The air is so full of good things looking to the future building up of this, one of the most beautiful cities in the United States, that it is hard to keep from telling many things that are told "in confidence for the present." It's coming. Not a talk boom but a solid, sure enough one.

Young man, if you have been among those given to misbehavior in and around our churches, you had better look out. There is going to be a stop put to it and Chief of Police Heartt is the man to do it. He is laying his plans along that line.

Mr Bliyew, who runs an extensive vineyard southwest of the city, says that the reported damage to the grape crop by the recent cold snaps, is much over estimated. He says the injury is quite slight. This is good news.

Mr J E Matheny, of Richmond, Va, who is to take charge of the Raleigh Business College will reach here this evening on the Keyville train. He was at one time Dr Dabney's secretary in the University of Tennessee. He ranks among the foremost of his profession.

We hope that as many companies of the State Guard as possible will attend the ceremonies of unveiling the statue of, Gen R E Lee, at Richmond, Va, next month. No State in the South did better service under the old hero than North Carolina, and no people love his memory more.

The Fertilizers Tax.

The case in which a Fertilizer Company brought suit against the State of North Carolina, was heard before Judge MacRae, at chambers a few days since. The main point made by the company was that the tax was unconstitutional, and therefore could not be collected. The Commissioner of Agriculture put in the following answer:

"If the tax was unconstitutional, why should the company want to compel the Commissioner to accept that tax when offered under protest, or otherwise."

The counsel for the company was allowed to amend their complaint, and, the Commissioner was given ten days in which to make answer.

Southern Educational Association.

There is active preparation being made for the meeting of this association to take place at Morehead City, from July 1st to 5th. There will be many practical topics for discussion of the greatest importance to the cause of education. Yes. You know who we are, don't you? No, you have not told me who you are, and as I cannot see through the wire, can only guess. I suppose you are the Racket Store. You are right, Miss Fashion. How could you guess so true? Because I have seen some of the wonderful bargains you have at the Racket Store this spring. Say, Mr Racket Store, has your new spring clothing come yet? Brother Henry wants a new suit, and his money is quite limited. Poker and bluff has told on him and he must now economize. Yes, ma'am; our new clothing has come and we can make a gentleman of your brother or make him look like one. Send him down to the Racket Store. Goodbye. Don't mention it.

Where the Rain Never Ceases.

Macon Telegraph.

Mr D R Parkman tells of a curious phenomenon in Chattahoochee county—a place where rain falls perpetually. The spot is located on a little knoll in a thin wood on the Shipp place, two miles from Thad. Mr Parkman says the discovery was first made last Thursday, and that rain has been falling steadily on the knoll since that time. The downfall covers a space of fifty feet square. The space is perfectly wet, and the leaves on the ground are full of water. Mr Parkman says he visited the place with Mr G A McBryde at noon Tuesday. There was not a cloud to be seen in the sky, and the leaves everywhere, except on the square, were as dry as tinder. "I stood with the space between me and the sun," said Mr Parkman, "and saw the raindrops coming steadily down from the sky. I held out my handkerchief and it was soon saturated with water." Mr Parkman says that everybody who hears about the phenomenon is skeptical, but that the many who have visited the place in the last few days have gone away convinced. No one has offered an explanation of the mysterious rainfall. Mr Parkman suggests that some powerful unknown substance attracts the moisture from the atmosphere.
