The Daily Evening Visitor

Local notices in this paper will be Five Cents per line each insertion.

NOTICE.

The proprietors of the VISITOR are always anxious and willing to accommodate their patrons as far as it can be done without detriment to the interests of the paper, or injustice to our friends. Our space is limited, and in order to make the columns attractive, the matter should be as varied as possible. The numerous nominations for official preference, thus early in the campaign, will prove too heavy on our columns for gratuitous insertion, and, hence, we feel under the necessity of adopting a scale of rates for the insertion of such cards, or communications. Hereafter a charge of twenty five cents an inch (eight lines) or less, will be made for such insertions.

The Southern Farmer's Trade Issue for Raleigh.

The Southern Farmer published in this city, will issue, as early as the circumstances will permit, a large trade edition of 10,000 copies. Mr P C Ennis, the business manager of the paper, informs us that it will be limited to such information as is strictly recognized as belonging to Raleigh. This paper being devoted to agriculture, industries and commerce, being non political, representing no particular organization—representing the three great divisions of human activity is admirably adapted to a work of this kind. It will be prepared with great care so that the information obtained will be thoroughly accurate and reliable. It will be profusely illustrated and will show at a glance the industries, resources and prospects of the city. It will also include the city's growth, social, religious and educational. The growing competition of today demand that Raleigh, with her unequalled advantages, should have them properly proclaimed to the outside world, and we bespeak for this enterprise great good for the material prosperity of our city.
