**NORTH CAROLINA AT THE FAIR.**

North Carolina is moving slowly—very slowly in the matter of making an exhibit at the Chicago show, but as the time approaches the people are becoming more interested in all sections of the State, and although the prospect may look a little gloomy just now, North Carolina will no doubt, be there in a shape that will do her credit yet. When all the people in various sections become awake to the necessity in the matter of exhibits will be forthcoming. Special effort should be made to interest the mountain people.

**OPPOSED TO IT.**

Senator Pettigrew, chairman of the World's Fair Committee of the Senate, is opposed to Sunday opening. He says it is not a question of religion, but "whether we desire to drift from our moorings and abandon all the moral and physical good which comes with Sunday." He holds that closing on that day will not be an infringement on personal liberty, and says that the labor organizations in Chicago are so strong that "no establishment would refuse to grant its employes a holiday on which to visit the great exposition."

**SELL SPECIMENS.**

Some enterprising person could make money at the Chicago Exposition by collecting and preparing specimens of gems, mica, flexible stone, asbestos and other rare minerals, woods, &c. Some most beautiful wall pockets, mantle ornaments and bric-a-brac are made by the mountain people which would sell rapidly at good prices. Let some one take hold of this and make some money out of it.

**A BANK FOR THE COUNTRY.**

The New York banks, it is estimated, lose about \$12,000,000 annually in their dealing in out of town bank checks. It is now proposed to establish a National Clearance Bank in that city for the purpose of receiving out of town exchanges. This may be the beginning of a less restrained and expensive circulation of country bank checks.

**READING AT NIGHT.**

A bad habit is that of writing and reading late in the night "for the sake of quiet," and one of the most vicious practices to which a person can be addicted. The feeling of tranquility that comes over a person about 10:30 or 11 o'clock ought not to be regarded as an incentive to work. It is in fact the effect of a lowering of vitality consequent on the exhaustion of the physical sense. Nature works and calls for physiological rest. Instead of complying with her reasonable demands, the night worker hails the feeling of mental quiescence, mistaking it for clearness and acuteness, and whips the jaded organism with a will until it goes on working. What is the result? Immediately, the accomplishment of a task fairly well, but not half so well as if it had been performed with the vigor of a refreshed brain working in health from proper sleep. The penalty is "nervousness" and the breaking down of one

or more of the vital organs. Night work beyond 10 o'clock is more of an injury than any possible work done by its aid.

**ASKS THE POLICE FOR A BRIDE.**

The police authorities of Brooklyn, N. Y., have been asked by Henry Barna, a Hungarian detective, to secure an American bride worth \$5,000,000 for an Austrian prince, who is reputed to be worth several millions himself. The police say they will have to decline the charge as they are not competent matrimonial agents.

**LOTTERY MEN ARRANGED.**

All the officers and the leading employees of the Louisiana Lottery were arraigned before the United States Court at New Orleans, charged with violating the anti-lottery postal law under an indictment found in Trenton, N. J. This makes the fourteenth indictment which they have been called on to answer in as many different States.

**A MOST BRUTAL MURDER.**

NEW YORK, March 14—Mrs. Kate Scanlon died in New York hospital yesterday in extreme agony. Richard Scanlon, her husband, twenty nine years of age, is a prisoner in the West Twentieth street station, charged with murder. He threw a lighted lamp at his wife, and she died from her burns. Jealousy was the cause. Scanlon was arrested.

**STANDARD OIL TO DISOLVE.**

NEW YORK, March 11.—A special meeting of the stockholders of the Standard Oil Trust has been called for March 21. The meeting is called to vote upon a resolution passed to day by the Board of Directors to terminate the Trust. Proxies are asked for by J. D. Rockefeller, H. M. Taylor and J. D. Archbold. According to the terms of the Trust a vote of the stockholders is necessary to dissolve. It is supposed that this step has been taken on account of the recent decision of the Ohio Supreme Court declaring the Trust illegal.

**GAVE HER A BULLET FOR A RING.**

INDIANAPOLIS, Ind., March 13—Oscar Abbott, a stenographer and typewriter in the Freeman office, fatally shot Celia Bass, who set type on the same paper, early this morning, and then blew his own brains out. Abbott was twenty six years old and Miss Bass twenty. The two were engaged, but recently their feelings have been strained.

Abbott called on Miss Bass last evening, at the house of her cousins, Mr. and Mrs. Charles Bass. He remained late, and Mr. and Mrs. Bass retired. About 12:30 o'clock they were awakened by two pistol shots, and Miss Bass rushed into their room with blood gushing from a wound in her head.

When Abbott had put on his overcoat and was ready to leave the house he asked Miss Bass for her final answer. She gave him a ring that she had worn, telling him the engagement was broken. Abbott at once shot her and then himself.

**Instantaneous - Electric - Lighter.**

PRICE \$5.00.

For Parlor, Dining Room or Chamber.

Office, Store, Cigar Shop or Saloon.

Electricity generated by Chemical Action. Handsome Ornament for Table, Mantel or Counter.

THIS illustration represents our ELECTRIC LIGHTER, and is one-half its actual size. It is complete in itself—requires no extra power wires or connections. The current of electricity is generated by chemical action. It occupies the space of but six square inches. The construction is simple in the extreme. It can be taken to pieces at will, and just as easily readjusted.

A CHILD CAN OPERATE IT. Simply by pressing the centre knob, the current of electricity is generated, and the light is instantaneous.

**ECONOMY.**

The material to charge the battery can be obtained at any drug store at a cost of Ten Cents, and will run 20 to 60 days. Any part can be replaced at a cost not exceeding ten cents. Aside from its use as a lighter this apparatus does away with the use of matches and the dangerous results and disagreeable odors arising from same. We have taken special care in the manufacture of these Electric Lighting Batteries, they are handsomely constructed in nickel plate and highly ornamental and will take a prominent place among the bric-a-brac of reception rooms, parlors, etc.

Full directions and one charge for the battery accompany each apparatus.

All orders for less than \$20 must be accompanied by Postal Express Money Order or by Draft on New York.

Goods shipped C. O. D. on receipt of twenty per cent. (Remittances with order save return charges.)

**LIBERAL DISCOUNTS TO TRADE AND AGENTS.**

We desire reliable representatives in every State in the Union, and invite correspondence on the subject.
