A Correction.

The cause of Larkin Smith, now pending in the Superior Court of this county, has been somewhat incorrectly stated in one of the morning papers. The cause is this:

Larkin Smith, by his next friend, vs Charles H. Smith. Chas. H. Smith procured a power of attorney from his father, Nov. 9th, 1888. Ferrell & Wiggs, in behalf of their wives, daughters of Larkin Smith, commenced an action to have Larkin Smith declared incompetent to attend to his business. Thereupon Chas. H. Smith procured a power of attorney for Messrs. Fuller & Snow and Batchelor & Devereux directing them to dismiss the suit at the cost of Ferrell and Wiggs.

What a Bob Tailed Dog Did.

A bob tailed dog has unseated the mayor of Newport, Ky. That town has an ordinance taxing dogs one dollar and imposing a fine of three dollars on any owner who refuses to pay the tax. At one house in the town this yellow cur had taken up his quarters, and when the assessor came around he listed him to the owner of the house against his protest. He refused to pay the tax and was fined in the mayor's court three dollars. Declining to pay the fine he was sent to prison. On his release he sued the mayor and town marshal \$5000 damages. On the trial of the cause it was discovered that the mayor had failed to qualify as the law directs, and the court decided that that a lot of his acts were illegal, as he was not the mayor of the town. Thus has a ten cent cur broken up a city government.

That Negro Preacher's Shoe.

Charlotte News.

Every once in a while that old story about the immense shoe that was manufactured in Boston for a L. E. ro preacher in North Carolina, is revived and started along the line. It has been going the rounds for ten years, but still our people would not believe it. Those who held out that it was a canard, must now give up, for the preacher has ordered a new pair, and the shoe for his right foot is now on exhibition at Gilreath's store. The factory is still at work on the other shoe, and is pushing things to get it completed before the effects of the McKinley bill are felt on the leather market. The shoe is an enormous thing and will hold a bushel of corn.

A Hotel for Northern People.

We know of no opening for the investment of capital and well directed energy that is so sure of large results as a first class hotel, suitable for the entertainment of northern people who come south every year to spend the winter months. Wherever in the south these hotels are properly kept and properly advertised north, they become very profitable to the proprietors, whether in large or small towns. Many of the former summer resorts for our own people south have become winter resorts for northern people and are consequently crowded in winter instead of being shut up as formerly. This flow of northern people of large means to the south every winter is increasing each year. Now why cannot Raleigh have one or more of these resort hotels? If we can ever get the current started this way, it will deepen and widen rapidly. It has at every point in the south where the accommodations were at all attractive to such people.

Charleston, S. C., has allowed hundreds of thousands of dollars to pass by her and jingle in the pockets of other towns and cities, just by her slowness and shortsightedness. But latterly the overflow has kept the city crowded all the winter. Raleigh is soon to be on a great north and south trunk line; then why not take advantage of the opening and become a principal objective point on this line, before the current has cut its groove to other and more energetic cities and sections?

If some of our capitalists would erect a first class hotel with suitable attractions for the entertainment of people who demand first class accommodations and are willing to pay first class prices, say from four to ten dollars a day, and would secure some live northern hotelist who runs some northern fashionable summer resort, to come down and run this hotel in winter and advertise it at his summer resort in summer, success would be assured and Raleigh would be full of just the people we need to come among us. No place in the south has failed that has gone at it in this way. We must have accommodation to meet the requirements of the very wealthy or they will not come among us. When they do come and are pleased with the entertainment they get, they will come again and bring others and linger. Our climate attracts them and if surroundings please them they will linger. Their coming will be known and attract others. Raleigh should have a first class winter resort hotel for northern guests. It is one of the essentials.

A Liberal Donation to Central M. E. Church South, of this City.

The Rev. Dr. Nash, pastor of Central Methodist church, received \$500 by express today to aid in its completion. Rev. W. C. Norman, so well and favorably known in Raleigh, was the medium through which the offering was made. Dr. Nash and Rev. Mr. Norman are devoted friends, and they have been corresponding about this matter for some time. The donor at first made his gift conditional, and Dr. Nash was doing all he could to meet the conditions, and finding that he could not, he wrote his friend, Mr. Norman, to do all he could to get the donation unconditionally. Rev. Mr. Norman pleased as only he could for help for his friend, and the result is, he sent \$500 today. God bless Rev. W. C. Norman and his generous friend. They could not have made a donation to a more deserving cause, or given help where it will do more good.

W. B. Mann & Co., have a house full of really first class groceries which you can buy as cheaply as at any other house in the city. They keep on hand a constant supply of nice country butter.

Were You Ever Real Happy and Contented?

It takes a good deal to give one this feeling, don't it? Yet there are some people (they are few) who are happy. If we were not satisfied and contented just now, when we are having the most satisfactory trade we ever had, we would be hard to please indeed. Our dress goods trade has been the best we ever knew; in clothing we have surpassed all former seasons already. We have never seen anything to compare with our sales in hats. Then in shoes—it's enormous the quantities we sell. In all departments we have never seen a more prosperous or satisfactory a season. Every one seems to have some money and all are eager to spend it for the necessities of life. We trust that this is but the beginning of a long period of prosperity for all. The more goods we sell the more we have to buy and the more we buy the cheaper we buy them, and the cheaper we buy them the lower we sell them to you. Help us to buy cheap by buying of us. We save you money always at
