SPAIN'S VIEW. The Anxiety Over the Situation Grows Daily.

By Cable to the Press-Visitor. Madrid, Mar. 1.-Great anxiety is vis thie regarding verdict of United States naval court of inquiry into the loss of the Maine than was apparent a week ago. The constant rumor of possible hostilities is harnsing and weakening the government and also trying the pa tience of the "jingo papers," which publish exhaustive despatches from New York and Washington to the effect that the relations between the United States, Cuba and Spain are hourly becoming more and more strained and attributing this to President McKinley's series of anti-Spanish declarations. Admiral Bemmelo and Minister Maine are actively seeking the best means to procure additional war ships.

MINING PLANT BURNED.

Buildings and Machinery of Composit Mines Destroyed in Three Hours.

Colon, N. C., Feb. 2s.-The machinery plant of the Cumnock coal mines, with the exception of the new ventilating apparatus, was burned down in three hours Sunday morning. The fire had a good start when the flames were first seen, and made such rapid progress that all efforts to cope with it were futile. The engineer and fireman say that with the pump and hose it was Impossible to subdue the fire. By 11 o'clock the building with its contents was in ruins.

Every effort was made to save portable property. All railway cars in the yard were moved to a place of safely. Fortunately no one was injured.

Nothing is known positively of the origin of the fire, but it is believed to be the work of an incendiary. It has been suggested that it is the culmination of a plot to prevent the successful operation of the mines by the present with some grains of allowance.
