

Chamber of Commerce.

We believe we voice the sentiment of our entire business community when we say that at more frequent meetings of our Chamber of Commerce are desirable, or if there be any cause why the present gentlemen composing that body cannot well spare the time necessary for the performance of the duties, then a reorganization should be effected. For awhile the Chamber of Commerce of Raleigh was most active in furthering important movements in our midst, but it is due to candor to say, that for some time past there has been much reticence. This should not be the case. We think there should be frequent meetings of the chamber from time to time, so that some of the important needs of Raleigh could be looked after. While our city has made many strides forward in the past few years, there is much to do to put us in the front rank of municipalities. The Chamber of Commerce should, as it were, be sentinels on the watch tower, giving tone and life to such suggestions as tend to keep up with the march of improvement. Let us have an early call together of the chamber, and have it understood that there must either be more activity or a thorough reorganization.

The Seaboard Air Line

The report now is that the Seaboard Air Line will soon put on a passenger train between Charlotte and Atlanta via Monroe. Referring to the matter, the Atlanta Constitution says:

The Seaboard Air Line appears to have taken a notion to make life lively for its competitors. Notice has been given that at the end of thirty days the Seaboard and Roanoke and the Raleigh and Gaston will withdraw from the Southern Passenger Association. As the Georgia, Carolina and Northern has now gone into the association, the trouble that the future holds for the Richmond and Danville can be easily guessed at. A through line from Atlanta to the north outside of the passenger association can tear things wide open. And it does look as though the Seaboard Air Line is going in for business as a free lance.

Personal Mention.

Officer Lewellen is improving. C. P. B. Meares, of Concord, is in the city. Col P. B. Ruffin, of Hillsboro, is in the city. President Butler, of the State Alliance, spent a short time in the city yesterday. Col. A. B. Andrews returned to the city yesterday from Florida. He brought with him some fresh vegetables and fruits which are a great rarity here at this time. Miss Addie Ramsay, of Durham, is visiting friends in this city. We are pleased to note that Rev. Dr. Bailey is fast recuperating. We hope that he will be completely restored in a short time.

John Jasper, the great colored preacher of Richmond, Va., has just married his fourth wife. He is eighty years old. "The sun do move."

SCIENCE, SO CALLED.

LENGTHENING OF LIFE.—The average annual death rate in New York city, states Mr. Geo. H. Knight, was reported for the decade ending 1880 at 33.66 per 1,000, but in the semi-decade ending 1865 it had dropped to 31.44, and to 25.54 in the semi-decade ending 1890, the rate in 1890 being but 24.53. This improvement of 5.79 per 1,000 in 25 years represents a saving in this one city of about 3,000 lives yearly. These results are due in part to the great advance in medical and surgical science and appliances, in part to improved plumbing, draining, paving and other hygienic inventions. For all France the mortality in 1771 was 34; by the year 1801 it had dropped to 28; in 1883, to 23. In Geneva, Switzerland, the decrease was from 40 in the sixteenth century to 29 in the year 1800. Statistics show the average life in Great Britain to be nine years longer than it was 50 years ago. In Italy the mortality decreased from 30.06 in 1850 to 25.6 in 1891.

JUST THE WAY—
—MEN WANT THEM

In Shape, in Style, in Price, in Everything.

The time is not within the memory of the oldest merchant when Spring Styles in Clothing presented a better chance for selection than that on exhibition here for this season's trade. Offering as we do ten times the usual varieties, every garment fresh from the maker's hands, and prices positively without question, fully at from 10 to 20 per cent. lower than in other stores, the conclusion is simple enough—that here you ought to buy. The prices are made extraordinarily reasonable to fill our store during the entire season from wall to wall. The more the merrier. We trade on large principles, hence sell in large quantities—the lowest figure follows.

Spring Overcoats in the Lead

A Spring Overcoat was never more in demand than so far this season—too cold to go without any and cool enough for a light weight garment. Two years ago when people had to pay \$30 to \$50 to support this demand it was no wonder one overcoat was made to answer all purposes. Today is different. Our stock of Spring Overcoats at \$10, \$12.50 and \$15 presents as nice a garment as any dresser need or wish to wear. Of course we've still finer, but at the above prices we are sure you'll find the one to suit you. It's not too late yet. Our assortment in sizes from 33 to 40 is quite complete.

The medium weight suits in Sacks, Cutaways and Prince Alberts have rather a better chance this spring than heretofore—it's the climate to the dot, and we are the people to furnish them. Dress Suits \$18, \$20, \$22, \$25 to 35. Business Suits at \$10, \$12.50 and \$15. Every garment represents its full value, and in all cases you save at least 50 per cent. from the usual tailor's price, and better garments than ours you cannot find. A glance at our stock will convince you.

A GENUINE DOGSKIN GLOVE for \$1

These gloves come in the latest shades, suitable for street wear and especially serviceable for driving, sizes from 7 1/2 to 9.

WON'T YOU TRY A PAIR?

A few more styles of Four-in-hand and Tecks were added to our immense assortment of Neckwear. Don't fail to see our line of Tecks, Four-in-hand and Windsors at 25c. You would hardly believe such fine Neckwear could be sold at such a low price.
