If you are doing anything worth the attention of anybody and want the people to know it advertise in the VISITOR.

It is said that the scheme for building a town at the Egypt coal mines, in Chatham county, is progressing with assurance of success.

Don't forget that the VISITOR has the largest city circulation in Raleigh of any paper published on the globe, and new subscribers are coming in every day, except Sunday.

The case of the State vs. Charles H. Smith and Rufus Montague for assault and battery has been postponed until Fri ay next on account of the absence of Eugene T. Jones one of the Justices of the Peace.

Mr. David Rosenthal the leading clothier is truly the champion of low prices. His prices are really aston ishing as he is selling goods as low as any house in North Carolina. Call and be convinced.

The contract for the completion of all the wood work and plastering of Central Methodist Church, has been made and work will begin right away. The North Carolina Car Company when completed.

From present indications there is a pressing necessity for an enlargement of the Insane Asylums of the State, and the General Aassembly will, no doubt, he asked to make liberal ap propriations for the purpose. By all means this unfortunate class should be promptly and well cared for.

Complaints are being made that teams are being watered on the platforms around public pumpy. There is a city ordinance forbidding stock from being watered within ten feet of these pumps. Those who are guilty of these violations better take warning and keep out of trouble.

Capt. B. P. Williamson is the first man in North Carolina who has had the nerve; no not that, but the keen business foresight, to invest capital and energy in the business of raising blooded stock' Cap. Williamson has a fine lot of blooded horses, and it is reasonable to expect that fine prices will be realized on the day of sale which he has fixed for the 20th inst.

Protracted services will begin in the First Presbyterian Church this week. Rev. Mr. Morton the evangelist will arrive Friday, and will preach Friday night. In the meantime Rev. Mr. Maxwell, Rev. Mr. Morton's assistant will conduct services Wednesday and Thursday nights. Christians of all denominations are invited to take part in these meetings. The seats are all free and everybody cordially welcomed.

Bright Jewels.

This pleasing, sprightly little Journal is out on its second Missionary journey, cheering the hearts of the little folks and sending out its bright rays of light to the benighted homes, and the dark corners of the earth. "Aunt Mary," its noble editor is mak ing a good paper.

Charity Ball.

The great event of the day will be a charity ball to be given at the Yarboro House on Thanksgiving night, for which preparations are being made. It will be for the benefit of St John's Hospital. The ladies who at tend are expected to be attired in calico dresses, and the novelty of the scene will be attractive to those even, who do not dance. The price of admission will be \$2 for gentlemen and lady, and \$1 for each additional lady.

Accident.

Walter, the 13 year old son of Mr. W.S. Utley, who lives on Saunders street, while feeding the cotton machine at the Cotton Factory vesterday morning, accidentally got his left hand caught under the roller and fearfully mashed, tearing the flesh from all four fingers and all the nails out by the roots. No bones were broken, saved probably by the cotton on the roller. The hand was dressed by a physician, and he is doing as well as could be expected this morn-

Don't Forget.

That tonight is the night for the meeting of the Chamber of Commerce and Industry. At the time for the will do the work. It will be a beauty last meeting there were so many who concluded that things would go on all right without them, that there was not a quorum present, and of course nothing was done.

In a talk with the Mayor this morning, he was deploring the fact that there seems to be such apathy, or such a wide spread disposition among so many to leave their share of such public burdens to be born by others. There should be not less than 150 to 200 present at every meeting.

In the counsels of the Chamber of Commerce is the place to formulate plans, to secure co-operation and indeed to build up a public spiritedness that will soon take Raleigh to the very front as one of the live progres sive attractive towns of the south.

Don't fail to attend all meetings for the improvement of the city. The public has a claim upon you, and needs your services at the meeting tonight.

Martin Street Improvement.

In the paving of this street from the new depot site to Fayetteville street it is to be hoped that the city will pave the entire street fr m side walk to side walk, and require the owners of property on either side to pave the side walks (if they can) so that the main thoroughfare over which strangers enter our beautiful city may present an attractive appearance, and favorably impress them. First impressions are said to be most lasting. We know by experience that a city presenting an unsightly appearance at! its gate, is discounted just that much in the estimation of those who enter it. If it has attractive features in other parts, its appearance at its gate stands first in the mental impressions of a visitor and they are hard to overcome.

Make the gate to our city inviting and passers by will be inclined to en-

Action of Alum on Microbes in Potable Water.

In the Chemical News for October, there is an interesting reference to the use of alum for the removal of organic matter is suspension and in solution in drinking water. It is well known that when alum is added to ordinary water it is decomposed, its sulphuric acid combining with the lime, and its alumina being thrown down in combination with the organic substances which are present. Along with this precipitate and entangled with it the microbes are also mostly precipitated.

The Chemical News states that since this method has been adopted by the French troops in Tonquin they have enjoyed a nearly complete method was employed in preference Walker, ex parte, from Robeson; no facilities for doing which were not select yours; they are going fast always at hand.
