LARGEST CITY CIRCULATION.

RALEIGH, N. C., FEB. 3, 1892.

The Supreme Court of the United States has decided that the law passed by the last Congress, prohibiting lottery advertisements and tickets from passing through the mails, is constitutional and may be enforced.

A French physician has discovered a gold cure for snake bites. This is in the nature of a forestalling of Dr. Keely's remedy for the recognized cure for snake bite medicine.

The picked students of Princeton College have kicked till they got an improved dressing room. Such a room is to be built at a cost of \$5,000 which was a part of the receipts of the foot ball team of that institution.

The residents of Ithica, Mich., think they have discovered evidences that an immense oil field exists around them and in their midst, and they have become greatly excited over it, but they need not, for if the oil is there the Standard Company will soon own it all.

The Wilmington Star prints a hard hit on Shepard, as well as shows how ravenous some folks are in this world of ours. It says:

"Within the past year there were consumed in Paris as food 31,000 horses, 40 mules, and 229 donkeys. It is a good thing for Brayer Shepard, of the New York Mail and Express, that he don't live in Paris."

SHE LIKED THE CASH.

Miss Ida Norton, who is represented to be the handsome and accomplished daughter of a wealthy citizen of Indianapolis, has just married Pang Yun, a Chinaman. This queer fancy may be better understood when it is learned that Mr. Pang Yun is the richest Chinaman east of San Francisco.

NON-SENSICAL.

The sensational report of the refusal of a British vessel to display the American flag along with the English at Bridgeport, Conn., the other day, was very much like some people. They remind one of a low bred bully of a boy always looking around for some other boy with a chip on his head. Such peacock patriotism is a disgrace to a great Christian nation. There are a great many in the world who always want to fight till they get a sure enough chance and then they are somewhere else.

SEED AND PLANT DISTRIBUTION.

Mr. W. F. Massey, of the Horticulturist department says:
From some of the many applications received at the N. C. Agricultural Experiment Station it seems that an impression has gone out that the Station distributes, gratis, seeds and plants of all kinds. This is an error. We never distribute any seeds or plants that can readily be bought from those who deal in these things, but whenever we get plants of seeds that are new and likely to prove valuable to our growers, and that are not commonly on sale, we endeavor to distribute them to those who will care for and report upon them, so long as our stock may last. Further than this we do not undertake,

DISCOVERED AT LAST.

WHAT LAGRIFFE REALLY IS; WHERE IT ORIGINATED; HOW IT IS PROPAGATED AND THE WAY BY WHICH IT CAN BE AVOIDED

It has, at last, been discovered and definitely settled just what "La Grippe" is, and how it first started.

It is an infection, low fever, and it originated in Asia from the wet marshes around Bokbara. Thence it was taken to Russia by the traders who came from the crowded bazars of the Asiatic capital. From Europe it came to America, and here the germs are today and the fever raging.

Being a fever, it arises, as all fevers do, from a weakened and run down condition of the system, hence some people have it and others do not. Some have it severely and others mildly, but in every case it is due, as all fevers are, to a disordered and weakened kidney and liver. No man or woman whose kidneys are in perfect or strong condition ever had the grippe, even with the worst exposure, and no one ever suffered with it whose kidneys and liver were not out of order. In writing on this subject, which is one of the most important now before the people, the New York Herald gives, in a recent issue, some good advice. It says: "All classes should avoid crowded assemblages, avoid over exertion, and see that their systems are toned up and built up."

This is common sense. But it is not always easy to do. One can easily say "Tone up the system, strengthen the kidneys and liver"—but how? There has never been but one standard remedy for strengthening and restoring these great organs, and that is Warner's Safe Cure. You know that, if you stop to think, if you refresh your memory and recall how many people you have heard speak favorably of it, who have perhaps told you what it has done for them. It goes directly to the seat of most physical trouble and all possible grippe. It strengthens, it renews, it fortifies these great organs, and thus when the germs of grippe comes to the system, they are unable to find a lodgment, and are killed before they can propagate.

The foregoing facts are fully endorsed by the most eminent physicians, both abroad and in America. Dr. Gustav Webber, of the royal court of Germany; Dr. Hoesch, of Berlin; Dr. William Edward Robson, of the royal navy, England; Dr. Andrew Wilson, of the Royal Society of Edinburgh, and most broad minded and liberal physicians in America have unhesitatingly affirmed the same.

You who read this article are in danger of contracting the grippe, which may leave its painful and baneful effects upon your system unless you are in a strong, a healthy and vigorous condition today. If you feel languid, restless, irritable, dependent, if your appetite is uncertain, your rest broken; if you feel any signs of feverishness or chilliness you need to take immediate steps against it. You need to fortify your kidneys and liver and you can do so absolutely in but one way and that is by the aid of the great cure above named.

OUR MILITARY FORCE.

The Secretary of War day before yesterday transmitted to the Senate a statement showing the military force of the United States, organized and unorganized. The total number of enlisted men is 101,831, commanded by 8,879 commissioned officers, besides 1,248 staff officers, making a total aggregate of 111,948 men in the militia service. The number of men available for military duty, unorganized, is 8,567,258

CHESTNUTS.

Bread is the staff of life and pie is the stumbling block.

It often takes a match to light up a young ladies' countenance

It does not take a moral cog to get the big end of his hind behind him. The man who mauls his dog, his dogs on a candidate has a bad hair.

The corset is evidently falling into disrepute. The trouble with it is, it has been too long on a bust.

The longer a man lives the less condemnation he has for the suspicious fellow who mistrusts everybody.

Girls, it isn't the man that sits up late nights for you who will take the best care of you; it's the man who gets up early in the morning for you.

Fire! FIRE! Fire!

Are you insured?
Is the evidence of your insurance insured?
A good Fire Proof Safe for their protection is the only insurance for them. Have you a good Safe?
When placing your insurance did you obtain bids from several companies and select the lowest priced company?
Or did you consider and decide that the best company would prove the cheapest should a loss occur?
Why not follow out the same line of reasoning in the selection of a good safe in which to insure your insurance policies, books and valuable papers from destruction by fire or from theft by burglars?
When about to employ a lawyer for a case of importance, do you get bids from several and accept the lowest?
Or do you employ a capable man who has had experience and a good record?

Safe, Safe, Safe.

We know how to build Vaults and Safes. We know the requirements of most customers. Our work is the cheapest because it is the best. Our work is NOT the lowest in price. We have had experience.

We have a first-class record extending back nearly half a century. When you wish to consider the insurance of your books and papers from destruction by fire or loss by burglars, consult or write the
