Dr. John R. Boynton, the well known lecturer, died at his home in Syracuse, N. Y. Monday.

At Chili, Ohio, on Saturday, Charles Vender shot his wife and killed himself. The woman may die. Domestic troubles are given as the cause of the tragedy.

The Prince of Wales and Emperor Francis Joseph exchanged visits at Vienna yesterday. At night a royal banquet was given in honor of the Prince.

The homeopathic clinical societies of Maryland and the District of Columbia have united into one society with Dr. Charles H. Thomas, of Baltimore, as president.

Today the lace manufacturers at Calais, France, will reopen their factories, but it is doubtful whether the employes will resume work until the wage dispute has been settled.

The New York Tribune is authority for the statement that three out of every four people chew their food on the left side. But the practical thing with a large percentage of people than that is where to get the food to chew.

In the house of a small milliner in Dublin there was a pet monkey. One day in the same room with him was placed a basket of kittens, and on the fire his mistress had put some soup composed principally of mutton. Having occasion to go out for a moment, as soon as her back was turned the monkey fished out the meat, ate it, and substituted the kittens for the mutton he had stolen.

There is a large size row going on at Philadelphia, Pa., over the attempted transfer of a negro girl to a white school by one of the school board. The teachers in the white school refused to teach her and appealed to the board, which maintained them and sent the girl back to the school from which she was transferred. The member who made the transfer is wrought up over the matter and promises to give the board more trouble about it yet. This is a pretty fair indication that they don't want social equality in the North.—New Orleans Delta.

In the State Convention of colored men which met recently in Columbia, South Carolina, it was declared that as far as the State government was concerned, "the whites owned the lands, did the business, paid the taxes, and it was for them to govern." All they asked, it was also declared, "was a minority representation on the floor of the Legislature, so that the feelings and opinions of their own race could be expressed." If they are correctly reported, the negroes of South Carolina differ widely from the mass of their race.—Norfolk Ledger
