## AN IMPORTANT MATTER.

The failure of the crops in Halifax, Edgecombe and other counties in the eastern section of North Carolina is a matter of serious importance and demands calm and prompt action on the part of our people generally.

In compliance with a request contained in one of the resolutions passed at a recent meeting in Halifax, we print them, not only as a matter of information generally, but for the purpose of giving our emphatic endorsement to the proposition for calling an extra session of the General Assembly. The condition of affairs is indeed serious, and we need not lay the "flattering unction" to our souls that the picture is overdrawn. A portion of our people are surely in need of help, and that aid cannot be extended without sanction of law. The Visitor joins heartily with the Roanoke News in expressing the hope that Governor Fowle will act promptly on the suggestion, and call an extra session of the legislature at an early day. We know there are those who will harp to some extent upon the ex-

authorized to call another meeting of the people when expedient.

5th. That these resolutions be published in the county papers, and the papers of the State are requested to publish them.

On motion the following were appointed the committee under the resolutions: T. N. Hill, T. L. Emory, T. H. Taylor, W. H. Anthony and W. A. Dunn.

The following resolution was also adopted:

Resolved, That in the opinion of this meeting it would be unwise in merchants and landlords to press their debtors or tenants at this time to the extent of depriving them of necessities for work and we earnestly request both Northern and home merchants to forbear and indulge their debtors to their utmost extent.

It was the sense of the meeting that every man should pay to the extent of his ability and not hamper creditors, but to live economically, work hard and observe the golden rule.
