ENTITLED TO PAY

Attorney General's Opinion as to the Two Wilsons.

AUDITOR SO INFORMED

Attorney General Walsler Gave His Opinion at the Request of Auditor Ayer—It is Full and Complete.

Attorney General Walsler renders an opinion today deciding that Maj. J. W. Wilson and S. Otho Wilson, railway commissioners, whom Governor Russell attempted to suspend from office are entitled to pay while they are actually in discharge of the duties of the office.

The opinion was given by the attorney general at the request of Auditor Ayer.

This afternoon Maj. Wilson made formal demand on the auditor for a warrant on the state treasurer for his monthly pay.

The attorney general gives his opinion at the request of a state officer. Such an opinion is in nearly all instances accepted, but it is purely optional with such state officer whether he is governed by it.

Attorney General Walsler's opinion is full and complete and shows clearly beyond doubt that the Messrs. Wilson are entitled to draw pay, while de facto commissioners. We quote from the Attorney General's opinion submitted to the Auditor:

"By reference to the railroad commission act, chapter 320, section 1, laws of 1891, you will find the following language: 'In any case of suspension the governor shall fill the vacancy, and if the General Assembly shall determine that the commissioner suspended shall be removed, then the appointee of the governor shall hold until his successor is elected and qualified as hereinbefore provided, but if the General Assembly shall determine that the suspended commissioner shall not be removed from his office, then the effect shall be to reinstate him in said office. The person discharging the duties of said office shall be entitled to the salary for the time he is so engaged, but a commissioner who is suspended shall be allowed the salary during his suspension in case he should be reinstated by the next General Assembly.' The act contemplates the appointees by the governor, taking possession of the office and entering upon the discharge of the duties thereof. If they could have taken possession of the offices, and had done so, and the next legislature should reinstate the suspended commissioners, then and in such cases, both sets of commissioners under the act would receive compensation. But statutes must be construed in pari materia.

"Acts of 1885, ch. 406 sec. 2, requires, 'That no appeal by defendant from the judgment of the superior court in such action to the supreme court shall stay the execution of the judgment, unless a justified undertaking be executed on the part of the appellant by one or more sureties, in a sum to be fixed by the court, conditioned that the appellant will pay to the party entitled to the same, the salary, fees, emoluments, and all moneys whatsoever received by such appellant by virtue of or under color of his said office: Provided, that in no event shall said judgment be executed pending said appeal, unless a justified undertaking be executed on the part of the appellee by one or more persons in a sum to be fixed by the court, conditioned that the appellee will pay to the party entitled to the same, the salary, fees, emoluments and all moneys whatsoever received by the appellee by virtue of or under color of his said office during his occupancy thereof: Provided, this act shall not apply to any pending suit.'

"It is clear from the statutes just quoted that it is your legal duty to issue a warrant for salary to the commissioners who are actually engaged in the discharge of the functions of the office of railroad commissioner. In so doing no harm or loss can come to the state or to either of the parties claiming to be rightfully entitled to the office of railroad commissioner.

"This office has already granted leave to the appointees of the Governor, Messrs. L. C. Caldwell and John H. Pearson, to bring two severable actions to test the question under consideration. Before the defendants Messrs. J. W. Wilson and S. Otho Wilson are permitted to answer

or demur, the Superior court may require them to execute an undertaking to secure to the plaintiffs damages for the loss of such fees and emoluments as may come into the hands of defendants by virtue of holding said offices.

In case the defendants for any reason fail to answer or demur, and judgment be given in favor of the plaintiffs, a writ of mandamus would issue to carry the judgment into effect.

"If the defendants answer or demur, and judgment should be taken against them, and an appeal taken by them to the Supreme court, they must execute an undertaking to pay to the plaintiffs the emoluments received and to be received by such appellants by virtue of or under color of their said office. If and in case the defendants should appeal from a judgment taken against them but for some reason not given the bond as required by law, then the appellees, Messrs. Pearson and Caldwell would be put in office, and be required to execute an undertaking to pay to the party entitled to the same, the emoluments and all moneys whatsoever received or to be received by the appellees. And in no event under the statutes above named shall any one pending an appeal to the Supreme court be permitted to discharge the duties of the office of railroad commissioner and receive the emoluments of the office without first giving a good and sufficient bond conditioned to pay to the party entitled to the same, whenever the right to the office shall have been determined, all moneys whatsoever received or to be received by such person, by virtue of or under color of his said office. And this bond would relate back to the time of suspension.

The State is saved harmless, no matter who wins. And when the courts have ruled as to the rights of all parties concerned, the statutes cited above and commented upon, will give the emoluments of the office to him who shall be legally entitled thereto."

DECORATIONS THE THING

Mr. Mitteldorfer Here—Fair Notes—Bicycle Checking Privilege.

Mr. L. Mitteldorfer, the decorator from Richmond, Va., arrived in the city this morning to perfect arrangements for decorating the principal business houses of the city for fair week. Mr. Mitteldorfer did some splendid and artistic work in decorating here on the occasion of the unveiling of the Confederate monument. Decoration is the biggest possible advertisement for the fair and our citizens should awake to the importance of it.

Mr. Will Primrose has secured the fair ground privilege for checking bicycles at the grounds.

Special efforts are being made to render the poultry department of the fair of particular interest. A large number of exhibits of fine chickens are expected.

The entries for the running and trotting races are being made rapidly, and there is every indication that this will be, as it nearly always is, a most enjoyable feature of the fair.

A large number of local wheelmen, as well as many others from all parts of the State, are expected to enter.

A HANDSOME PLACE.

The Elegant Store of Messrs. Royall and Borden.

A look into the elegant and handsome new furniture store of the progressive firm of the Royall & Borden Furniture Company, shows one that it is one of the most elaborate, extensive and complete establishments in the State. Since this live and progressive firm has occupied its new quarters in the Central hotel building on the corner of Wilmington and Hargett streets, they have more desirable quarters and a handsomer display of furniture than ever before. On the first floor is a magnificent assortment, including all the latest and most modern styles as well as the most modest and inexpensive. The Royall & Borden Furniture Company in their new house are prepared to furnish any thing from the humblest cottage to the most palatial home. On the second floor they have a number of rooms en suite in which they show their elegant suits of furniture to the finest advantage. Their patrons will find them at their new headquarters, fully established and prepared to furnish them with better values, more modern and attractive, and at lower figures than ever before.

GRASS ON STREETS.

Street Committee Says Chop Should be Harvested.

ALDERMEN TO MEET

Will Decide Whether We Are to Have a Close or Wide Open Town Fair Week—Other Matters.

The board of aldermen meet tonight. The matter of allowing saloons to remain open all night fair week will come up. A waymaster is to be elected.

The following is the report of the street committee:

TO THE HONORABLE MAYOR AND BOARD OF ALDERMEN:

Your committee on streets beg to submit the following report:

We feel that this board has a just cause of congratulation on account of the very substantial endorsement which it received at the polls on September 7.

We are satisfied now that the people of Raleigh are in full sympathy with the course heretofore pursued by the street committee in urging the importance of using so much of the city's finances as was appropriated to the street department in making improvements of a permanent nature.

There is no department of the city government which is more closely interwoven into the warp of human existence and the every day life of its citizens than that of improving and cleaning its streets. The health, prosperity, convenience and comfort of the people of the town depend materially on the manner in which the city affairs are administered along these lines. No city is free from the constant menace of epidemics and diseases of all sorts whose streets are in an unclean and filthy condition, and no city can be kept clean without well drained and properly paved streets.

The paving of P. O. S.

In view of the fact that the state fair is to be held in this city during this month and desiring that our city should present as handsome an appearance as possible, we recommend that the telegraph, telephone, electric light and other companies having poles on the streets in the city be required to paint these poles a uniform color between now and the 18th of this month. There are a large number of poles on our streets at the present time of all sizes, shapes, and colors, and we believe that if these poles were all painted a pretty shade of green it would add much to the appearance of our streets.

The Capitol Square.

The Capitol square situated in the center of the city has always been a source of pride to our people, and one in which they have taken deep interest. The walks in this square have been in a bad condition for many years, and they have been seemingly neglected by our state officials.

We are glad to see that his excellency, Gov. Russell has taken this matter in hand and is beginning to beautify the grounds by improving the walks in the square.

We believe that every patriotic citizen in North Carolina will feel a warm thrill of State pride at his heart on account of this act and will applaud the Governor in this course and we hope that he will continue the good work until this square which belongs to the State and around which so many hallowed associations cluster, is made a thing of beauty and a joy to all of the people in North Carolina.

We recommend that this Board most cordially endorse the Governor's action in this matter.

The Rock Quarry.

It is the desire of committee to open the rock quarry as soon as possible. We commenced investigations along this line immediately after the September election.

We found some obstacles in our way and we are now endeavoring to overcome them as rapidly as possible.

In the first place we found that the rock quarry did not belong to the city, but was the property of the State and while it is practically of no value to the State, yet we feel that it is necessary to proceed in a legal manner in order to secure possession of the property.

We have requested His Honor, Mayor Russ, to secure a lease of the

property, and he is now giving it his usual prompt and careful attention.

We have also been negotiating in regard to the purchase of machinery, but this matter has taken no definite shape, and cannot proceed further until the question of the possession of the quarry is finally determined.

Grass on the Sidewalks and Streets.

We notice that grass is growing between the street car tracks in some parts of the city which speaks badly for our city. This should not be allowed, and as this part of the street is kept up by the street car company we recommend that they be notified to remove the grass now growing between their tracks in the city as quickly as possible.

We also recommend that the chief of police be requested to call specially to the attention of his men the matter of grass growing on the sidewalks.

The property owners are supposed to keep their sidewalks clean and free from grass. We regret to say that the sidewalks in some parts of the city are badly covered with grass. The policemen are furnished with notices to warn the property owners of the violation of the city ordinance in regard to this matter, and they should see that this ordinance is enforced and that the sidewalks are properly kept open.

Street Force.

The street force has been doing some very good work recently at the intersection of South and Blount streets.

A wonderful improvement in the appearance of the streets in that part of the town has been made within the past thirty days. A person going there now and recollecting the former condition of the streets would hardly recognize them at the present time. We are now making arrangements to curb South street from Blount to West street. We have also made arrangements to curb the sidewalks on the streets around the Capitol square. Work is being pushed on our streets very rapidly at the present time, and as soon as we dispose of the bonds we shall increase the force and push the work more rapidly than ever. All of which is respectfully submitted.

Respectfully,
JOHN C. DREWRY.

GAINED THREE YEARS.

Two Silver Goblets Saved Moses Williams, Thief, Those Years.

Some time ago Moses Williams stole an umbrella from Mr. L. A. Myers and two silver goblets from the residence of Mr. R. A. Jones. Williams denied the theft of the goblets and he could not be induced to give up the property.

His case came up in court today and he was found guilty of the charges. But what did the verdict amount to, with the negro still in possession of the goblets Judge Robinson was equal to the occasion. He sentenced Williams to six years imprisonment, but with the condition that he would take off several years of the sentence if he returned the goblets.

The negro asked for an officer. His request was granted and he told Officer Woodall that he would find the goblets in the cellar at the Tabernacle church. Officer Woodall failed to find the goblets, but upon inquiry he learned that Sexton Medlio had them in his possession. They were produced in court this evening.

Judge Robinson then sentenced Williams to three years imprisonment, reducing his time half.

A Popular Hotel.

One of the liveliest towns in Eastern North Carolina is Rocky Mount. There is as much life and energy to be seen there as in any town in the State. A test of a good town is its hotels and Rocky Mount has five of them. The Hotel Woodard, of which Mr. W. C. Woodard is proprietor, is a most popular resort, especially for traveling men, and is always filled with the traveling public who visit Rocky Mount on the sixteen trains which pass to and fro each day on the Southern and the Coast Line. It is one of the neatest and best constructed hotels for comfort to be found any where, the table is of the best and the genial host understands the art of making every guest well pleased and happy while there.

Miss Bertha Creighton gave a delightful rendition of Romeo and Juliet at Metropolitan Hall last evening. Miss Creighton has decided ability and she has every prospect of a promising future. Her work was far in excess of that of her support.

MOTHER'S SAD END

Kills Herself and 4 Children by Asphyxia.

AT A NEW YORK HOTEL.

Registered at Eight O'clock This Morning—Soon Afterwards Gas Was Smelt and an Examination Followed.

By Telegraph to the Press-Visitor.

New York, Oct. 1.—A woman registered at the Westshore Hotel at forty-second street and eleventh avenue, the name of Mrs. Caroline Pomelius of West Point with her four children. They were given rooms at eight this morning. While the servant was passing the rooms he smelt gas and told the clerk who made an investigation and found the woman and four children in two rooms dead from inhaling illuminating gas.

The crime was evidently planned, as all the cracks of the windows were well stuffed with clothing. She is about forty. The children were from three to fifteen. All were well dressed. The coroner and police were notified and an investigation begun.

Jim Apologizes.

Jim Young takes back in this week's issue of the Gazette what he said about W. A. Pottillo, who announced that he would sue him for libel. The Gazette says:

The editor of the Gazette desires to say that he has not at any time charged Rev. W. A. Pattillo with being an embezzler. It is not true that Rev. Mr. Pattillo was defeated for Supervisor of the colored department of the deaf, dumb, and blind institution because this charge was made. The election of Rev. Joseph Perry was made simply because a majority of the board of directors preferred him, and not because there was any charges reflecting upon the character of Mr. Pattillo.

At the Mansion.

At the governor's mansion this afternoon from 4:30 to 10 o'clock the Woman's Temperance Union will give a social evening and lawn party. Refreshments will be served during the hours. Everybody is cordially invited. Music by the band.

FIRST GAME THIS SEASON

A. & M. University Eleven to Meet on Gridiron Tomorrow.

Saturday the football season in this state will be inaugurated in a match game between the eleven of the University of North Carolina and the A. & M. college.

The boys of the college will go to the Hill this afternoon in order to be in trim shape tomorrow to test their skill with the Varsity team.

The A. & M. team will be accompanied by about 100 students, the greater number of whom will drive through the country. The boys are anticipating a pleasant trip. While they do not expect to defeat the University eleven, they propose to play a fast game and a good account may be expected from them.

CONTINUED FAIR.

Tonight and Saturday is the 'Veather Prediction.

The report, issued by the weather bureau at 8 o'clock this morning, says: "Fair tonight and Saturday."

The minimum temperature during the past twenty-four hours was 54; the barometer was 30.28 this morning.

The weather remains clear over the entire country except southern Florida, where some rain has fallen. The storm in the Gulf, however, has nearly disappeared.

The barometer is highest in the Ohio valley and north of the Lakes, with clear, dry weather everywhere. Throughout the east the winds are variable, but west of the Mississippi are generally from the south.

OVATION FOR SAGASTA

New Members of His Cabinet—Crisis is Not Ended.

By Cable to the Press-Visitor.

MADRID, Oct. 1.—The Libera's are preparing to give an ovation to Sagasta, their leader, upon his arrival here today. It is taken for granted that he will form a cabinet as follows: Gomez, minister of foreign affairs; Moret Y. Prendergast, minister of colonies; Gen. Corva, minister of war. It is not expected that the cabinet crisis will be ended for another week.

Miss Lidia Parham has returned home from a two months visit to relatives at Gibson station.

NOVEL SLANDER CASE.

Mamie Summerlin, of New York, the Wronged; Emma Kope, the Accuser.

Mamie Summerlin, a handsome and stylishly dressed young girl, to all appearances white, appeared in Mayor Russ' court this morning as prosecutor in a slander case. She was accompanied by a burly black woman, who was said to be her mother.

The defendant is Emma Kope, who is charged with maliciously slandering the Summerlin girl in letters sent to New York. The letters, which were sent to Ada Williams, of New York City, were produced in court this morning. The Williams woman being a friend of the Summerlin's turned the letters over to them and it is claimed that the letters grossly slander the character of the girl.

Mr. B. S. Jermon, cashier of the Farmers and Commercial Bank, was called in as an expert witness to give testimony as to hand writing of the Kope woman. A lively cross examination was conducted by Attorney Moses N. Amis for the defendant and Mr. B. C. Beck with for the prosecution. The defense introduced no witness. The two Summerlins denied the slanderous accusations.

Mayor Russell bound the Kope woman over to the present term of criminal court in a bond of \$50, which she gave.

A nice point is developed in this case by Attorney Amis, which may precipitate an interesting legal fight. He quoted authority to show that one State under our American jurisdiction has neither the power or disposition to punish one of its citizens for a crime perpetrated on a citizen of another State while residing therein.

The Summerlin girl is a native of this city, but has resided in New York for the past four years.

SENATOR DANIEL SPEAKS

Gen. Meany, of Bell Company, Tells of the Company's Plans in this State.

This morning the hearing of evidence in the matter of reducing telephone rates was taken up again.

General Meany, the general superintendent of the Bell and Long Distance companies, was one of the principal witnesses. He stated that his company contemplated establishing long distance telephonic connections between every town of prominence in the state and that connection would be had with northern cities. The company, he said, proposed to expend a large sum in the state. He maintained that a reduction of rates would drive the contemplated enterprise from the state.

Mr. Pickernell, an expert on engineering, also gave testimony.

At the after dinner session arguments were begun. Senator John W. Daniel and Mr. Robert Strong spoke for the Bell company and Messrs. MacRae and Day in favor of reduction.

At the Academy of Music.

On next Monday night the Manhattan Stock Company will open a three night's engagement at the Academy of Music. On Monday night the great New York success, "The Banker's Daughter," will be the bill. In the repertoire of this exceedingly strong attraction are such well known successes as "Rosedale," "Mr. Barnes of New York," "Wages of Sin," "Wife for Wife," "Arabian Nights" and "Michael Strogoff." The Manhattan Stock Company carry special scenery and every play will be correctly presented even to the smallest detail.

We doubt very much if the people of Raleigh will again have the pleasure of witnessing such plays and produced by such a strong cast as the Manhattan Stock Company at the prices of admission charged. Night prices will be 10, 20 and 30 cents. Matinees on Tuesday and Wednesday at 2:30 p. m. Matinee prices 10 and 20 cents. Ladies will be admitted free on Monday night if accompanied by a person with a 30 cent ticket and if purchased before 7 p. m. Seats now on sale at Kline's drug store.

Mr. Dinwiddie's Plans.

The Atlanta Constitution publishes an electrolyte of the new fifth regiment armory. The plans were drawn by James H. Dinwiddie, architect, and have been accepted by the officers of the regiment. The cost of the building will be \$42,000. The architect is the son of President Dinwiddie, of Peace Institute.

There were 21 deaths reported at the health department last month—13 whites and eight colored.
