ELECTION SCHOOL

The Election Board Decides Against New Registration

WILL IT BE HELD NOW?

day-Whether an Election Will be Held Depends on the Interest Shown by the People.

The school committe of Raleigh township, it will be remembered, peti tioned the board of County Commissioners at their session April 4th, to call a special school election for June 14th, to decide whether a majority of the elector of Raleigh township are willing to vote for the issuance of \$50,-000 in bonds for the public schools. The law is mandatory and the commissioners had to order the election as re

However, the school committee also asked that the commissioners order a new registration for this election. The question as to whether a new registration should be ordered or not could only be decided by the county board of elections, which is composed of the chairman of the board of County Commissioners, Maj. J. B. Hill, the Clerk of the Superior Court, D. H. Young, and the Register of Deeds, J. J. Rogers.

This board of elections did not reach their decision until this morning, when after a brief session, they decided not to order a new registration. Supt Howell previously saw the members of the board and presented arguments for a new registration. He claimed that - Py new registration was obtair clons belictors interested in the matter been to con could register and the vote wou will fair, but if a majority of the voters now on the registration books was necessary every disinterested voter, who failed to go to the polls, would be equivalent to a vote against the bond issuance.

Mr. Young said, however, that a new registration would be of considerable expense, and, as all the voters were registered, he saw no necessity for this additional expense. Maj. Hill and Mr. Young both held this view. Mr. Rogers, not being a resident of Raleigh township, said that he would not take sides in the matter but would leave it

to the others. Mr. Young said that the board did not mean to oppose the bond issuance by their action. He thought from what Supt. Howell told him that the school needed more funds.

It is said that in view of the decision against a new registration, the school committee have no hope of carrying the election and that they will withdraw their petition for an election at the next sess.on of the board of com-However, this has not been verified. Mr. A. A. Thompson, a member of the school committee, said this afternoon that he thought whether an election would be held or not depends on the interest shown by the voters. If carried, even without a new registration, the election will be held. The committee is anxious to ascertain the sentiment of the people on this important

The tremendous gun which the government is going to add to the already extensive armament at Fort Caswell, arrived Tuesday night over the Seaboard

It is an extremely dangerous looking concern. Painted a dull gray color and lying glooming and sullen on a car built of unusual dimensions to accommodate its tremendous size. It is indeed enough to excite the awe even of an experienced gunner, not to speak of the average spectator. Thebig gun is twentytwo feet long, while across the big end is a distance of thirty inches. The mouth is eight inches in diameter and not ten as was at first thought.

The attendants entered in the following order: First came Miss Fannie Lambert, of Mount Olive with Mr. L. T. Yarborough, next Miss Lillie Workman with Mr. Marcus Smith, brother of the bride, while the maid of honor, Miss Carrie Smith, sister of the bride, and the best man, Mr. O. M. Minor, preceeded the bride and groom. On the conclusion of the ceremony the invited friends extended their congratulations to Mr. and Mrs. Satterfield.

Later in the evening a reception was given at Mrs. Carr's residence, their future home, 226 Hillsboro street, where Dughi served the season's delicacies to the invited guests.

Miss Smith is a young woman of lovely character and is greatly beloved The groom is the efficient assistant manager of the Raleigh Telephone Exchange and is popularly known in Raleigh and his former home, Durham and from both places many congratulations are extended to him.

FAUST TUESDAY.

This Will be the Attraction Here for Next Week.

John Griffith, assisted by an excellent company, will present his elaborate production of "Faust" Tuesday night, April 19th, at Metropolitan Opera House. The text of Mr. Griffith's version of Goethe's majestic drama clings closer to the great poet's masterpiece than that of any other version now extant, and Mr. Griffith makes a Mephisto spirit "who unceasingly denies." He makes him an intellectual devil whose business is to present all that is opposite to good. Griffith's Mehisto does not tempt Faust directly and brutally, but rather ensnares him by a train of reasoning which the latter cannot answer, because they are but reflections of his own doubts and fears. Retaining Mephisto's cunning, his searching ridicule and savage cyniism, he echoes all the reckless unbelief of the human race, their rebellious impulses, their indulgences and negation of virtues, love and faith; always willing the bad but always working thereby the good, in spite of himself, The production will be magnificently staged, both scienically and electrically, particularly in the revels on the Brocken, which is said to be the finest

scene of the kind staged. THE GAME WITH HARVARD SAT-URDAY.
The next baseball event of importance among the college teams in the State is the game between Harvard and the University of North Carolina, which will be played at Chapel Hill next Sat-

urday. Large posters are being placed in the city announcing reduced rates. The Southern offers a round trip from Raleigh to Chapel Hill at \$2.25. A number of Raleighites will attend. The game will be called at 3:30 o'clock. The admission is 50 cents.

LEE'S TESTIMONY

He Knew of No Mines in the Harbon Before the Maine Incident.

Washington, April 14.-The testimony of General Lee before the Senate Committee on Foreign Relations was made public to-day. It constitutes a book of 550 pages, and includes not only the testimony taken since the Maine disaster, but that taken before and running back a year or more. The statement which contains the greatest current interest is that of Gen. Lee on the 12th, when he said that he was informed on very good authority that the Spanlards had placed two rows of torpedoes just at the mouth of Havana harbor within the past two months, subsequent to the Maine disaster and that the switch board is in a room in Morro Castle. He had no iformation of the placing of torpedoes in the harbor before the Maine was destroyed, or regarding their purchase abroad by Spain. He had no reason to suppose that the harbor was nined at all before the Maine disaster. General Weyler's letter led him to believe that mines had been placed there previous to the Maine incident.

PLANS TO MOBILIZE TROOPS Gen. Miles Contemplates a General

Movement Southward.

(Washington Post.) to be a probable conflict were continued at the War Department yesterday Everything is in readiness for a prompt movement of troops toward some central point, particularly of the forces east of the Rocky Mountains, but Gen. Miles says that nothing is likely to be done in the way of moving any large body of troops southeastward until there is evidence that their services will be needed, which will be determined by the action Congress takes.

Complete arrangements have been nade for the immediate mobilization of practically the entire military force of he government at the Chickamauga National Park at the first signs of trouble. It is expected in case of necessit; a call will be issued for about 40,000 troops, preferably from the National Guard of the different States and Terri tories. In the event that the war policy contemplates the invasion of Cuba the army may be increased to 100,000 men. Of this the regular troops and the National Guardsmen will aggregate about 55,000 men, and the remainder will be made up of volunteers. In the event of a call upon the National Guard aftention will be directed first to the organizations in the State of New York, Pennsylvania, and Ohio, and the

District of Columbia. Gen. Miles' plan is to mobilize seveneen of the twenty-five regiments of infantry and five of the ten regiments of cavalry at the Chickamuga Park as speedily as possible. The Third Cavalry at Fort Ethan Allan, Vt., the Sixth at Fort Myer, Va.; the Tenth at Fort Assimiboine, Mont.; the First at Fort Riley, Kan; the Fifth at Fort Sam Houston, Tex., are all held in readiness for orders to rendezvous at Chickamauga in the event of hostilities. If Gen. Miles' recommendations are carried into effect, the 40,000 volunteers incorporated into the army under the President's first call would be attached to this large army at Chickamauga.

Gen. Flagler, Chief of the Bureau of Ordnance of the Army, is bending every effort towards the supplying of he seacoast fortifications rapid-fire and other formidable guns. and in this he has the active help of the Engineer Bureau, which is constructing various works of defense and building the emplacement for the heavy guns.
