RALEIGH, FEBRUARY 17, 1891.

NEED FOR A STATE GEOLOGIST.

No living man can form an estimate of the value of the minerals hid away in the soil and rocks of North Carolina. Last summer while at Bryson City in Swain county, a gen tleman who immigrated to this State from Michigan, a short time before, remarked to us, 'I think there is gold up! that gorge," pointing off westwardly. Since then, we are informed that two gold mines in that vicinity have been opened, or are being open ed. Kaolin, Talc and marble are being mined and shipped by the hundred tons from several counties in that section. Iron ore has been discovered in new localities recently; Corundum, Emery, Crystals and Gems are to be found in various parts, and yet there are large areas that lie practically unexplored all up and down the mountain sections of North Carolina. Who knows what vast wealth lies hid away in the bosom of the Old North State that will be brought to light some day. The east with its marl and phosphate and gold is not without its mineral interest. The oldest gold mine in the south probably, near the juncture of the counties of Warren, Halifax, Nash and Franklin has been worked for about 100 years, and is still yielding, or was a short time since, though the vein has been followed a considerable distance from the point of first discovery. There is a ledge of gold bearing rock running off into Nash county in a southernly direction from the old mine which may develope something rich some day.

It was reported recently that gold had been discovered in Wake, only some 10 or 12 miles from Raleigh. The State posfessing such unknown resources, and which abound in almost every section, should have a good geologist to whom all such matters could be refered and settled. Our present General Assembly should provide for this department with a liberal but not a profligate hand. The office should be created and a thoroughly competent man put in charge of it. Favorites should be rigidly ingnored and a competen, faithful, diligent man be placed in charge of such work, with adequate means to render his services available to the people. The people want it, and need it.

Railway Syndicate Work .- The bill favorably reported by Senator Cullom to amend the interstate commerce act provides that competing common carriers may, with the approval of the interstate commerce commission, enter into contracts or greements with respect to traffic when, in the opinion of the committee, the general public interest and general welfare will be there by subserved.

The Alabama Legislature responds to the patriotic action of the United States Senate in defeating the force bill by enactments looking to the advancement of the negro race in that State, the improvement of their condition, promising better educational advantages for them, and to arrange for their representation in the great Columbian World's Fair.

It is Predicted in Washington that the Fifty second Congress will likely be called upon to consider a bill providing for the removal of the tariff tax from all the raw material required by our manufacturers.

CAN'T KICK JENNIE'S CALLERS

The Father of a Pretty Iowa Girl is Forced to Mend His Ways.

DES MOINES, Ia., Feb. 11.—Franklin Smythe, a farmer, living near Shenandoah, has come to the conclusion that it is not always safe to interfere frivolously with the course of true love.

Mr. Smythe was aroused at 1 o'clock this morning by a vigorous pounding on his front door. He poked his head out of his bedroom window to see what was going on, and caught a glimpse of twenty gentlemen who wore sombreros and black masks.

One of these gentleman perceived Mr. Smythe, and explained that he had better come down just as he was without stopping to dress, unless he desired to be perforated with cold lead. Mr. Smythe came down.

As soon as they got the farmer outcors the people in sombreros inform. ed him that they were bad men who would not object to killing him and eating him raw, but would let him live a little longer if he would forego his pernicious habit of applying the toe of his massive cowhides to young men who call on his pretty daughter,

Mr. Smythe promised that hereafter all nice young men will find a fire in the parlor stove and a pitcher of hard eider awaiting them.
