NEWS NOTES ABOUT THE CITY.

What Our Reporters See and Hear Worth Giving to Our Readers—News in Brief

There are now eighty-six of the counties of the State that have organized boards of public charities.

The Edgecombe Guards are coming. They will be here November 1st. Give them a cordial welcome.

Miss Stella Banks have resumed her position as clerk at the Western Union Telegraph office.

Somebody is going to get a lot free in Oakdale Wednesday at the big sale.

A free ride on the electric cars to Oakdale to the big sale Wednesday. Tickets will be furnished at the office of J. M. Broughton & Co.

Meeting of W. G. Hill Lodge, No. 218, A. F. and A. M., tonight at 7:30 o'clock. Every member invited to be present. Visiting brethren invited.

Who will get the lucky number at the balloon ascension in Oakdale Wednesday evening? Let everybody go out. The Durham band will furnish music for the occasion.

The committee of arrangements for the reception of the Fifth Maryland regiment will meet in the Mayor's office this afternoon at 6 o'clock. Let all persons who desire to contract for board be present. The regiment will bring with it a band of forty pieces and a drum corps of twenty.

Mr. J. Lane, general manager Georgia Southern and Florida Railroad, says: "I was entirely relieved of headache by Bradycrine in fifteen minutes. It is the only thing that relieves me after the pain commences." wed 21 6t

Castoria is truly a marvelous thing for children. Doctors prescribe it medical journals recommend it and more than a million mothers are using it in place of Paeagoric, Bate-man's Drops, so-called soothing syrups and other narcotic and stupefying remedies. Castoria is the quickest thing to regulate the stomach and bowels and give healthy sleep, the world has ever seen. It is pleasant to the taste and absolutely harmless. It relieves constipation, quiet, pain, cures diarrhoea and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mother's friend.

Mr. Dal Haywood had a very narrow escape on Saturday from being run over by the street cars, and but for the prompt action of Mr. L. H. Adams, who saw the danger and quickly pulled him out of the way, he would probably have been killed. Accidents will happen in connection with about everything in human affairs, but everybody should reduce the number as much as possible. Our street car people should invest their share in caution on this line. If it had not been for Mr. Adams Mr. Haywood doubtless would have been seriously hurt, as he was not aware of the approach of the car until Mr. A. jerked him almost from under the wheels.

Don't forget the Oakdale next Wednesday at two o'clock. That is a lovely place out there; a walk or ride through it is bound to impress one with its great value as residence property. The president of the Capital City Land Company has just closed contract with Mr. Jno. T. Patrick for a balloon ascension during the evening, and the champion lady balloonist, Mrs. Dennis, will ascend to a distance of two thousand feet, and on her way up will throw out 500 tickets; on one of these tickets will be a number to correspond with a lot in Oakdale and the one finding this ticket will be given a deed to the lot free. This is open exclusively to the white people.

OUR PENITENTIARY.

What It Is Doing, and the Outlook for Making it Self-Sustaining.

"Credit to whom credit is due," is a good motto. It is a just one and should be applied to those who are entitled to it. We are led to these reflections from the fact that Col. Paul Faison and the admirable board, of which he is chairman, has done much to make our State prison a success so far as a pecuniary return to the State is concerned. For many years preceding the election of Gov. Fowle the State prison had been considered a drag upon the taxpayers of North Carolina. It was doubted whether the establishment of the prison was or was not to be a success. North Carolina, prior to the war, had embarked in a system of a State penal institution, but, emulating the example of most States in the union, it was established by the constitution of 1868. Then, it was that we concluded to do the best we could under the circumstances, and although, for a series of years the prison, has been a source of expense, it now looks as if it will prove a source of profit.

Recently, Col. Faison, the chairman of the board, has made another, and we believe, a successful step in the direction of helping the people of North Carolina in making the prison a paying concern. He has just leased 6,000 acres of land on the Roanoke river. The lessors are J. P. and J. H. Futrell, heirs of Dr. J. R. Pope and Mr. D. A. Pope. The lease is to run ten years, and the price paid was \$2,350. It is understood that if at any time during the ten years the penitentiary authorities desire to purchase the lands it can be done at the expiration of the lease at an average of \$3.75 per acre.

The board proposes to put 100 convicts to work on the land next month; to rebuild the dikes along the river, clear up all the low lands, put the whole in a high state of cultivation, and engage largely in stock raising.

Col. Faison says the lands thus acquired are fifteen miles from the other convict farms. He says there are 5,000 acres in the latter, and two hundred convicts are employed on them. A like number will be employed on the newly rented farms. He says the lands are fertile and well situated, part being low land and part high land. A good deal is in timber.

We hope to be able to give additional particulars of the matter at an early date.

A Valuable Mineral Spring Discovered on the Oakdale Property.

For some days past the Capital City Land Company have been very confident that they had found a valuable mineral spring on their property, but determined to make no public announcement of their belief until an official analysis could be had of the water. They placed one gallon of the water in the State Experiment Station and today received therefrom the following analysis which shows that a valuable spring indeed has been discovered. Read the following:

THE NORTH CAROLINA AGRICULTURAL EXPERIMENT STATION.

RALEIGH, N. C., Oct. 24, 1891.
SIR:—The sample of mineral water sent to the Station for analysis. One U. S. State gallon contains on evaporation. Solids 833 grains, consisting of Carbonate of Iron, Carbonate of Lime, Chloride of Sodium, Sulphate of Potash, Sulphate of Magnesia, Silica.

An Editorial of the Richmond Times After the Engagement.

The effort which was made last week by Mr. John T. Ford, the veteran manager, to revive old-fashioned legitimate comedy at the theatre in this city cannot be too highly commended. Our amusement lovers have been fed on trash and nonsense for so long a period that it was really refreshing when Mr. Ford came here with his excellent company and gave us a series of elegant, pure, refining and instructive comedies of the old English school. The success he met with was, we hope, sufficient to induce him to come back again, and if he can only restore the days when the old Marshall Theatre was one of the most delightful amusement resorts to be found in the United States he will confer a lasting benefit on the public.

Another Raleigh Boy.

It is a noticeable fact that whenever a Raleigh boy starts out in life with a determination to win, he does win and no mistake. We are drawn to this remark from the fact that our young friend Mr. Alex Stronach, has, in his first effort before the Supreme court, made a mark for himself, and reflected credit upon his honored name. In the first place, "Alec" comes from a stock that knows no such word as fail. He belongs to the indomitable Scotch origin, which, when coupled with the "Old Virginia blood," is never known to get left. His first attempt in the superior court was in the case of McNamee, Trustee of Vanderbilt, against B. J. Alexander. Mr. Stronach appeared for the defendant, and well did he sustain his cause. We are proud of "Alec," and we know he will make such a reputation in life as will do credit to himself, and honor his native city.

A kind of reliable foot covering for man, woman or child was opened today at Norris' Dry Goods Store. Their line of childrens school shoes cannot be excelled, every pair warranted to wear.

Save the Pennies.

And how many ways they are to do this. One of the best and most effective methods that may be employed is in finding where a dollar has the greatest purchasing power. And it has been clearly demonstrated that nowhere in Wake county can it be expended with more satisfactory results to its possessor than at the

NEW YORK BARGAIN HOUSE

They buy in large quantities and many goods direct from the mills, thus enabling them to undersell their competitors.

They do not advertise to sell goods at cost, and play the MISCHIEF IN GENERAL to mislead the public, but give you from \$1.50 to 2.00 worth of goods for every dollar you spend at their store.

They keep what you want, and at prices that will please you. In conclusion, they wish to say, that if they cannot wait on you as soon as you enter the store, be patient and wait for a moment or so, and you shall be abundantly rewarded for the moment's loss.

Respectfully,
