It will be seen that trains will leave here at a convenient time on Wednesday and Thursday, and the trip can be made so as not to allow of much loss of time. Let all go who can. It will be an agreeable occasion.

One of our ice factories is generous almost to a fault. Thrice each day, during the heated term without price, they give to each of our population regardless of age or color, a most bountiful supply of ice screams, [copy righted.]

At the Christian Church Sunday school yesterday four new scholars were enrolled. At the 11 o'clock service quite a number of visitors attended. At night the pastor's subject was the "False Securities." The congregation was much larger than the church membership. The church has 31 members, and its congregations range from 40 to 100. The church's influence is growing.

Dying.
Mayor Thompson has received the following letter which speaks for itself:

TEMPLE, Texas, June 6, '90.
Dear Sir—I write this to inquire of you if there are any relatives of F H Fort in your city, and if there is will you kindly inform them that he is in Albuquerque, Bernalillo county, New Mexico, dying with consumption.—Myself and others raised enough money for him to go to the above place for the benefit of his health but it was of no use as the doctor wrote me he could not live very long. If you know of any of his folks please inform them. I will be glad to hear from you. Respectfully yours,
M STEINER,
Albuquerque, Bernalillo Co,
New Mexico.

Closing Exercises of Wakefield High School.

We had the great pleasure on Friday last of attending the closing exercises of this well known and most excellent institution of learning for both sexes, situated twenty miles northeast of Raleigh, in one of the most delightful portions of Wake county. We left the city about 5:30 in the morning with Mr J N Hubbard the efficient steward of the Agricultural and Mechanical College and our daughters Misses Alice and Maggie. Mr L O Lougee our admirable County Treasurer, and his daughter, Miss Mamie, were also of the party. After a most delightful ride, through a country teeming with the fairest prospects for an abundant yield we reached our destination at 9:30 o'clock, where we found a large number of persons, which increased during the day to over fifteen hundred. After a rest of about half an hour, the exercises commenced in accordance with the programme arranged. The house was literally packed with an immense audience, representing not only the immediate surrounding country but from sections far off. It would be impossible for us to go into personal details as to the merits of each of those who participated in the exercises. In such instances we do not desire to draw even the slightest distinction where all performed the parts allotted to them, in a manner that elicited the highest admiration. It can truly be said that some of the pieces recited were perfectly splendid and this can be said with perfect sincerity as to the music, declamations, recitations, dialogues, or other features that made up the programme.

The officials of this splendid institution of learning deserve more than a passing notice. Rev O L Stringfield and Prof W J Ferrell are the Principals. The immediate charge of the school, is, however, vested in Prof W J Ferrell, and he is most ably assisted by Mrs O L Stringfield, Miss Irene Cartwright and Miss Annie Shepherd, both of the last named from Suffolk, Va. Prof Ferrell stands deservedly high, and is justly considered as one of the most efficient teachers in the State. This is best proven by the great success that has crowned his efforts. There were in attendance this session one hundred and twenty five students, and these were not confined to North Carolina, but represented several other States. It was a source of extreme gratification for us to note, specially the high standard of moral training that was visible on all sides. In this respect the school can be said to stand pre-eminent, and it is a feature that must most highly commend the institution to the most favorable consideration of parents and guardians.

Of the assistants of Prof Ferrell we are more than pleased to make special mention. Mrs O L Stringfield is a lady in every way most competent for the discharge of the arduous and responsible duties, which the position imposes. Miss Irene Cartwright and Miss Annie Shepherd, are indeed worthy of all praise, both being exceedingly proficient, especially in the art of music in which they excel. In the instrumental and vocal departments of music they have but few equals, and their superiors would indeed be hard to find. And just here, we hope we do not draw invidious distinction in saying that the personal charms of these young ladies, are only equalled by the skill they possess in the musical line. They both gained the most deserved eclat.

In all that pertains to a system of general education, there has been most marked progress in the section in which this school is located. It is not an exaggeration to say, that ten years ago, twenty five scholars could not have been obtained in a log house school. The result now is most astonishing, and the needs of popular education are fast gaining ground

under the auspices of the growing institution of which we write.

We cannot conclude this article without an acknowledgment for the kind hospitality we received from all with whom we came in contact, and we are specially indebted to Rev O L Stringfield and Dr Bell for many courtesies. We saw present numerous gentlemen from Raleigh, among whom were some of our prominent citizens.

We returned to the city on Saturday, deeply impressed with all we had seen and heard, and with the cheering reflection that in all that pertains to the material progress of "Old Wake" we were making most rapid strides in the right direction. We but repeat the general verdict on all sides in saying we never saw farming interests in a better condition. There is indeed a most cheerful outlook, and the harvest promises the most abundant yields we have had for many years. Providence smiles upon us and we should be thankful.

Playing the Fool.

On tomorrow night, at Metropolitan Hall, Rev Thomas Dixon, Jr, will deliver his celebrated lecture entitled, "Playing the Fool." Mr Dixon is so well known, and has gained such a reputation throughout the country he needs no special commendation at our hands. It is sufficient to say that all who hear him will be more than repaid. He is a gentleman whose literary attainments have become national in their character, and his oratory is equal to any man in the country. The proceeds of the lecture are to be devoted toward a parsonage for the Baptist Tabernacle church. The object is therefore a good one. Let the hall be crowded to its utmost capacity.

Wake Forest Commencement.

On Wednesday next a train will leave Johnson street station (old R & G depot) at 9 a m for Wake Forest College, and returning will leave Wake Forest at 6 p m.

On Thursday trains will leave Raleigh at 9 a m and 8:40 p m. Returning it will leave Wake Forest at 12 o'clock at night. Fare for the round trip 85 cents.

Electric Street Cars.

In Raleigh would be nice, wouldn't they? You could go a humming on them. If we had time we might put some on but we are too busy to fool with any small things just now. If some one will furnish the cars for the ladies to come down on we will furnish something for them to come down for, and we guarantee that all our dress goods, clothing, shoes, hats, notions, millinery goods, &c, will be far cheaper than anywhere else on the line. We merely throw this out as a suggestion, and as there is no probability of having the electric cars this month we propose to get along without them and still offer sufficient inducements to cause all the ladies to come even if they have to walk.—Walking is a healthy exercise. We are closing our entire line of summer woolen dress goods at cost. All other goods in stock from 10 to 15 per cent less than you will find them elsewhere, at
