NEWS NOTES ABOUT THE CITY.

What Our Reporters See and Hear Worth Giving to Our Readers—News in Brief.

Large tobacco breaks today. Raleigh is a lucky place; no fire alarm in two months. Messrs Evans & Martin are building a Hose Wagon for the Rescue Fire Company. The Governors Guard have decided to attend the Fish and Oyster Fair at New Bern which commences next Wednesday.

The committee of the two Houses of the General Assembly that went to Morganton on a tour of inspection of the Western Insane Asylum, have returned, and report everything in splendid condition. They had a most delightful trip.

The funeral of little George the infant son of Mr. and Mrs. A. B. Stronach, took place this morning at 11 o'clock from the residence, Dr. Watkins officiating. It is sad for the parents, but the little one is safe forever.

Manteo Lodge No 8, will hold its regular session tonight for work in the third degree. The officers would be glad to see every member present. Every resident and non-resident member of the order in the city will witness a most pleasant occurrence. Come and receive a cordial welcome. GEO. L. TONNOFFSKI, Rec. Sec.

The Raleigh Paper Mills will shut down on the 20th and will remain so for a month for the purpose of repairs, putting in new machinery and increasing the capacity of the Mills generally. This enterprising company have not been able for some time to keep up with orders and we are glad to see them taking steps to keep up with their increasing business. They will add pulp making machinery which is the right thing to do.

Raleigh needs a new station house and needs it badly, and must have one. The miserable thing now used for one is nothing more than a hole in the ground. It won't fill the bill. It would answer for the Raleigh of thirty years ago, but the Raleigh of today needs and demands something better.

Something was said two or three years ago about building one, but it was like some other things started, it went up in smoke.

Raleigh has been blessed with a good board of Aldermen for the last two or three years, good, solid business men, and it does seem that they could provide a better place than the one now in use. Gentlemen, for the sake of the poor unfortunate creatures incarcerated therein, to say nothing of the pride of the capital city of the "Old North State," give us a new station house.

Died.

Miss Florence Telfair, at St. John's Hospital, this morning of typhoid fever. Miss Telfair was the daughter of Alex F. Telfair, who was one of the first settlers of Smithfield, Johnston county. She was a highly accomplished lady, and up to the time of her sickness was engaged in teaching music and painting. The funeral will be announced later.

City of London.

Dr. J. J. Hall, will lecture at the Baptist Tabernacle Thursday night, February 19th, 1891. He will picture to you "London Life" giving vivid pictures of its Parks, Museums, Tower of London, St. Pauls its Docks and many other things of interest. A life of twenty years spent in this city enables Dr. Hall to give you more information than you could obtain if you were to reside there for several months.

We are sure this lecture will be entertaining, instructive and amusing. Make no other engagement but hear him. Admission only 25 cents.

Mail Inefficiency.

What is the matter with the U. S. mail between Raleigh and Henderson? A party residing in Raleigh complains that out of five letters addressed to persons in Henderson, and put in the post office at Raleigh, in the last two months, only two have ever been received by the person to whom they were addressed.

A similar complaint is made about the service between this city and Warrenton by a lady. Something must be wrong somewhere. The evil should be looked after and removed at once.

Reasons Why You Should Advertise in the VISITOR.

- 1st. It's an old established paper.
- 2nd. It has the largest city circulation of any paper in Raleigh.
- 3rd. It gets there with both feet, and by a big majority.
- 4th. Because it is here to stay.
- 5th. It is for the upbuilding of Raleigh.
- 6th. It is the interest of the citizens of Raleigh to patronize that which most effectually accomplishes the thing for which they pay their money. Advertising doesn't always advertise unless it is done in the VISITOR.

Left For Winston.

As announced in the VISITOR a few days ago, Mr. D. H. Browder has determined to make the city of Winston his future home. He left on the west bound train this afternoon, carrying with him many regrets that Raleigh should lose him, and best wishes for his success in his new home. Mr. Browder has been among the foremost of the young men of our city who has contributed so largely to its energy and progress in the past ten years. For eight years he was book keeper for Messrs Latta & Myatt; afterward he was Business Manager of the *Progressive Farmer*, and while so engaged established the *Daily Call* one of the brightest papers ever published in Raleigh, and merging that paper with the *State Chronicle*, became associated with Mr. Daniels in the publication of the same.

In all these relations Mr. Browder exhibited pluck and energy, and a devotion to the interests of Raleigh that makes his loss to us very great. We again congratulate Winston upon the gain, and commend Mr. Browder to them as worthy of their highest confidence.

The Late Crop of Irish Potatoes.

There is an increase of interest in various parts of the country in the matter of Southern grown Irish potatoes for seed. These are the potatoes grown in autumn from seed of the early crop. Parties at the North speak highly of these for planting them. The prospect is that a new and valuable product will soon be open to Southern growers in supplying these late grown, unsprouted potatoes for planting Northward. A leading Richmond seedsman offers Southern grown seed this spring, and speaks of an increasing demand for them. These potatoes are raised here from the cullings of the early crop, planted about the middle of August. The early crop to furnish seed for this late one should come from the North, but the late grown potatoes are best for planting for the market crop.—W. F. Massey, Horticulturist, N. C. Experiment Station.

Type Cast in Charlotte.

Charlotte is the first town in the State that can lay the rather proud claim to a type foundry. The Southern Newspaper Union in this city has just cast a font of job type, and the result is excellent. The work was done by Mr. Donaldson and Mr. Hamell. They have finished up one front and have several fronts in the molds. The News expects to get a font of this Charlotte made type to help display its advertisements.—Charlotte News.

He—"Shall I come and talk to you while you have your tooth pulled?" She—"No, I don't think it will be necessary to take gas."

A Horrible Murder.

A WOMAN BEATEN AND BURNED TO DEATH WITH A HOT POKER.

At Sturmsville, Penn., Edward McMullen, on Sunday night the 15th inst., killed his wife with a red hot poker, torturing and mutilating her body in a horrible manner. McMullen was drunk, and when told by the officer who arrested him, that his wife was dead, said: "I know it, didn't I kill her." The fiend is in prison.

A Funeral That Did Not Take Place.

DETROIT, MICH., Feb. 13.—This morning her physician pronounced Mrs. Margaret Rasheck dead. An undertaker was summoned, the body prepared for burial and placed in a coffin. The cause of the apparent death was so mysterious that the coroner was summoned. While the inquest was in progress Mrs. Rasheck astonished those present by rising in her coffin. She will probably recover.

American Persistency.

The London News, commenting on the Nicaragua Canal scheme, says: "The Americans seem about to triumph by sheer persistency. If one-half of Mr. Menocal's anticipation is realized he will rank among the world's greatest engineers."

LACE CURTAINS

We have added to our special sale of Chenille Curtains, Chairs, and Tables, a line of Lace Curtains.

This is also a line that we wish closed out before the new stock arrives.

The success of our special sale of Curtains and Furniture during the past week, was even greater than we expected, and the lot being now replenished with better values in LACE CURTAINS makes this sale doubly interesting.

These Curtains have been taken from the regular department, 2nd floor and are displayed near Fayetteville street entrance, and the prices all marked in plain figures.

To secure the best values from this sale, purchases should be made at once as the space these goods now occupy belongs to another department, from which new Spring stock will soon be shown.
