of the University, organized a geology class for the purpose of better acquainting the students with the geology of North Carolina and affording them opportunity for practical work in this branch of science.

This year the class is making a special study of the Deep Pine River section of Triassic rocks, which extends from Oxford, in Granville county to the South Carolina line. In the class is Mr. P. Du P. Whitaker, of Raleigh.

The class left Chapel Hill in charge of Prof. Cobb, and have visited Pittsboro, the coal mine and Eudor Iron Furnace, near Egypt, the Miscerine, Clay Hills, near Sprout Springs, and the large brownstone quarry, near Sanford.

Before returning to Chapel Hill they will visit Southern Pines, Hamlet, Polkton, Cary and Raleigh. The excursions are made on foot whenever practicable, and afford an excellent opportunity for studying the geology of the section through which they pass.

Excitement Over Mica Mining

State Labor Commissioner Hamrick has returned from his second tour of inspection of mica mines in Alexander, Rowan, Cabarrus, Iredell, Guilford, Davidson, Union, Burke and McDowell counties. He has now visited 100 mills. He finds that in the counties above named there are no new mills under construction, but there is a large increase in the number of spindles. He finds the greatest excitement ever known regarding mica mining, this being due to the proposed tariff duty. This interest is very great in Cleveland, Burke, McDowell and Buncombe. One man in Cleveland is moving his dwelling, very fine mica having been found under it. No monazite is now being mined, but people are waiting for the duty to be imposed. There are plans to renew tin mining at Kings mountain. Not much gold mining is being done, save in a few sections. In McDowell some new shafts are being sunk.

The President May go to Winchester. By Telegraph to the Press-Visitor. WASHINGTON, June 21.—The people of Winchester, Va., have renewed their invitation to the president to attend the fair to be given there next September, and it is possible he will accept. They have communicated with him again lately and have received a reply that answer, probably accepting, will be forwarded in a few days.

Big Crowd Expected.

Twenty thousand persons are expected to attend the International Epworth League Conference at Toronto next month. Most of the delegates from this State will leave Norfolk on the steamer Old Dominion for Baltimore Tuesday, July 13th, at 1:30 o'clock p. m. At Baltimore a special Epworth League train will be made up, and will carry the North Carolina, Virginia and Maryland delegates.

ON TO NASHVILLE

Trains Filled with Veterans—Raleigh Poorly Represented.

Raleigh will be poorly represented at the confederate veterans reunion, which occurs at Nashville this week. Col. T. S. Kennan is the only veteran who has gone to Nashville so far.

Mr. J. C. Birdsong organized a large party of veterans, who desired and would have made the trip to Nashville, could a lower railroad rate have been obtained.

A car load of Baltimore and Virginia veterans passed through the city yesterday afternoon on the Seaboard southbound mail.

Attached to the same train was private car C with President Hoffman, of the Seaboard Air-Line, and a party of friends aboard, enroute to the exposition. All trains for the west and south are loaded with veterans and exposition visitors.

Sold His Wife for \$100.

By Telegraph to the Press-Visitor.

ALLIANCE, OHIO, June 21.—Jacob Zellar and Brecht Yanne, natives of Switzerland, rented a farm just east of this city two years ago. Zellar had a wife and family while Yanne was single. Zellar's wife is comely, and it was not very long before Yanne became her ardent admirer. Zellar often complained of his hard lot, and regretted leaving Switzerland. Last Sunday Zellar said that if he had \$100 he would go back to Switzerland. "Sell me your wife, and stay away forever, and the money is yours," Yanne is said to have replied. "Take the children, Brecht, and it's a bargain," said Zellar. "Done," replied Brecht. The papers were made out and the money paid over that evening in the presence of several of their countrymen. Today Jacob left Alliance for Switzerland.

Locusts Are Poisonous.

By Telegraph to the Press-Visitor.

WASHINGTON, Pa., June 21.—Farmer David Watering, who lives north of here, shipped some eggs to Pittsburg friends, who ate the eggs and became ill, the symptoms being those of poisoning. Investigation showed that the eggs caused the sickness. Mr. Watering's chickens had been feeding on seventeen-year locusts. A woman living west of Washington cooked a chicken last week, but none of the family could eat it. It, too, had fed on locusts. A friend of Silas Brown, an invalid, killed a squirrel and cooked it for him. It made the invalid so ill that he is near death. The squirrel had lived on locusts.

Marrying Parson Strikes.

By Telegraph to the Press-Visitor.

MILWAUKEE, June 21.—The Rev. W. A. Hunkberger, who is known all over the west as the "marrying parson," and who has married as many as twenty couples in one day, has decided that he will marry no more people on Sunday. This will be a death blow to Milwaukee as the Grays Green of Chicago unless some one arises to succeed Mr. Hunkberger. In summer and winter, but especially in the summer, it has been the fashion for excursionists to visit him and be married by him, and it was no uncommon thing for five or more couples to be waiting in the parsonage.

Soon Weighed of Cuban War.

By Telegraph to the Press-Visitor.

ATLANTIC CITY, N. J., June 21.—Charles Nash, 19 years old, employed by Grocer W. R. Lewis, has returned from Cuba, whither he went a month ago to fight for freedom's cause. Four days of Cuba's warfare took the ardor from him and he gladly returned.

SHORT COOL SPELL.

Col. Von Herrman Promises Cool and Fair Weather Tonight and Tomorrow.

Chief weather promoter von Herrman promises fair and cool weather both tonight and tomorrow. The thermometer was 70 this morning and the barometer 29.94. The weather is now generally fair throughout the entire country. A high pressure area central over the Ohio valley and Lake region dominates the weather throughout the central valley. The temperature has fallen considerably, except in the extreme south. The barometer is low on the middle and north Atlantic coast and in the north-west. Only a few stations report cloudy weather and light showers.

Important Meeting.

Capital Lodge, No. 147, I. O. O. F., meets tonight at 8:30 o'clock. A full attendance is desired.

J. E. BARBERS, N. G.

BARNES TO GET JOB WORK

Public Printing Contract to Be Let This Week.

THE BOOK WORK

Will Be Let to the Lowest Bidder—Governor's Council Will Probably Meet Wednesday Evening and Decide the Matter.

The Council of State will decide this week the matter of letting the State printing for the next two years.

The General Assembly passed an act placing the disposition of all of the State's printing in the hands of the Council of State. The contract of the Messrs. Stewart, of Winston, who have had the printing for the past two years, expires in July. The Council has discussed the printing matter at several previous meetings, but no agreement was reached. The contract would have been let last week had the governor been in the city. It has been learned positively from members of the Council that the public printing question will be finally disposed of during the present week.

It is very likely that the Council will be called to meet Wednesday evening in the governor's office. It is learned on very good authority that the members of the Council are agreed that the job work shall be separated from the heavier work, such as printing and binding books and reports.

The Press-Visitor can state that the job work will be given to the Barnes' Bros. of this city. It is generally conceded that that firm will be awarded a contract for all the job work.

The printing of the laws and journals, reports and the such like will be let under competition to the lowest bidder. And this is the solution of the public printing matter.

The Stewarts are said to be listless in the matter and have made no special effort to get the contract. That firm has made more over the state printing than has ever been made by any bidder in the past. It is said that the Stewarts have cleared more than twelve thousand dollars by their contract. That the printing during the past two years has cost the state an outrageous sum is a well known fact.

A member of the Council remarked today that all the job printing would certainly be done in Raleigh and that as much of the binding as possible, would be done here.

So far no bids have been made on the printing, though none have been asked.

FELL BETWEEN CARS

Mr. W. R. Kenette Had His Foot Badly Mashed at Franklin Va.

Mr. W. R. Kenette, of this city, accidentally fell from a Seaboard Air Line freight train near Franklin, Va., last night and was painfully, though not dangerously wounded. Mr. Kenette left the city last night about eight o'clock on freight train No. 22 in the capacity of flagman. He was on top of the caboose when the accident occurred. The train suddenly jerked forward, precipitating Mr. Kenette to the ground, part of his body falling between the cars. His foot was badly crushed and one bone broken. It was a miraculous escape from a horrible death.

Mr. J. E. Kenette, brother of the injured young man, went to Franklin this morning and returned with his brother this afternoon. Mr. Kenette was carried home and is resting easily. His many friends here hope for his early recovery.

Fearful of Crops in New York.

By Telegraph to the Press-Visitor.

NEW YORK, June 21.—There was a light frost last night which was one of the coldest nights on record for spring. Farmers are fearful that crops were ruined.

Summer School Opens Tomorrow.

Special to Press-Visitor.

CHAPEL HILL, June 21. The University summer school will begin work tomorrow morning. Profs. Moses, Jackson, McMurry and others have arrived.

Mr. J. E. Kenette.

Capital Lodge, No. 147, I. O. O. F., meets tonight at 8:30 o'clock. A full attendance is desired.

J. E. BARBERS, N. G.

TWO EXCURSIONS

Give an Impetus to Street Car Business and Watermelon Trade.

Two excursions brought a happy lot of pleasure-seekers to the city this morning. One came from Goldsboro and the other from Clinton. Each of the trains was composed of five cars and the capacity of the coaches was fully tested.

The tourists found a great deal of enjoyment on the street cars and Pullen Park was made headquarters for the party.

The remaining watermelons in the city found anchorage before the excursionists returned.

The Clinton excursion brought no less a distinguished personage than Hon. Abe Middleton, who carried more Russell "savages" during the republican campaign for the gubernatorial nomination than any other two men.

The excursionists were very much pleased with their trip.

TODAY'S MARKETS.

The Movements in New York and Liverpool Markets.

NEW YORK, June 21.

Market quotations furnished by E. B. Cuthbert & Co., 39 Broad street, New York, and 305 Wilmington street, Raleigh, N. C., over their special wire:

The following are the opening, highest, lowest and closing quotations of the New York cotton market:

MONTHS.	OPENING.	HIGH-EST.	LOW-EST.	CLOS-ING.
January,	6.98	6.98	6.93	6.96-
February,
March,
April,
May,
June,	7.34	7.29-
July,	7.35	7.29	7.33	7.29-
August,	7.29	7.36	7.27	7.34-
September,	7.05	7.10	7.02	7.09-
October,	6.89	6.92	6.86	6.91-
November,	6.85	6.78	6.83	6.87-
December,	6.88	6.91	6.84	6.90-

Chicago Grain and Provision Market.

The following were the closing quotations on the Chicago Grain and Provision market today:

Wheat—July, 67½; Sept. 63½.
Corn—July, 24½; Sept. 23½.
Oats—July, 18; Sept. 17½.
Pork—July, 7.40; Sept. 7.50.
Lard—July, 3.70; Sept. 3.80.
Clear Rib Sides—July 4.32; Sept. 4.37.

Liverpool Cotton Market.

The following were the closing quotations of the Liverpool cotton market today:

June	4.05-06 b
June-July	4.05-06 s
July-August	4.05 s
August-September	4.1-02 s
September-October	3.50 b
October-November
November-December	3.50 b

Matrimony Declining.

It is stated by gatherers of vital statistics that matrimony is declining—that the percentage of marriages to population shows a steady falling off. One would hardly expect to find this thing charged to the bicycle, yet an eminent English scholar and observer finds that the wheel has something to do with it. He thinks the attention of many young men is so absorbed by the greater part of the year that the girl does not get her full share of consideration.

Excursion to Asheville.

Mr. R. E. Pipkin, of Goldsboro, will conduct an excursion from Goldsboro to Asheville, on July 13th, remaining two whole days, leaving Asheville on the morning of the 16th. This excursion will be first class in every particular. The fare from Raleigh is \$4.00 for adults, children between the ages of 6 and 12 half price, and those under 6, free. For full information concerning the trip apply to J. Hal Bobbitt, Raleigh.

BRIEFS.

Georgetown College is this week to confer the degree of LL. D., on Associate Justice Robert M. Douglas, of Greensboro.

Attention is called to the great sale now going on at the store of Messrs. Woolcott & Son. Read their new "ad."

Mrs. Julia Hales, her daughter Ethel and son Master James, who have been visiting at the residence of Mr. J. W. Jones, near Forestville spent the day in the city and left this afternoon for Greensboro.

The Naval Reserves have elected Francis Winslow commander. He got six votes and George L. Morton five. Neither Commander Winslow nor Lieutenant-Commander Morton were aspirants. The purpose of the re-election of Commander Winslow is declared to be a vindication of that officer, whose resignation was demanded by Governor Carr and also because of the ex commander's efficiency. It is also a slap at ex-Governor Carr, who removed Winslow from Graham this morning.

Mr. W. H. Bagley was taken to Baltimore last night, where she will undergo special treatment. She was accompanied by her daughter, Mrs. Joseph Daniels and Dr. Hubert Haywood. Mrs. Bagley's large circle of friends and acquaintances hope for her early recovery.

KILLED TWO COWS.

A Boiler Exploded at Wakefield—Workmen Escaped Unharmed.

A very remarkable explosion occurred Saturday evening, a few miles from Wakefield, the thriving young town in the lower part of Wake county.

The boiler to an engine which furnished motive power for a threshing machine burst, killing two cows. The cows were pelted with pieces of iron and had the appearance of being shot by a cannon. The explosion occurred shortly after 12 o'clock and the engineer and the eight men who were running the machine had, just a few minutes previously, gone off to a shade tree some fifty yards distant to eat dinner. The boiler was blown a great distance, but fortunately went in an opposite direction from the workmen.

Strange to relate, the threshing machine, which was situated close by the engine, was not hurt at all.

Mr. H. J. Dukes, the owner of the machine and engine, is in the city today looking for a new engine. He cannot account for the explosion.

House Party Breaking.

The delightful house party given by Miss Mattie Pace during the past week, began to break today, to the regret of a numerous social circle that has enjoyed the charming hospitality of the hostess.

Miss Lula Hawkins returned to her home in Louisburg and Miss Nancie Clark returned to Tarboro, accompanied by Miss Margaret Overman, who will be her guest.

Miss Mary Bellamy, of Wilmington and Miss Cora Holt, of Burlington are still guests of Miss Pace.

The Beer Bottle Was Shivered.

Infanta Avery and Alfonso Trice are bootbacks. Both are large enough to wear short pants. Alfonso Trice is known as "monk" among his brother bootbacks. Yesterday Infanta greeted Alfonso with "a good morning Monk," and there is where Infanta erred. Alfonso dropped his box, seized a beer bottle, laying near and shivered it on Infanta's cranium.

This morning Infanta was able to be in court, but his head was concealed behind a lot of bandages. Alfonso's mother agreed to pay Infanta's bill with the druggist and physician for dressing the wound and the mayor let him off with a thrashing, which his mother plied heavily and furiously in the station house.

Matrimony Declining.

It is stated by gatherers of vital statistics that matrimony is declining—that the percentage of marriages to population shows a steady falling off. One would hardly expect to find this thing charged to the bicycle, yet an eminent English scholar and observer finds that the wheel has something to do with it. He thinks the attention of many young men is so absorbed by the greater part of the year that the girl does not get her full share of consideration.

Mr. George N. Walters had ripe tomatoes from his own garden yesterday, four days earlier than last season. Native grown tomatoes are now plentiful in the market.

Mr. T. B. Eldridge, the former associate editor of the deceased Tribune spent Sunday in the city and was warmly greeted by old friends. Mr. Eldridge is now telegraph editor of the Norfolk Landmark.

Natlan Sledge and Malinda Sledge were committed to jail yesterday afternoon under a \$50 bond on a charge of delaying and obstructing an officer. They subsequently gave bond and were released from custody.

Prof. E. P. Moses, for many years superintendent of the city graded schools, arrived in the city yesterday and his many friends here were pleased to greet his genial countenance. Prof. Moses is now located at Rock Hill, S. C.

The library at the Centennial school will be opened tomorrow from 11 until 1 o'clock. All pupils who sit in assembly halls of Murphy and Centennial schools are requested to be at the library at 12 o'clock to see how many degrees the sun is from the zenith.

The Ferris wheel, Colonel J. S. Carr loaned to the ladies for their Charlotte Exposition, and which he has been using to display the product of his farms at the different fairs, has been stolen. It was loaded on a flat car at Charlotte, and started home, but disappeared en route.

Mrs. W. H. Bagley was taken to Baltimore last night, where she will undergo special treatment. She was accompanied by her daughter, Mrs. Joseph Daniels and Dr. Hubert Haywood. Mrs. Bagley's large circle of friends and acquaintances hope for her early recovery.

Mrs. W. H. Bagley was taken to Baltimore last night, where she will undergo special treatment. She was accompanied by her daughter, Mrs. Joseph Daniels and Dr. Hubert Haywood. Mrs. Bagley's large circle of friends and acquaintances hope for her early recovery.

SHORT STATEMENTS.

Minor Matters Manipulated for the Many.

AROUND THE CITY.

Judge E. W. Timberlake is in the city. Governor Russell returned to the city today after a week's absence. Mr. B. C. Glover and wife, of Durham, was in the city yesterday. Miss Mary Battle is in the city the guest of Miss Lillie Hicks. Editor Moffitt, of the Christian Sun, returned from Durham this morning. Rev. A. L. Betts yesterday administered the rite of baptism to two persons in Pullen's pond.

The ladies exchange will serve a delightful quality of ice cream at the exchange this evening until 10 o'clock. Mr. Samuel B. McPheeters has returned from the University of Virginia to spend the summer with his parents. Miss Cornelia Bailey has gone to Durham where she will spend some time with her sister, Mrs. J. M. Wyatt.

Mr. Wm. S. McPheeters left this morning for Poughkeepsie, N. Y., to take a course in Eastman's Business College. Mr. and Mrs. Henry Turner are paying a visit to Dr. V. E. Turner on North Person street. Mr. Turner is a son of Hon. H. G. Turner, of Georgia.

The Governor's Guard will give a sham battle at Pullen Park this evening at nine o'clock. The cars will make quick schedule. There will be a Peace Institute rally at the residence of Mrs. J. M. Heck, Tuesday afternoon at half-past five o'clock. All "Peace" girls are invited to be present.

Raleigh and Franklin baseball teams will play here Saturday, June 26. Franklin has one of the finest amateur teams in the south. Raleigh is in good trim. Another edition of the public laws will have to be printed as four copies have not been supplied. There is not a single copy for sale, and there is a demand for them by lawyers and others.

Mr. George N. Walters had ripe tomatoes from his own garden yesterday, four days earlier than last season. Native grown tomatoes are now plentiful in the market.

Mr. T. B. Eldridge, the former associate editor of the deceased Tribune spent Sunday in the city and was warmly greeted by old friends. Mr. Eldridge is now telegraph editor of the Norfolk Landmark.

Natlan Sledge and Malinda Sledge were committed to jail yesterday afternoon under a \$50 bond on a charge of delaying and obstructing an officer. They subsequently gave bond and were released from custody.

Prof. E. P. Moses, for many years superintendent of the city graded schools, arrived in the city yesterday and his many friends here were pleased to greet his genial countenance. Prof. Moses is now located at Rock Hill, S. C.

The library at the Centennial school will be opened tomorrow from 11 until 1 o'clock. All pupils who sit in assembly halls of Murphy and Centennial schools are requested to be at the library at 12 o'clock to see how many degrees the sun is from the zenith.
