

Editors Day.

October 5th and 6th, have been set apart by the managers of the Interstate Exposition as "Editors Day". In its comments on the subject, the Oxford Day has the following very sensible article.

"The newspapers of the South have certainly done much toward the upbuilding of the South, and it is high time that our own people appreciate what can be done through the columns of our home papers. If they were patronized as they should be they could do more to develop the South than all the foreign papers which charge two or three hundred dollars for a write up. The home papers are full of matter daily that calls attention to the South's advantages, and if our people would spend a few hundred dollars in sending their own papers abroad it would pay better than giving money to those who carry it away.

We hope to see a full delegation of editors at the Southern Exposition on the date named, and as they are promised a special good time they should attend.

We notice that on the same days the Northern settlers of the South propose to hold a big Convention and express to the world what they think of the South as a home for Northern farmers and capitalists."

Sanitary Report.

We are indebted to Mr. A. L. Ferrell, the efficient Secretary and Registrar of the Board of Health and city Sanitary Inspector for a copy of his report for the month of August 1891. White males 7, females 10, total 17. Colored males 4, females 10, total, 14, grand total 31.

The following are the deaths at 70 and over:

THE GREAT Panacea Springs WATER

CERTIFICATE FROM DR. J. B. BOBBITT.
RALEIGH, N. C., June 5th 1891.
To the Panacea Springs and Hotel Co:
Gentlemen—It affords me great pleasure to state that I regard the Panacea Springs water the very best in the catalogue of mineral waters now in use for scrofula, and especially for dyspepsia. One year ago I was a great sufferer from dyspepsia and after spending several weeks near the springs and using the water daily, I was entirely relieved. Since that time I have had occasional returns of it, and in every instance I have experienced prompt relief by the use of the water. I would advise every sufferer from dyspepsia, who can do so, to use this water. It is what its name indicates—a panacea—for some of the worst, if not all, the diseases to which flesh is heir. I have known the water for a number of years, and I cheerfully recommend it. Respectfully,
J. B. BOBBITT.
