Other recommendations of the committee to attend to some needed improvements on several streets were adopted.

## LARGE NUMBERS COMING SOUTH

### To Spend the Winter - Railroads all Expecting Heavy Travel - Attractive Hotels Needed.

We see from various quarters statements to the effect that large numbers of Northern people are coming South to spend the winter. Only those towns and sections having well equipped hotels for the entertainment of these people will be much benefited by their coming.

Many millions of dollars are spent every winter South by these Northern people, and their number is increasing every year. Cannot some Northern hotelist be induced to open a resort for them in Raleigh. The Exchange Hotel would make a good house to fit up and open for that purpose, or the building soon to be vacated by the Capital Club would suit nicely.

The Yarrowborough is all right, but it is for the accommodation of promiscuous travel. These people want a house arranged and kept for first-class permanent board. If once started, it will soon attract more than any one house can accommodate. Somebody make the motion.

#### An Exposition.

There is scarcely a dissenting voice in our community relative to a grand State Exposition in 1891. Everybody admits that it will be a great event in our history, if carried out properly. In 1884, the State of North Carolina was placed forward in the galaxy of States, and her resources have since been better known in the markets of the world than ever before. All this was the result of the exposition in that year. Now, we have even better prospects. Never have our people been better prepared. Our crops are splendid, and we are evidently on the eve of a great industrial boom. Let the exposition boom go forward, and let there be no relaxation until it is an accomplished fact. So far as the people of Raleigh are concerned there can be no excuse for lethargy. It is pre-eminently to our interest, and this, of course is the interest of the entire State. Let the question be continually agitated.

#### Personal Mention.

The superintendent of the Silver Valley mines, in Davidson county, reports the finding of the richest deposit of silver ore ever found in the South—a large vein of carbonate of lead carrying 70 to 100 ounces of silver and 80 per cent of lead to a ton of the ore.

## Our Roads.

### Cor. of VISITOR.

November, 13th, 1890.

There is much discontent among the people residing on the Fayetteville road, South of this city, and it seems to be just. All the main roads of this township have received attention in the way of being ree y worked, but this road remains in the same rough condition. Now there is probably as much travel over this road as any running into Raleigh, and why it should have been neglected is rather strange. Cannot Supervisor MacMakin see to it. The bad weather will soon be upon us, and unless it receives some attention the road will be a "hard one to travel."

#### Don't Mention It.

Have you a friend? Did you ever do a friend a kindness? Would you help a friend to make life easier and happier if you could, and at the same time put yourself to very little trouble? Do you believe in the golden rule? "Do unto others as you would have them do unto you" Do you live for self alone, or do you try to make yourself happier by your efforts to serve humanity in some way at all times? Could you live content if you had millions while there were thousands around you without the necessities of life? Does making others happy add to your own happiness? If so, and you desire to do all the good you can, at all times, to all the people you can, why then, tell them how much worry and trouble and unhappiness and sorrow and vexation of spirit and time and money they could save themselves by buying all their dry goods, clothing, shoes, &c., &c., at SWINDELL'S.
