The total amount of fertilizers received here so far, this year, is 455 tons against 1677 last year. This is a great falling off.

Exhibits for the World's Fair at Chicago, are to be stored in the room in the Agricultural building formerly occupied by Mr. Jno. T. Patrick.

Attention is directed to the advertisement of Messrs. S & D Berwanger the "high art clothiers." Read their interesting advertisement.

We were sorry to hear a truckster say, today, that many of the Irish potatoes planted in this vicinity have rotted.

There will be an important meeting of Litchford Encampment at 7:30 o'clock tonight. Every member requested to be present.

The enthusiasm over the launch of the "Raleigh" is spreading all over the State. It is going to be a big affair.

It is said that Wilmington is flooded with green goods circulars. It may be well enough for our people to be on the lookout for such swindlers.

The street car service is now as good in Raleigh as any city of its size in the country. We hope and believe that this will be appreciated by all our people to the fullest extent possible.

Mr. Jno. H. Winder has been appointed Superintendent of the Georgia, Carolina and Northern Railroad, and not General Manager as has been stated.

Hiram Lodge, No. 40, will meet in regular communication, this evening at 7:30 o'clock. Full attendance requested. Members of sister lodges invited.

Reports from the fruit crop are conflicting. In some portions of the State, the buds have not opened and have not therefore been hurt by the cold, while in others, the trees were in bloom and the fruit may have been severely injured.

Days and nights, about equal now. Boom up the centennial celebration to come off next fall.

The erection of the bath houses at Pullen Park is progressing rapidly.

### About Easter.

Everybody wants to know something about the rule that governs the date of Easter, and therefore the following from an exchange will be of interest:

It has been over 1,500 years since the rule was adopted which makes Easter the first Sunday after the first full moon after the sun crosses the Tropic. By this arrangement of things Easter may come as early as March 23 or as late as April 25. As all the readers of the News, foreign born or native, have some superstitions concerning this feast day, we have compiled the following facts concerning the days of the month upon which it has fallen from 1803 to 1891, inclusive. In looking over the dates we have been struck by the variety of days represented, which include every one in the month of April except the last five, which, as shown above, are "not in it." Since the date mentioned (1803) it has occurred three times on the 19th, five times on the 16th, five times on the 1st, four times each on the 2nd, 11th and 12th, four times on March 31, four times on April 6, three times on the 4th, 5th, 7th, 8th, 10th, 13th, 14th and 23rd of April and 27th and 28th of March. March 22nd, 1818, was the earliest date upon which it has occurred. Nine days in March are represented, viz: 22nd, 23rd, 25th, 26th, 27th, 28th, 29th, 30th and 31st.
