Correspondence of the VISITOR.

BAYONNE CITY, N. J., Aug. 28. The services in connection with the good work of Mr. S. J. Betts, at Bayonne City, are still receiving marvelous signs of the divine power and blessing. The Rev. W. T. Lambourne, from England, is still the Lord's favored instrument, and is preaching with exceptional vigor and intelligence the old, old truth that saves. Life is coming from the grave, the air all around seems sacred. Voices are eloquent in prayer and jubilant with song, and the united aim of all saints is to rescue the perishing, and win for Jesus universal supremacy.

Bayonne at this time evidently has a visit from the Holy One, for joy is abroad and Heaven is receiving new sons and daughters.

Near upon two thousand gathered beneath nature's shades on Sunday last, and as dear Bro. Lambourne told his favorite theme, many were the hearts that bowed under the rifles and revolvers. weight of the Spirit's power. The close of the day found us returning to our varied homes gifted with higher resolves to be true to our dear Lord, and with faith deeply strengthened in the gospel that brings the weary rest.

Bro. Lambourne may yet be heard in Raleigh, and let us pray that his visit may prove a gain to the King's own sanctuary and a joy to all His

Sent His Lottery Tickets to Uncle Sam.

A unique "conscience fund" cons tribution has been received at the dead letter office of the post office department in the shape of thirty eight \$1 Louisiana lottery tickets. The moral aspect of the case is some what mixed from the fact that the tickets had all matured, but not in cash. Evidences of an indorsement of the anti lottery policy of the postoffice department are shown in the following note which accompanied the contribution:

DEAD LETTER OFFICE: Here are thirty eight tickets. They cost me \$38, and I never got a cent. It is all humbug. They send out some small prizes, but the large ones stay at home. It is a good thing that Uncle Sam has bothered them. There is thousands that got bit.

Commissioner John Robinson and Inspector G. S. Terrell, of the State Agricultural Department, were here yesterday getting evidence about untagged fertilizer. The commissioner assured us the matter would be closely investigated. He also stated he would take no action against the farmers who had used it and were ignorant of the tag requirement. - Herderson Tomahawk.

"I hear George is going to get married," said one young lady to another this morning. "No," replied the oth- lions and a quarter, and could be er, "he is in debt."

When Kissing Began.

The mutual kiss of affection or passion by the lips between persons of to bε instinctive, Reichenbach sought to explain it on the theory that the mouth was the focus of the 'odic force" and that these two force of op posite sexes possessed natural attraction to each other.

The fact that the mutual kiss between opposite sexes is not general among the tribes of men is abundantly shown by the observation of travelers in the lands where savagery and barbarism still exist. Where it is now practiced it is not probably of great antiquity. In some languages, notably the Japanese there is no word for kiss.

When, however the kiss was introduced to include women, its vogue, like that of other new inventions, was carried to excess. According to the chronicle of Winsenius, it was unknown in England until the Princess Rowena, the daughter of King Hengist, of Friesland, instructed the instriar Vortigern in the imported

Though the Saxon statistics are not probably exact, it is historical that in England not many years ago it would have been the imperative duty of a visitor to have kissed all the ladies of the household, even without previous acquaintance. Such was the experience of many surprised literary foreigners, notably Erasmus.

The contemporary drama shows the usage to have lasted into the Georgian era, and it is to be noticed that the performance was generally called a "salute," sometimes "the salute."-

John Brown Lynched

JACKSON, Tenn, July 26. - John Brown, a negro, who shot and mortally wounded John Gardner, a white switchman, because the latter ordered him off his engine yesterday afternoon, was swung into eternity this morning at 1 o'clock. The mob was expected by everybody and was witnessed by at least 500 people, all of whom stayed up for that purpose. The mob was composed of about forty men supposed to be railroaders, and they made considerable noise by yell. ing when doing their work. They were well armed with Winchester

They yelled to the jailer to open the door, and when he refused they battered it down with a sledge ham. mer. He was forced to produce the keys and unlock the door of the cell of the unfortunate wretch, under a threat of death and at the muzzles of rifles and revolvers Brown was car ried to the courthouse square and hanged to a tree. The agonies he suffered were horrible and shocking. They made two unsuccessful attempts before killing him, and then he died of strangulation. The rope was twisted the first time and broke in the second attempt. He wanted to make a statement, but when he began calling the names of some railroad men he was jerked into the air. His body was left dangling in the air until this morning, when it was cut

The mob shot the body but once, and that they claimed, was to make death certain The police force was powerless to prevent the banging.

A Floting Tunnel.

St. James Budget.

These engineers are constantly pro posing things likely to alarm nervous people. The newest notion that has been devised for frightening people out of their wits is a floating railway tunnel between Scotland and Ireland. We have heard of "the land junction of Scotland and Ireland" before, but the experts say that the geologi cal formation of the bed of the North channel is so different from that of the English channel that a tunnel would not be possible.

But Mr. James Maxton is equal to the difficulty, and he has been proposing at Belfast that a floating tun nel should be anchored sixty feet below the surface. This arrangement is called a "Submerged Buoyant Bridge," which is a brave name Henderson, enough. It would cost only five milcompleted in two years and a half.

And all this magnificent conception could do would be to save the nineteen miles of sea between Port Patrick and Donaghadee, but suppose opposite sex is generally considered the weight of a train should some day overcome the resistance of Mr. Maxton's anchors! That would be so much the worse for the train, we
