## Death of Mr J J Bruner.

The people of North Carolina, and those of the Journalism profession in particular will learn with deep regret of the death of Mr John Joseph Bruner, of Salisbury, which took place in that town last Sunday. Mr Bruner was born in 1817 and was therefore at the time of his decease seventy three years old. His name was a household word in North Carolina for many years as Editor of the Salisbury *Watchman*, and he died amid the regrets of a large number of his fellow citizens who honored and loved him. Peace to his ashes.

## Operations Resumed at the N. C. Wagon Factory.

While strolling through the southern part of the city this morning, looking for news items, we called in at the wagon factory and found machinery going at full speed and everybody busy. We sought out the efficient and gentlemanly superintendent, W. H. Holloway, Esq., but he was too busy to pay us much attention, but said that everything was moving off satisfactorily; that in about a week's time he hoped to have a full force at work. When the hands—many of them are new—should get their work well in hand, the capacity of the factory would be eight or ten wagons per day. He says he feels perfectly confident of the success of the undertaking; that there is money in it. The Visitor will hail with joy the day when it is running with double its present force and capacity, and that day is, we believe, in the near future.

## THE HORSE AND CATTLE FAIR.

It Will be Held This Year With the Addition of New Features.

The Wake County Horse and Cattle Fair will be held this spring as usual, and we learn that it will be of more than usual interest in many respects. Special rates over the different railroads will be secured from all the main points, and the exhibit of fine horses and cattle will be better than usual. A suggestion has been made, that an exhibit of fowls be had in connection with the show, which, in all probability will be carried out.

## FINALLY SETTLED.

Trinity Goes Elsewhere or Most Probably to Durham.

In accordance with announcement, the Raleigh subscribers to the Trinity College fund held a meeting last night to consider the matter of a formal release. The meeting was called to order by Mr. A. Jones, and Mr. W. N. Jones as chosen secretary.  
 Rev. F. L. Reid moved that the action of the city committee in the case of release, be agreed to. Some discussion ensued, in which the opinion of the trustees at their meeting in Durham was protested against.  
 The vote on the release was unanimous, with the exception of Mr. Walter Woolcott.

A motion was then made that a committee be appointed to wait on the Board of Aldermen and request that body to transfer the gift it had made to Trinity to the Baptist Female University.

This gift was five thousand dollars worth of railroad bonds to go to Trinity, provided the institution was located here.

The motion was opposed by some on the ground that it was against the principles of the Baptists to accept aid from government and municipal corporations. The point was made so strong that the motion was withdrawn.

## OUR COUNTY CONVICTS.

Punishment and Reform-- Not Disease and Death as the Sentence.

We need reform in our management of county convicts, and we deem this a favorable time to call the attention of His Honor Judge McRae, and the grand jury now in session, to their condition in Wake. In the first place, let us say that the superintendent, W. G. Allen, is as kind and noble-hearted a gentleman as we know, and we believe he does all in his power for the comfort of the prisoners under him.

The fault is in the buildings provided by the county. Those used at the workhouse were never meant for anything but temporary confinement, and are not really fit for that. That they are nothing more than pens is about all that can be said of them. They are incapable of cleanliness or comfort, and therefore breeders of disease and death.

The worst of it, however, is not in the quarters at the workhouse. The able bodied convicts are now at work on the public roads of Raleigh township and are confined at night, on the Sabbath and days that are too inclement to work in one of the buildings at Camp Russell, where the colored people have held their State Fair. The convicts, white and colored, are confined in the same room, with no privacy at all. The building is an open, unplastered one with leaky roof and broken windows. There are no proper accommodations for sleeping or eating.

Now, we believe in punishment for violators of the law, but we owe it to our Christian civilization to treat prisoners as human beings and not subject them to disease and death. That there can be no reform with our present management is plain to all.

Will Judge McRae inquire into these things?

## A Commendable Scheme.

Durham is not apparently disheartened at failing to get the Baptist Female Seminary.

The Sun says:  
 Durham is about as full of pluck and grit as any place you will find in the South. Failing to get the Baptist Female College has not made her despondent. She will turn her attention to something else, and when you hear from her she will do something very patriotic and noble. It comes to the Sun's ears that it is contemplated to build and equip in Durham, in handsome style, a non-sectarian Female University of high and broad educational advantages, and one feature of the institution will be to provide for the education of daughters of ex-Confederate soldiers who are not able to secure a higher education. Durham is thoroughly in earnest in regard to educational matters, and that the idea we have mentioned in regard to a Female University will meet with a co-operation on the part of all our people we have not a shadow of doubt.

We are too busy opening New Goods to-day to write any ad., but we call your attention to our whole page ad. in Sunday's Daily Chronicle. Read it.
