Both Sides Concede that there will be No Diction Then - A Mass Meeting of Hanna Republicans Schoduled for this Lyening

Corryers, Jan 10- The police expect trouble during during the dauguration of Governor Businell today. They have hadies of patrol men stationed along the line of march. It is also stated that militia have been provided with ball and cartridges and will shoot if the necessity arises. Senator Hanna's supporters have been pouring into the town all the morning. They have been loudly expressing their opinion of the governor in no uncertain terms. Most of the militia companies which will participate in the parade have shown up with deplefed ranks.

The officers and men are declars ing that they will not do anything for Bushnell. The feeling against the Governor is very better and he was told by his supporters that less the around sees of him the better it will be. The Hanna leaders have given orders that there must be no demonstration against the tiogerner outside of poering that it is question: whether they can control their supsporters. Bus not strionds declare today that an ensuit to him will result in trouble at the Hanna in etting this afternoon.

Rentals of Telephone Boxes

Saturday evening the following letter came to Col. O'ds from the Attorney General, dated Lexington: "I notice that I have been attack

ed because I had made a ruling that the varifroid commission did not have jurisdiction over telephone rates. I made no such decision. I give you the decision which I did make in the matter." This decision is dated November 27, and is as follows, addressed to the commission: "In reply to your letter, I will say had section 26, chapter 320, acts 1891, by the use of the language make or cause to be made just and reasonable rates of charges for the transmission of messages by any tele graph or telephone line doing busi ness in this State dol not intend to and does not, confer upon the board of railroad commissioners the autherein to the rates of routal of tele-

phone appliances or boxes." The Attorney General then says You will see from the above that I And not hold that the commission did not have the power to fix the rates for the transmission of telephonic nessages, but did hold that it was not empowered by the statute to fix rates of rental of telephone appliinces or boxes. If the question shall ever come before the courts for determination I am confident they will take the same view of it."

A Worthy Suggestion

Dear young ladies and giris. Menare earlied the lords of creation, but you have all the newer over young men and as one who loves all the proceed pleasure life affords, I ead on you in behalf of the hard worked young men of your town, to enact a reform in the hours spent at your evening entertainments. Your know young men are not as safe anywhere as in your company. You know also that there are very few, if any young men in your town but that are compelled to work. If they have shown so much willingness to sacrifice their much needed rest at night for the sake of being in your company, surely your tender and sympathiz ing hearts should have some consideration for them. You live in a civilized age and should not keep up the babits of a contrary age. Progress ve towns now commence their enter aluments at 8 30 or 9 and crase arties are more considerate than those of our city, when they think. in that is recalled is for the young natios to say that our hard worked young men shall get the needed rest
