RALEIGH, DECEMBER 13, 1890.

OUR FALL TRADE.

We have taken occasion of late, to talk freely with some of our business men relative to the trade of our city. present and prospective and are led to the opinion that the outlook of Raleigh, this season, is far better than for some years past. The excellence and abundance of the crops, both of staples and cereals, have produced results even beyond reasonable ex pectation. Most of our people have money to a greater or less extent. They are buying freely, and the best of it is they are paying cash for what they get. The merchants are moving ahead with steady, but sure results, and, some of them are even already regretting that they did not lay in larger stocks. The farmers are cheerful, and well they may be, because, for the first time in several years, they are enabled to remove all incumbran ces on their property, real and personal, and have a surplus left for do mestic use and as a nucleus for a rain day. The best of it is, the cotton and tobacco outlook of our city is splendid, and we have a first class market for both staples, which is being rapidly realized by the farmers of a large belt of surrounding country. There is no discount on our city in a business point of view, as well as in all others. We are on the elevated plain of a sure enough boom, and all our people realize it.

HOW IS THIS FOR HIGH?

An English Syndicate with ten mil lion dollars capital are backing up a Chicago inventor's scheme for navigating the air. The thing, it is claimed, is a success. A recent experimental trip proved that they can travel 100 miles an hour without any jar, or feeling of rush through the air. One would not know that he was moving except by looking from his aerial car window at some object on the earth below. They claim to be able to go against the current, or with it without difficulty.

The projectors propose to build air ships of various carrying capacities, from a single air sulkey that will carry a solitary traveler, who, having kissed his wife good bye at the breakfast table in Chicago, would be able, if invited to do so, dine with England's noble Queen the next day in her majesty's palace, to a car capable of taking a Raleigh Sunday School on board some bright morning and land them the next day in one of the beautiful parks of Paris where they could picnic and be happy in the obliteration of distance. This is indeed a fast age, but this inventor's claims are rather rapid and lofty even for these times, we think.

Newbern Journal: Mr. W. H. Whitehurst, of Paulico courty, gath ered 18,000 pounds of seed cotton off of ten acres. This was over 600 weight of lint cotton to the acre at a cost to him of three cents per pound for producing and housing. There is money in such farming as this where the Come and see the yield has been good and the expense of raising small. Small acreage and well tended is the future success of the farmer.

Ashboro Courier: Eighteen head of sheep were killed by a locomotive between High Point and Ashboro this week.

North Carolina Conference.

Staff Correspondence of the VISITOR.

THIRD DAY.

WILSON, N. C., Dec. 19. Conference was called to order by Bishop Keener.

After religious services by Father Wheeler, the regular order was taken

Dr. Harrison, the editor of the "Southern Quarterly Review," was introduced to the Conference and presented the claims of his publication in a very strong and clear light, in which he gave some very important and interesting information relative to its circulation and patronage.

Dr. Harrison is one of the most in tellectual men in the Southern church and the work he is doing is combating and refuting the popular semiinfidel scientific publications of the his estate to present the same to the

Dr. Potter, the missionary secretary for the Southern Methodist connection, was introduced and addressed the Conference on the subject of foreign missions. He made an exceedingly strong and forcible speech, after which a collection was taken up and about \$750 were raised, which will support a single man in the missionary work.

Quite a number of Raleigh people appeared in the Conference room. Mr. Josephus Daniels, the able editor of the State Chronicle, is here, also Mr. Duke, of Durham.

The number of people attending upon the sessions of the Conference is unusually large and very much

The Conference met here some ten years since when the body was nearly double its present size. The division of the Confer nce, which took place at Greensboro a year ago and which was ratified and consummated at St. Louis by the General Conference, leaves the North Carolina Conference only half its former numerical strength.

From the indications obtainable outside of the Bishop's council indicate that Drs. Cordon and Nash will both be returned, though we cannot be certain of their action of a jury or a Bishop's council at an annual

It is thought the Conference may adjourn on Monday.

Christians Killed in China.

SAN FRANCISCO, December 9 .- Advices from Chung King, China, by steamer which arrived here yesterday state that the troubles at Ta-Ohu-Hsien arose from the massacre of Chinese Christians at Lonng-tuy-Tsin by members of the Loo Huy Sos Society during a celebration in honor of the society's patron deity.

After the celebration had lasted several days the brotherhood consulted their gods as to whether it would be safe to plunder the Christians. The reply being in the affirmative, the bro herhood made a raid on a number of well to do Christian families and curried off a lot of booty. A few days later they made a fresh attack and massacred over twenty persons, nineteen bodies being counted in the streets, and several more are known to have been cut in pieces and thrown into the river. The mission buildings and many others were burned and the bodies thrown into the flames,

On the following day the brother hood proceeded to another market town and made an assault on the Christians there. The latter fied, but one of them was killed.

Coal Dealers

We call special attention to the Coal we propose to handle this season, and which we are receiving daily.

Kanawha, West Virginia, Splint.

Superior to any in the United States for grates and open fire places.

NEW RIVER LUMP for grates and

stoves. It s the equal of any and surpassed by no other (save Kanawha Splint), be it under any name what-ever. It has been upon the market for the last ten years, this is the first season for Raleigh and North Carolina. We have the New River for steam also, which we will put by the side of any other coal and guarantee equal, it not better results.

We are the agents for this coal and can ship for domestic and steam users to Charlotte, Henderson, Durham, Winston, Oxford and other points direct from the mines. Give it a trial, is what we ask.

HARD COAL wery choice lot of Red and White Ash for grates and stoves, which we screen before sending to our customers. Buy now and save money. Write for prices. Oak, hickory and pine wood, long or cut, on hand all the time.

ANDREWS & GRIMES.

I am prepared to tune and repair organs and pianos. Also to give music lessons on these instruments and the guitar and banjo. All business entrusted to my care will receive prompt attention and satisfaction guaranteed. References given if required. DAVID W BADHAM, no7 1m 211 West Jones street.
