FOR THE CITY OF RALEIGH.

RALEIGH, MARCH 2, 1892.

A NORTH CAROLINIAN TO THE FRONT

Mr. Walter H. Page invests in the Manufacturers Record. The Washington Post of yesterday says:

It was announced yesterday that Messrs Richard H. Edmonds and W. H. Edmonds, the owners of The Manufacturers Record, have sold that paper to Mr. Walter H. Page, editor of the Forum, New York; Thomas P. Grasty, of Baltimore, and Edward H. Sanborn, of Philadelphia. The great financial success of the Record and the work it has done for the development of the south have made it one of the most noted industrial journals in the country. For ten years it has unceasingly championed the cause of southern progress, and by many is spoken of as "The South's Bible."

The Messrs. Edmonds sold out, it is stated, in order to temporarily retire from active work and seek a well earned rest in the south, where they have large business interests. The purchase price is not made known, but, as the paper has been a great success, the sum is no doubt large. It is probable that the Messrs. Edmonds will make their permanent home somewhere in the south, and that, after a period of rest, they will be actively identified with southern developments. The new company will have a paid up capital of \$200,000.

The above purchase will place Mr. Page in a more congenial field for the employment of his rare talents. He is a southern man; a true son of the old North State, and will doubtless largely increase the already great usefulness of the Record to the South.

Since he left Raleigh in January, 1884, severing his connection with the State Chronicle and engaging in journalism in New York City his course has been upward. As editor of the Forum published in that city he was a success, and we predict for Mr. Page a useful career at the helm of the Record. The popularity of that useful journal will no doubt be greatly increased at the south, because of his connection with it.

RESULT OF A STORM AT SEA.

The Wilmington "Messenger" of yesterday says:

"The high tide at Wrightsville on Sunday and yesterday morning was something wonderful to behold. The sound was a solid sheet of water and no marsh was anywhere to be seen. The wind was not high, however, else considerable damage would have resulted especially on the beach where water from the ocean rolled as far as the Ocean View railroad. It did not get over the track, and as there was no wind the sea was quiet.

The tides for several days have been remarkably high owing to storm outside, and the probability is that this condition will continue a few days longer, judging from the following special bulletin issued yesterday."

MADE A DIVISION OF THE N. AND W.

WINSTON, N. C., Feb. 29.—After tomorrow the Roanoke and Southern Railroad will be operated as the Winston Salem division of the Norfolk and Western. Mr. D. H. Burger will be division superintendent, with headquarters here, though the traffic department will be removed to the office of Vice President Eddy, at Roanoke.

SHE WAS LOCKED OUT.

WILKESBARR, Feb. 29.—There is a very peculiar case at Miner's Mills. Miss Lizzie Jones, a very pretty young lady of 19, attended a ball Monday night. She did not return home till the early hours of morning and then only to discover the door locked. She lay down under the porch for several hours when she awakened, and by some inexplicable means gained ingress to the house.

She went to bed and fell into a deep sleep from which she has not since awakened. Several physicians have tried in vain to rouse her from her comatose condition. Her flesh has been picked with sharp instruments without her giving the least sign of returning consciousness. The physicians are unable to account for her strange condition.

Mary—Say, Julia, do you own the place you are living at?

Julia—Yes, indeed, I do. John bought this lot from J. M. Broughton & Co. built this house and has given it to me, and you have no idea how much pleasure and comfort there is in owning our own home. We are not worried with continual calls and notices from the rent man for our rent.

Mary—Well, how did John manage to buy it?

Julia—Well, I'll tell you. I've been living in Raleigh all my life and never until last spring have I seen such a chance for a man of limited means to buy and pay for a lot.

Mary—Oh, do hurry up and tell me; I am just crazy for George to buy one.

Julia—Well, you remember last spring J. M. Broughton & Co. were selling off nice lots, both in and out of the city, on the installment plan, allowing one to pay \$5 per month until the whole amount was paid, or until you have paid 1/3 of the price of the lot; then they agreed to carry the unpaid 2/3 just as long as you wished, on anywhere from one to 40 years at 6 per cent interest.

Mary—My goodness, Julia; you must be joking.

Julia—No, indeed, I'm not. The proof of the pudding is in chewing the bag—I've got the deed and can show it to you.

Mary—Well, I wonder if J. M. Broughton & Co. have any more of those lots.

Julia—Yes, they have just a few more left now on North Bloodworth street, Oakwood avenue and Linden avenue. They have a beautiful lot just below the one we bought. Price \$200, payable \$5 per month. I wish you would get George to buy it and come over here and be a neighbor to me.

Mary—Well, I'll do it. It seems to me most anybody ought to buy a nice building lot on those terms. I'm going to send George to see J. M. Broughton & Co. this very day and buy that lot.

Julia—Good, Mary; that's the thing to do. You just keep right after George and he will do it. You see, after he gets his lot paid for he can get the money from the Building and Loan Association to build him a nice little home, and let the money you now pay as rent go to pay back the loan. J. M. Broughton & Co. have a great many nice building lots all over the city which they are offering cheap and on very reasonable terms, so if you should hear of any one else who wants a lot send them to

Instantaneous - Electric - Lighter.

PRICE \$5.00.

For Parlor, Dining Room or Chamber.

Electricity generated by Chemical Action. A handsome Ornament for Table, Mantel or Corner.

THIS illustration represents our ELECTRIC LIGHTER, and is one-half its actual size. It is complete in itself—requires no extra power wires or connections. The current of electricity is generated by chemical action. It occupies the space of but six square inches. The construction is simple in the extreme. It can be taken to pieces at will, and just as easily re-adjusted.

A CHILD CAN OPERATE IT. Simply by pressing the centre knob, the current of electricity is generated, and the light is instantaneous.

ECONOMY.

The material to charge the battery can be obtained at any drug store at a cost of Ten Cents, and will run 30 to 60 days.

Any part can be replaced at a cost not exceeding ten cents. Aside from its use as a Lighter this apparatus does away with the use of matches and the dangerous results and disagreeable odors arising from same.

We have taken especial care in the manufacture of these Electric Lighting Batteries, they are handsomely constructed in nickel plate and highly ornamental and will take a prominent place among the bric-a-brac of reception rooms, parlors, etc.

Full instructions and one charge for the Battery accompany each apparatus.

All orders for less than \$20 must be accompanied by Postal Express Money Order or by Draft on New York.

Goods shipped C. O. D. on receipt of twenty per cent. (Remittances with order save return charges.)

LIBERAL DISCOUNTS TO TRADE AND AGENTS

We desire reliable representatives in every State in the Union, and invite correspondence on the subject.
