LARGEST CITY CIRCULATION.

RALEIGH, DECEMBER 17, 1890.

THE OLD NORTH STATE.

Granville county is still on the boom. Another good copper mine near Blue Wing has been discovered.

The loss of the Richmond and Danville railroad company resulting from the wreck of the freight train near Swannanoa tunnel amounts to about \$10,000.

The Henderson Gold Leaf this week celebrates its ninth birthday. The first issue was given to the public December 15th, 1881. We congratulate our brother.—Twin City Daily.

Mr. A. A. Conley, of Linville township, has reopened the old Conley gold mine, and is meeting with very indication of striking it rich before long.—Morganton Herald.

The telegrams say that a small boy, Thad. Cherry, of Tarboro, was fooling with his gun Friday when it was discharged, blowing his head clean off of his shoulders.

Messrs. Breen & Feely have secured the release of their stock, &c., levied on a few days ago, and have resumed work in regrading the R. & S. between Ridgeway and Martinsville.—Henry Bulletin.

From a special telegram to the Atlanta Constitution, we see that Col. L. L. Polk will dismiss his private secretary, Rittenhouse, who has done so much work of a character to damage the Farmers' Alliance.

Mr. A. J. Dickerson, of Bushnell, Ill., wishes to begin the manufacture of smoking tobacco at an early day and expects to use bright leaf from this section. He is now a cigar manufacturer and the manufacture of granulated will be an addition to his established business.—So. Tobacco Journal.

Dr. R. K. Gregory of Greensboro, the patentee of the Antiseptic Home-static Anesthetic Styptic, for the treatment of wounds, has effected an arrangement with both the Richmond and Danville and Cape Fear and Yadkin Valley railroads by which his new contrivance is supplied to these roads for use in case of accident.

Some enterprising gentlemen from the north were here last week looking over the kaolin properties in the vicinity of Webster. They were so pleased with what they saw that they bargained for some of it. They returned to their homes Friday with the understanding that they will be back here inside of two weeks to complete their purchase and make others if possible.—Webster Herald.

Mr. W. H. Whitehurst, of Pamlico county, gathered 18,800 pounds of seed cotton off of ten acres. This was over 600 weight of lint cotton to the acre at a cost to him of three cents per pound for producing and housing. There is money in such farming as this where the yield has been good and the expense of raising small. Small acreage and well tended is the future success of the North Carolina farmer.—Twin City Daily.

Marcellus Dawson, Tom Lane, and another man were hunting rabbits near Greenville recently, and as they were returning home and when out near the road stopped to rest. Suddenly Dawson called out, "there goes a rabbit," and in whirling to shoot it the whole load of his gun struck

Lane, who was a few yards away. Sunday Dawson offered to surrender to the sheriff, but the killing being purely accidental, the officer would not hold him.

Greensboro Democrat: Greensboro is to have a large roller flour mill. Already \$14,000 of stock has been subscribed and the amount is growing steadily.—Judge McRae is after the magistrates of the county with blood in his eye. In his charge to the grand jury on Monday, he ordered them to find indictments against the parties accountable for the present jail unless its condition had been improved since the last term of the court, and as the magistrates refused to have a new jail built, they will be the sufferers if the Judge's charge is carried out.

Central American Earthquake.

New York World. A peculiar thing about living in Central America is the ease with which you become accustomed to the earthquakes. They do not come without giving due notice. You are sitting on a piazza of a hot afternoon chatting with your friends when suddenly the sky seems to grow hazy, the crows stop cawing and the buzzards quit fighting in the street. There is a general rush, and, though you may not know what is the matter you cannot help feeling uneasy. The old natives say, "We are going to have a little shake," and then the house begins to rock, the tumbler fall off the table, you feel deadly sick at the stomach, and the thing is over; the sky clears, the crows begin their noisy scream and the buzzards resume their quarrel over the street offal. There is something inexpressively terrifying however, about the trembling of the earth; the slightest oscillation will awaken the population of the whole town and rouse a drunkard out of the deepest stupor; but unless some considerable damage is done everybody goes to sleep again as a matter of course.

Tree Culture.

Wilmington Star. We have occasionally called attention in these columns to the subject of tree culture, especially that of nut bearing trees, such as pecan, hickory and walnut, all of which thrive in our climate: and to all of which the soil is well adapted. The Detroit Free Press, which has been calling the attention of the farmers of Michigan to this branch of industry, says: "If a boy fifteen years of age should be left ten acres of land in Michigan, and his guardian should cover it with hickory trees, the income of that boy when he came to be thirty years old would be from \$9,000 to \$11,000 clear cash off his little farm." Hickory timber, of which there is an exceedingly limited supply, is always in demand, and the same may be said of walnut. Both hickory and walnut are becoming scarcer every year, and the price of each is advancing in proportion. We would rather have to day ten acres of either than ten acres of the best farming land on the continent. But there is even more money in the cultivation of the pecan tree, which in addition to being valuable would yield a nice amount yearly after they got in bearing from the nuts which would find ready sale. If proper selection were made the nuts of the hickory and walnut would also pay well. There is money in this tree and nut culture for the men who engage in it.

The wife of Right Honorable Anthony J. Mundell, M. P., is dead.

ANDREWS & GRIMES

Coal Dealers-

We call special attention to the Coal we propose to handle this season, and which we are receiving daily.

Kanawha, West Virginia, Splint.

Superior to any in the United States for grates and open fire places.

NEW RIVER LUMP for grates and stoves. It is the equal of any and surpassed by no other (save Kanawha Splint), be it under any name whatever. It has been upon the market for the last ten years, this is the first season for Raleigh and North Carolina. We have the New River for steam also, which we will put by the side of any other coal and guarantee equal, if not better results.

We are the agents for this coal and can ship for domestic and steam users to Charlotte, Henderson, Durham, Winston, Oxford and other points direct from the mines. Give it a trial, is what we ask.

HARD COAL

We have also a very choice lot of Red and White Ash for grates and stoves, which we screen before sending to our customers. Buy now and save money. Write for prices. Oak, hickory and pine wood, long or cut, on hand all the time.

ANDREWS & GRIMES.

MUSICIAN

I am prepared to tune and repair organs and pianos. Also to give music lessons on these instruments and the guitar and banjo. All business entrusted to my care will receive prompt attention and satisfaction guaranteed. References given if required. DAVID W. BADHAM, no7 1m 211 West Jones street.
