MONDAY July 19

Wheelmen generally will support the rule endorsed in many city instructing police officers to receive wheels as collateral for appearance in cases where wheelmen are arrested for violating ordinances for the regulation of bicycling. This is a request to which there should be no objection.

It is reported that ex-President Cleveland will, in November, be formally tendered the office of president of the University of Virginia. Heretofore the chairman of the faculty has been at the head of the university. The invitation would have been made to Mr. Cleveland after the final last month had it not been for the hot discussion that rent the meetings in twain and successfully thwarted any action for the present.

If anything makes pleasant reading these drowsy and meditative summer days, it is those delightful stories of the Alaska gold fields, where the pure ore is being brought in by the careless and fortunate miners in sacks and jars even jelly tumblers—in everything in which the precious metal may be carried. Everybody, it seems, is making money—indeed, has it "to burn," in the graphic phrase of the day, although gold luckily, is a thing you can't burn.

The statement of the exports and imports of the United States issued by the Bureau of Statistics shows that never before in the history of the country have the exports of merchandise, which include practically all exports except gold and silver, reached so high a figure as during the fiscal year ended June 30, 1917. When the existing tariff was under discussion it was contended by the Protectionists that it would flood the country with manufactured goods. The result rather proves that the Wilson tariff has made the country a Billion Dollar country in the matter of exports.

The opinion has become general that the President has abandoned the idea of sending in a message recommending that he be given authority to appoint a commission to examine into and report upon the best plans and methods of reforming the currency and financial systems of the country. It was given out with something of a flourish of trumpets immediately upon the passage of the tariff bill through the Senate that the executive would urge Congress to give him the necessary authority to name an official monetary commission. The days since then have sped by, as days have a habit of doing when they are not watched, and the message has not come in. The public was assured that it was written and only needed the signature of the President and the services of Major Pruden to lay it before Congress and the people.

Statistics just completed by the Superintendent of State Prisons in New York show that "since the present law took effect, in 1890, forty persons have died in the electric

chair, while from the creation of the State until that date there were but 230 hangings in all the counties." In other words, there has been an increase in executions of over 200 per cent a year as compared with the number during the preceding one hundred years. Chief Clerk Baker, of the prison department, thinks that the increase has been due to the fact that juries, believing in the humanity of the present system, are more liable to convict; and also that the place of execution being removed from the county where the criminal is known there is less likelihood of securing executive clemency.

Merit Talks

"Merit talks" the intrinsic value of Hood's Sarsaparilla. Merit in medicine means the power to cure. Hood's Sarsaparilla possesses actual and unequalled curative power and therefore it has true merit. When you buy Hood's Sarsaparilla, and take it according to directions, to purify your blood, or cure any of the many blood diseases, you are morally certain to receive benefit. The power to cure is there. You are not buying blood pure, rich and nourishing, and thus drive out the germs of disease, strengthen the nerves and build up the whole system.

Harris' Lithia Carbonated

We guarantee that one glass of Harris' Lithia Carbonated Water will relieve any case of indigestion in one minute's time or money refunded, or if taken after each meal will cure any case of indigestion. Read what the noted Dr. Davega, of Chester, S. C., has to say for it:
MRS. J. T. HARRIS:
DEAR SIR—For the past eight months I have been using Harris' Lithia Water, with the most excellent results, where I have been able to get my patients to drink a sufficient quantity daily. The Carbonated has no equal in Gastric disturbances. In old chronic dyspepsia if you will wash the stomach with salt and water, and have an hour later have your patient drink the Carbonated Lithia you will make many friends and improve many stomachs. It is an excellent laxative, and is a sure cure for flatulent dyspepsia.
