NOTES ABOUT THE CITY.

What Our Reporters See and Hear Worth Giving to Our Readers—News in Brief.

Very dusty.
Now for Christmas.
Yesterday was a delightful day.
The slaughter of turkeys yesterday was immense.
Everybody seemed happy yesterday.

Thanksgiving Day was a success, if we can judge correctly from outward appearances.

The Thanksgiving services at Central Methodist Church were exceedingly pleasant and profitable.

Active preparations have commenced for the construction of the street railway.

Did you ever see such beautiful weather? This was the question propounded at every turn yesterday.

The loss of powder and shot, yesterday, was very large; that of the feathered tribe much less.

There was a general exodus to the surrounding country, in pursuit of recreation of various kinds yesterday.

At the church of the Good Shepherd most interesting services were held yesterday, a large congregation being present.

We learn that the Charity Ball was well attended last night and a handsome sum realized for the object in view.

At the First Presbyterian Church the meetings under the ministrations of Rev. Dr. Morton continue with much interest manifested.

The series of meetings at the Baptist Tabernacle still continue and much religious interest is being manifested. Last night there was a large crowd in attendance and the services were very impressive.

The attendance at the performance of "Jootles' Baby" on Wednesday night was slim although the performance was excellent. The company deserved better success.

At Edenton Street Methodist Church yesterday, the union services were largely attended and a most interesting sermon was preached by Rev. Dr. Carter of the First Baptist Church.

The barbecue gotten up by the typographical fraternity at Bledsoe's spring yesterday was quite an enjoyable event. Everything passed off well, and the "boys" returned to the city in the best humor possible.

The Durham Globe says that there are only two policemen on duty at night in that place. The question is, how many policemen does it require to entitle a place to the name of city, and how many do villages and towns usually have?

Talking to one's self is not uncommon with men who do much thinking, but it is not often that we see added to it vigorous jesticulation and warlike demonstration, as was the case with a certain citizen coming down Fayetteville street a few mornings ago.

Young men and boys standing in front of church doors puffing cigars, and worse still, cigarette smoke in the face of the people going into church is a nuisance that our police should break up.

Our cotton factory has been in operation only about four months. It is conceded to be a paying investment and has a pay roll of over \$15,000 per annum. Let us have a few more as soon as possible.

A new house is to be erected near the Johnson Street Railroad Station for the use of the train dispatcher. It will be most conveniently arranged in all particulars. Our friend, John Horton, yard superintendent, is looking after it, and this ensures a complete job.

Prompt Work.

Horses, mules, carts and machinery have already arrived for the commencement of the new electric system. This is prompt, and looks as if the work is to go forward with all possible dispatch. This is strictly business, and lends to the hope that the entire system may be finished and in operation before the Legislature adjourns, so that the people's representatives may have a good opportunity to carry to their constituents the good news of progress at the Capital.

Small Houses.

There is an undoubted need in this city for residences of moderate dimensions and reasonable rents. Such houses will be sought after almost continually as our city increases in population, and they will be, beyond question a source of profit to those who invest in them. We hope that our capitalists will look into this matter as there cannot be a better source from which to derive a safe return.

Married.

Mr. Thomas Pace, of Wake county, to Miss Almata Brooks, of Garner, on the 26th, Rev. M. E. Adams, of Wake Forest, officiating.

Mr. Charles Ellis, of this city, to Miss Grizzie Weathers, of Eagle Rock, at the residence of the bride, on the 26th, Capt. Smith, J. P., officiating, the minister failing to arrive. The happy couple came immediately to his mother's, on North Person street, to spend Thanksgiving.

Public School Matters.

Prof. G. P. Jones has been elected as teacher of vocal music in Murphey and Centennial schools. We are glad to record the fact that vocal music is to be a part of the course of study in those schools.

Prof. Chas. N. Hunter, the Principal of Oberlin School has been promoted to the principalship of Garfield School made vacant by resignation of D. A. Lane.

An examination of applicants for the principalship of Oberlin School will be held by Superintendent Moses at an early day.

The Christmas holidays will begin on Wednesday, December 24th at 12 m. and the school will open again Friday, January 2d.

Raleigh has a Furniture Factory.

In our reference to our need of a furniture factory a few days ago, we meant to call attention to the demand for one on a large scale, and so complete that it would meet the demand for the finest bed room sets, office and general furniture. We did not desire in any way to reflect upon the furniture factory now operated by Mr. Ruffin Roles, which is really doing well and turning a large business in the lighter and cheaper grades. He has struggled hard in building up the business and but for want of capital his factory would meet the requirement.

If Mr. Roles has the ground room for extension, our suggestion now is that he organize a stock company with capital sufficient to increase his factory so as to include the best as well as the cheap grades.

We are glad to learn that he is meeting with success and is not able to keep up with orders.

Merchants will soon be very busy arranging their show windows so as to make a good appearance for Christmas goods, of which a larger sale than for many years, is anticipated. All of which is due to our abundant crops and the general boom of our city and vicinity.

Select Norfolk Oysters Tomorrow.

Leave orders at my store at once, and your orders shall be promptly filled. Phone 28, D. T. Johnson.

Call on A. E. Jordan tomorrow if you want nice dressed turkeys.

Chalk Marks on Fences.

All about the city we notice many of the fences chalk marked, and it looks bad. We take it that it is done by children to and from school who do not know that they are violating the law and are liable to be arrested for it.

Defacing private or public property is a criminal offence, and we suggest to parents and teachers that a strong reminder to their children may save somebody trouble, as the police have already had their attention called to the matter.

Matrimonial.

The Greensboro Workman of yesterday has the following:

On yesterday we referred to the fact that Mr. Gid. Morris, of Raleigh, was here for the purpose of meeting Mrs. Wood, of San Diego, Cal., an old sweetheart of his. They were engaged to be married 29 years ago. He went to the war and she heard that he was killed and she married another man. In the meantime she has been married twice and he three times. Both are free, now, however, and they are to be married after 29 years of waiting. She arrived here this morning and they went down to Raleigh together. Both were as happy and foolish as if they had never been married before.

Personal Mention.

Superintendent Gambrill of the Raleigh cotton factory, has gone North on a business trip.

Mrs. J. H. Crabtree and three children have removed to Roanoke, Va., to reside.

Our old friend Mr. W. F. Tomlinson of Asheville, and the editor of the Country Home, a monthly Alliance Journal, is a candidate for engrossing clerk of the House. We shall certainly vote for Bro. Tomlinson; we endorse him most heartily.

Messrs. R. N. Hackett and Chas. S. Johnson, of Winston, were in the city yesterday.

Mrs. Alice Scarborough has returned to the city and spent Thanksgiving, from a visit to Miss Grizzie Weathers, at Eagle Rock.

LADIES' AND CHILDREN'S WRAPS—We have got a stock of wraps that any one can be suited from. We have fine wraps for best wear. Then we can show you all the cheaper ones too. If you wish a child's school cloak, then you can be suited, and at a price much lower than you can have the same garment made for. The styles of our children's cloaks are the newest, and our prices are so low you wonder how we can sell such a good garment at such a low price. If you need a wrap of any kind, be sure to see our stock before buying.

What do You Think

of the Racket Store, or rather of Swindell? (You know its not called Racket Store now.) Do you think he is the biggest liar in the world or do you think he tells you the truth, the whole truth and nothing but the truth. Of course we know what the majority of the people think. They know we do not lie, but we are talking now to you personally. What do you think? You are bound to think one or the other. You can't think we are both honest and dishonest, can you? Now, we ask you: Is it consistent with common sense or good judgment to think we would tell such big ones? Then, if not we must tell the truth, and if what we tell you is the truth, don't we sell our Dress Goods, Clothing, Shoes, Hats, Millinery Goods, and every thing else for less money than any other house in the city? Now these are plain questions and we ask you to come and see our goods and prices and see what you think of the matter.

SIGHT IS PRICELESS

Which every one should remember and therefore should do their utmost in preserving their eyes. Prof. Nye, the optician of New York City, who is now and has been at the Yarboro House for the past four weeks, will give the best advice and a thorough examination of the eyes free of charge and will adjust his superior glasses so as to give sight similar to that, one experiences in youth. He does not only give his attention to fitting persons requiring the use of glasses from age, but also making tests for abnormal cases which are more frequently found in young patients, such defects as Hyperopia (far sight), Myopia (near sight), Presbyopia (old sight), simple, mixed and compound Astigmatism (irregular curve of the cornea), Anisometropia (unequal refraction of two eyes, &c. Those desiring to be fitted at their residence will be called upon without any extra charge.

Very respectfully,
S. B. NYE,
Yarboro House.
