A New Flatiron.

Some ingenious person has patented and put on sale a flatiron which especially commends itself to women who board or any who employ dress-makers in their homes. It is made with an opening in the upper part and is hollow inside. Within are placed blocks of a new sort of fuel which comes in little cakes and when these are lighted they will burn six hours and keep the iron well heated all the time.

Mrs. C. W. Harris, the Washington correspondent, writes to the Statesville Landmark: "Hal. W. Ayer, a clever young ex-newspaper man from North Carolina, is here as Col. Polk's secretary. That youthful prophet bets me the finest pair of kid gloves in Washington against a saucer of ice cream that the third party will have 100,000 votes in North Carolina and 120,000 in Georgia. If I visit any of my kinfolds around your way in 1893 I expect to bring in my trunk a pair of gloves that will be too fine for poor folks to wear on the train."

THE GREAT

Panacea Springs

WATER

CERTIFICATE FROM DR. J. B. BOBBITT.

RALEIGH, N. C., June 5th 1891.

To the Panacea Springs and Hotel Co:

Gentlemen—It affords me great pleasure to state that I regard the Panacea Springs water the very best in the catalogue of mineral waters now in use for scrofula, and especially for dyspepsia. One year ago I was a great sufferer from dyspepsia and after spending several weeks near the springs and using the water daily, I was entirely relieved. Since that time I have had occasional returns of it, and in every instance I have experienced prompt relief by the use of the water. I would advise every sufferer from dyspepsia, who can do so, to use this water. It is what its name indicates—a panacea—for some of the worst, if not all, the diseases to which flesh is heir. I have known the water for a number of years, and I cheerfully recommend it. Respectfully, J. B. BOBBITT.
