

# The Daily Evening Visitor.

VOL. XII.

RALEIGH, MONDAY, JULY 21, 1890.

NO. 77

## The Daily Evening Visitor

Local notices in this paper will be Five Cents per line each insertion.

### LARGEST CITY CIRCULATION.

#### In and Around the City.

Nice and cool.  
Dull at the capitol today.  
The Asheville excursion will take place August 11th.  
All aboard for the press convention at Durham this week.  
Politics all the rage now. Little else talked of.  
Lots of people are out of the city at the different watering places.  
People are mighty mad about the census.  
It is reported that the storm of last Friday afternoon did considerable damage in the northern section of this county.  
There are twenty one students in attendance on the summer session of the law school at the Chapel Hill University. This is twelve less than last year.

We are glad to learn that Clarence, the little son of Mr. Wm. M. Utley, who was recently hurt by falling from a tree, is much better, and is now in a fair way to complete recovery.

There will be a meeting tomorrow evening at the Union Mission on Wilmington street at 8:15 o'clock for young men only. Good music; a warm welcome to all the young men of Raleigh.

Rev. Levi Branson leaves tonight for the Tabernacle meetings at Ruthford College, which will continue until the 28th inst. Tuesday is encampment day the first public service Tuesday night. Batts' three great Panoramas will be on exhibition all through the meetings, which promises to be one of unusual interest. See low rate tickets advertised on the inside of this paper.

#### Attention, Governors Guard.

You are ordered to meet in your armory tonight at 8:30 o'clock. Business of importance; every member expected to be present. By order of Captain. S. W. HEWIN, First Sergt.

#### Manteo Lodge No. 8, I. O. O. F.

There will be a regular meeting of this lodge tomorrow night at eight o'clock. Work in the initiatory degree. Candidates who are eligible will please present themselves. The degree staff are earnestly requested to attend. Visiting brethren will find a warm welcome.

#### A Handsome Donation.

Mrs. F. M. Williams and Mrs. J. F. Smyre, on behalf of the ladies of Catawba county, have forwarded to Mr. W. C. Stronach for the Soldiers' Home Fund, the sum of \$52.50, being proceeds of a dinner given on Tuesday the 15th inst.

#### Our Population

We hope that Supervisor Hawkins, may soon find it compatible with the public interest to make known something like, at least, an approximate estimate of the population of Raleigh. This seems to have been done in many other cities, and therefore we take it, that the injunction of secrecy, has, to a certain extent, been removed. The people are anxious to know.

#### A Great Industry.

Very few persons, even in our midst are aware of the vast amount of business done at the North Carolina Car Works, in this city. It is indeed one of the foremost industries of the kind not only in North Carolina, but in the south. A contract has just been awarded by the Georgia, Carolina and Northern Railroad for large additions to its rolling stock, consisting of one hundred freight cars. It is gratifying to know that the work turned out at these shops is, at least the equal of any done at the north.

#### Masonic.

Hiram Lodge, No 40, A. F. and A. M., will meet in regular communication at 8 o'clock tonight. A full meeting of the membership is earnestly requested, as there will be business of importance to be attended to, among which will be work in the third degree. Brethren of sister lodges are cordially invited.  
E. B. THOMAS, Sec'y.

#### Mt. Holly Fair.

An important feature of the Grape Fair and Farmers' Alliance Encampment to be held at Mt. Holly, N. C., July 28th to Aug 2nd, will be the organization of a League, whose members pledge themselves to use as far as possible the products of southern manufactures of every kind. At every fair held in the south this year, such an organization should be made. Manufacturers of all kinds of goods should place samples at all of these fairs and show the people how much the south herself produces for the necessities of her home life.

#### Personal Mention.

Dr. V. E. Turner has returned from Atlanta, Ga., where he has been in attendance on the dental convention.

Mrs. C. D. Upchurch and daughter, Miss Mabel, have gone to Connelly Springs.

Mrs. J. M. Barbee, we are sorry to say is quite sick at her residence on Saunders street.

Mrs. Solomon King is very sick at the residence of Mr. G. M. Spence on South Person Street.

Rev. J. L. Foster, pastor of the Christian Church, returned to the city today from Alamance county.

#### Raleigh Tabernacle Church

The services at the Baptist Tabernacle Sunday School were well attended four new scholars. The church services were well attended both morning and evening. The Rev. Dr. J. J. Hall's sermon in the morning—subject—"A Distressed Mother" was well delivered and of great power. In the evening his subject was "Jesus Christ and the People." This sermon was especially devoted to the working class, and was delivered in the doctor's usual able manner, and apparently well received, and we hope the next sermon of the series, which will be delivered next Sunday evening will be listened to by a crowded house; we are sure it will do all good. Let everybody attend, especially the working people.

#### The Broutotherium.

##### Boston Post.

A decided coolness has risen between two of the professors in the University of Dakota. It is all on account of the broutotherium. It seems that certain fossil remains were unearthed, and Prof. Fowler declared them to be the bones of the broutotherium, which he proceeded to describe in detail, basing his restoration of this extinct monster on the bones in hand.

He prepared a course of lectures on the subject, and told the students that the original animal was built after the kangaroo, that he was about—feet in stature, and that when he went hippopotamus hunting he moved by successive jumps, each jump covering 200 feet.

But Prof. Este, who seems to have been temporarily absent, also examined the remains, declared them to be those of the broutotherium, but declared that the broutotherium was a tree, and that what Prof. Fowler had declared to be a jaw bone was neither more nor less than a branch which time had changed into a stone.

This marked divergence of opinion on the part of their professors has filled the minds of the students with great uncertainty as to the broutotherium.

#### A Good Investment for Raleigh.

Correspondence of the VISITOR.

RALEIGH, July 21, 1890.

I read a local in your paper a few days since relative to the Odd Fellow's Orphanage. If I understood the article correctly, it was resolved at the last meeting of the Grand Lodge of Odd Fellows to consider, at its meeting next May, the expediency of establishing a home for the orphans of Odd Fellows; in the mean time have the different communities in which there were lodges of Odd Fellows carefully consider the matter and do what they could towards the institution. I am satisfied a more suitable locality than Raleigh affords, could not be selected. Our climate is as healthy as could be desired. Water excellent and general sanitary condition second to none in the State, and I am quite sure the market facilities are as good, if not better, than any elsewhere, therefore the little ones could be provided for as economically in Raleigh, and certainly made as comfortable here as anywhere in this jurisdiction.

The two lodges here number nearly two hundred and fifty strong, as good, kind hearted and generous men as live in any community or hold membership in any jurisdiction. Men who are "grateful to their Creator, faithful to their country and fraternal to their fellow man," who are filled with all the true principles belonging to Odd Fellowship, and who would make it their chief aim and ambition to foster and promote the best interests of the institution should it be located in their midst. Knowing the people of Raleigh as we do, we feel no hesitation in saying that those outside of the order would lend all the aid in their power to the noble work.

It is highly probable that it will not be long before the membership in Raleigh will have among its number the Grand Sire of the Sovereign Grand Lodge, our highly respected fellow citizen, C. M. Busbee, Esq., than whom no larger hearted or nobler minded man walks the streets of our city. Holding as he justly does, the highest esteem of the whole fraternity of every section, we know that Mr. Busbee would give the orphanage the benefit of his wise counsel, and any and all other support that might lay in his power.

We also have in our midst, that Christian gentleman and tried Odd Fellow, B. H. Woodell, Esq., the Grand Secretary of the Grand Lodge of North Carolina, who is devoting his whole time to the good of the order. I am quite sure he would in every way possible help the institution.

There are scores of other enthusiastic, true and tried members of the fraternity among our citizens, whose influence and help the orphanage would have if located at Raleigh.

We say come on Brethren, bring the unfortunate little ones, and the good people of Raleigh will help you to care for them, and as far as possible fill the places of those whom an All wise Providence has taken away from them. C. H. L.

Amos A. Parker, of Fitzwilliam, N. H., is the oldest college graduate, having been in the University of Vermont class of 1815. He is nearly 99 years old but still bright. A few years ago he married Miss Julie Smith, of Glastonbury, Conn., who was then 86 years old. She was his third wife. He rode from Boston to Concord with Lafayette.

Few ladies considered that they carry some forty or fifty miles of hair on their head; the fair-haired may have to dress seventy miles of threads of gold every morning.

European capitalists propose to assume the railroad indebtedness of the Government of Mexico, and issue bond to be paid for at the rate of two per cent per year.

#### SPECIAL NOTICES.

No 1 sugar cured hams and shoulders, 8 to 10 lbs, at R. H. Womble's.

##### Norris & Carter.

No lady should fail to call and examine the beautiful silk drapery nets now being offered at Norris & Carter's for 40 cents and \$1 per yard. The former price of these nets were 90 cts. \$2 per yard. These are the greatest bargains ever offered in silk nets, comprising all the new evening shades. The finest line of torchon Smyrna, medeci and fancy laces to be found in the city, and are being offered at less than half price. Those needing any of the above goods will do well to examine this stock before purchasing as they must be sold within the next few weeks. 40 to 50 per cent saved on all goods bought at  
NORRIS & CARTER'S.

##### We

Now have a handsome line of jewelry for you at low figures. We have made a special department in our store for this line of goods and will always keep the latest styles of pins, rings, necklaces, bracelets, baroques, studs, and novelties of all kinds and at very low figures. We invite your attention to this department,  
at SWINDELL'S.

##### Order of Tonti.

RALEIGH, July 21, 1890.

S. W. WHITING, Secretary, Oak City Lodge, Order of Tonti. DEAR SIR AND BROTHER:—Please accept thanks for the promptness with which my claim for one week's disability was settled in the Order of Tonti; drawing \$25.00 each week to meet the loss one is bound to sustain from sickness, by being away from business, incidental expenses such as the doctors' bills, &c., is a source of great satisfaction when one is stricken down.

I believe the order will be a great blessing to the working man.

Yours fraternally,  
G. M. ALLEN.

Mr. G. M. Allen is the senior member of the firm of Allen & Cram, and, no one stands higher in the community than he does. Order of Tonti is a benevolent assessment association that offers protection against disability by accident or sickness and is spreading very rapidly, having more than doubled in the last twelve months. There is a flourishing Lodge in this city.

Chicago girls may now be more resigned to their big feet. A big foot saved a St. Louis man from conviction on a charge of burglary. A shoe found on the burglarized premises was produced in evidence against him, which on trying on proved about four sizes too small. His big foot saved him.
