NO. 95

NEWS NOTES ABOUT THE CITY.

What Our Reporters See and Hear Worth Giving to Our Readers—News in Brief.

The Raleigh Phosphat Mills are nearly completed.

Watermelons are on the decline in both quality and quantity but on the advance in price.

Henderson has levied a tax of twenty cents on the one hundred dollars for graded school purposes.

A canning factory at Mills' Springs and also at Ary, N. C., are in course of erection.

It is reported that another rich gold find has been made in Montgomery county near the Uwharrie river.

Attention is called to the advertisement of L. R. Wyatt to be found in this issue.

Mr. Whitelaw is at work on the vaults of the new bank, corner Wilmington and Martin streets.

There will be a Prohibition meeting at the court house tonight at 8 o'clock. Mr. John R. Miller will deliver an address.

A very interesting meeting is in progress at Ebenezer (Methodist) church, about ten miles from the city.

The addition to Messrs. W. H. & R. S. Tucker & Co's store is getting far enough advanced now to enable you to appreciate what an improvement and enlargement the addition will be.

Mayor Badger had one case of an affray which swelled the city treasury \$15.00. One case of drunk and down, twelve hours in the station house.

The electric street railway people are pushing things with more life. They have had quite a force today at work overhauling the track on Blount street.

Farmers in the city today are much more cheerful. They say the crops have greatly improved in the past few days. The rain last night was timely and cheering.

The county commissioners granted the electric street railway company permission to change its lines and to go up through Oberlin. This will be a bonanza for "Save Rent."

Work on the Baptist Tabernacle is progressing finely, when completed it will be one of the handsomest churches in the south and will reflect much credit on the contractor, Mr. T. F. Causey.

Mrs. M. L. Jumsden gave an ice cream party to little Miss Finch from New Bern yesterday afternoon on Jones street to the satisfaction of all the little ones present.

Mr. and Mrs. Z. W. Haynes lost their infant child at 9 o'clock night before last, which lived only about two hours. It was buried at five o'clock yesterday afternoon.

A wedding, now soon to occur is absorbing a good deal of attention in a certain section of the city. Things are not only being put into shape inside of the house, but the surroundings are being brightened up. This is as it should be; a great many people never get married but once, therefore it is an important event in one's life.

I. R. Branham, editor Christian Index, Atlanta, Ga., writes: "I have used Bradycortine with unfailing, prompt, decided relief." Aug. 11 6t

Mr. J. J. Bagwell, of St. Mary's township was in town today with a fine lot of watermelons of a very superior quality and extra large. He says he made one hundred gallons of cider from his apple orchard yesterday.

Messrs Whiting, Brothers, are meeting with great success in selling their fine fancy grapes. They received a telegraphic order one day this week from a fashionable watering resort for 5 ten pound baskets.

Mr. J. T. Patrick and his force of hands are busily engaged at the exposition grounds.

Cotton seems to have abandoned the market—none offering at all today.

The Raleigh and Gaston Railroad Company are putting in three more side tracks opposite the N. O. Car Company works.

Street Commissioner Blake has commenced paving on Martin street again. The rains stopped him for about three weeks.

The workmen are going ahead on the Union Depot. The work will be pushed and if the good weather continues it will not be long before it is completed.

Everybody is invited to attend the speaking in the court house tonight at 8 o'clock. Subject, "Why I am a Prohibitionist," by John R. Miller, State Organizer.

A fusion has been effected in many counties in Louisiana of the Alliance and the anti Lottery Democrats, and it is predicted that the fusion will be State wide.

A serious case of poisoning occurred in Rockingham, N. C., by which ten persons suffered. They partook of canned beef and ice cream for supper.

The "cool wave" which is following this one of torrid heat brought tornadoes to several places in Illinois on Monday afternoon. Raleigh wants the cold wave, but can spare the tornado.

Our city authorities would do well to fix the maximum charges for carriages to the exposition grounds. The electric street railway will not be able to do all the business in this line, and a uniform price for hacks should be fixed.

Mr. W. V. Williams has the finest mocking bird in the State, he differs from the majority of mocking birds, in plumage, while as a general rule such birds are speckled, this one is black, and he can imitate the crowing of a rooster to perfection.

His Honor, Mayor Badger, has a letter from Bettie Alphon, now living in Baltimore, Md., inquiring for the whereabouts of James and Edmond Smith. Those interested can get such information as they desire by calling at the Mayor's office.

In a few days the first hundred thousand dollars of the direct tax will have been paid back by the State to those to whom it belongs. Very nearly those figures have been reached already, and there is hardly any perceptible abatement in the filing of applications.

A young colored buck came in yesterday evening with a bridled steer for sale, the police thinking there was something crooked put him through a cross examination which developed the fact that the steer was stolen, the party went after reference and has not returned.

Night before last while Mr. C. M. Walters was preparing to retire for the night he heard some one rattle the door, he called out to know who it was, and was informed that it was No. 1. In going to see who No. 1 was, he found a big buck negro who stated that he was looking for work. Mr. Walters told him he had better work his way out of the front gate or else someone would have to carry him out. Look out for such tramps.

In looking up the Raleigh industries the writer dropped in the drug store of Mr. James I. Johnson and found them busily engaged in packing and shipping anteccephalalgine to various points in this State and Virginia. It is becoming more popular every day, and they are pushed to fill orders. Through its merits it is destined to take the front rank as a headache cure, and we predict before long that Raleigh will have an anteccephalalgine factory that people will point to with pride as this is strictly a (Raleigh) Tar Heel, remedy.

Off For New York.

Messrs. Kim W. Weathers, John M. Womble, Arthur Nowell and Geo. M. Lasater of this city and C. M. Weathers and T. F. O'Brien, of Waycross Georgia, will leave the city tomorrow morning for a trip to the various summer resorts north. They will make their headquarters in New York City from which points they will visit all the watering places within easy reach of this central city of the country.

Excursion to Wilmington.

Don't forget that excursion to Wilmington on August the 18th. It is only about nine miles to Wrightsville Beach from Wilmington and it will be an exceedingly pleasant trip. You can visit Wilmington, take a bath or two in the Sea, and have lots of fishing. The excursion train will be kept as comfortable as the weather will permit, by an abundance of ice water, and no crowding.

The Bicyclists Heard From.

The following dispatch received today: BALTIMORE, Md., Aug. 13.—Spence and Wynne are now between Philadelphia and New York on their bicycle together.

Swindell Crowded.

At an early business hour this morning the crowds began to gather in Swindell's establishment waiting for the hour to arrive. When the big calico sale had really opened, several clerks were closely engaged all the time cutting off the patterns selected, while the familiar cry of "cash" (the salesmen calling for the cash boys) could be heard, up and down that long store, thereby indicating that something else was being sold besides calico.

The crowd continued with some variation during the day.

One salesman remarked as he cut off a ten yard pattern, that he had sold 1500 yards today. The calico sale was a great success.

Personal Mention.

Mr. Geo. P. Kingdom and little son George, who have been visiting the family of Mr. John S. Keith, returned home today.

The executive committee of Trinity College will meet here tomorrow to decide upon a time and place for the opening of the fall term.—Durham Sun.

HOUSE FURNISHINGS.

Carpets, Curtains, Table Damasks, Napkins, Towels, Sheetings, &c.

Every one who has any preparations whatever to make in the line of house furnishings, should take advantage of the opportunity we now offer, to supply themselves, and not put off the purchase of these goods until the last weeks before the Exposition.

Nothing can be gained by putting off buying carpets, curtains, table damasks, napkins, towels, sheetings, pillow cotton, &c., as many of these goods are now offered at prices lower than under the old tariff, and if bought now money can be saved, and the trouble and inconvenience will be over before the rush of the Exposition begins.

BLANKETS.

There are a good many of our blankets carried over from last season, which we wish to clear out, before the new fall stock arrives. Some of these are solid, but the prices one can buy them for, will fully recompense them for taking an article slightly shop worn.
