The Great National Paper

The Brightest, Best and Cheapest

THE WASHINGTON WEEKLY POST

A Paper from the National Capital should go into every Family in the Country!

THERE is no other paper in the United States that is growing so rapidly in circulation as the Washington Weekly Post. This is because neither labor nor expense is spared to make it the best, as well as the cheapest, paper published. It is

A National Paper!

being printed at the seat of government, the Weekly Post contains special features not found in any other publication. Every man should first subscribe for his home paper. To it you owe your first allegiance. After that is done, if able to take another paper, the best one printed at the Capital of the country is the one that will prove most profitable and entertaining. The Weekly Post will contain:

- A full resume of the proceedings of Congress, An epitome of all the news from the National Capital, Political news and gossip impartially told, Serials and short stories by the best writers, Gems of literature, art and selected miscellany, The latest telegraphic news from every section of the globe, Interesting Capital chat, Interviews with leading men from all parts of the country, Other features not contained in any other paper, The Post is an absolutely independent paper, 8 pages, 56 columns, The price of the Weekly Post is 75 cents per annum in advance. Sample copies sent free. Address, THE WEEKLY POST, Washington Post.

PATENTS

Caveats, and Trade-Marks obtained, and all Patent business conducted for MONEY FREE. Our Office is opposite U. S. Our fee not due till patent is secured. A PAMPHLET, "How to Obtain Patents," with cost of same in the U. S. and foreign countries sent free. Address, C. A. SNOW & CO., OPP. PATENT OFFICE, WASHINGTON, D. C.

Local notices in this paper will be Five Cents per line each insertion.

LARGEST CITY CIRCULATION

RALEIGH, APRIL 14, 1892.

THE FLOODS.

The floods in the south west during the past week have been fearful in the destruction of life and property. On Wednesday of last week the Tombigbee river which was already swollen, began to rise rapidly and by Thursday morning all the low lands were submerged, the river having risen 14 feet during the night. It continued to rise all that day and on Friday morning Columbus, Miss., was literally an island, with five miles of water in every direction. Hundreds of houses have been washed away. Six hundred homeless negroes have been rescued and are being sheltered and fed by the citizens of Columbus. Congressman Allen has been telegraphed to by the mayor in conjunction with other officials, requesting him to apply for federal aid. Houses, corn cribs, cattle, horses, furniture and all sorts of movable property were swept away by the raging waters. The lowest estimate puts the number drowned at and near Columbus at fifty persons. The waters have about receded, which admits of a more thorough and systematic investigation, and the probabilities are that numbers of fatalities reported will be much larger. The destruction of life and property in all that region was very great. Five miles of the track of the Georgia Pacific railway was washed away. The Mobile and Ohio road was badly washed out.

WANT TO SELL OUT.

The electric light plant at Oxford is not paying and the stockholders are desirous of selling out to the town. Capt. Neal of Danville, Va., appeared before a meeting of the city commissioners on Monday, which was held for the purpose of hearing propositions relative to the matter and seemed to talk with his mouth open. He said the Oxford company had not made any money because it was not properly managed, &c., and then offered the entire plant at forty per cent of its cost. The matter was taken under advisement. He stated that Danville and North Danville owned their plants and find it cheaper and more satisfactory in every way than to rent lights. Reidsville, N. C., recently purchased the plant in that town, and has reduced expenses on its operations twenty five per cent.

THE Winston Sentinel says: Winston's tobacco factories are beginning to start up and the general business activity that always follows, is already visible. The outlook is encouraging for a successful year in the tobacco trade, and within a few weeks several thousands of laborers will be employed in the industry. This means that many thousand dollars will be expended every week and go into the different channels of trade.

We think we can tell the first snake story of the season this year. Yesterday Mr. J. T. Lincoln started to build a new bridge across the drain in front of Mr. Randolph Parker's residence, and when he tore the old one up he found six young water moccasins ranging in length from a foot to a foot and a half. They were all dispatched. We hope that ends the venomous family. -New Berne Journal.

AMERICAN BENEVOLENCE STILL FLOWS.

The Indiana and the Missouri, the two relief ships sent to Russia, having reached their destination, and their cargoes having been forwarded over land to the famine stricken sections of Russia, two other vessels, the "Conemangh" and another, will probably sail in a few days. One will take out 75 tons of rice for one item. The Red Cross Society is sending them.

FRUIT KILLED.

Winston Sentinel The heavy freezes and frosts for the past few nights have played havoc with a great deal of fruit and vegetables.

A citizen who returned last night from Yadkin county, says that it is generally conceded there that the fruit which has not been killed out right has been damaged to such an extent as will cause it to fall off the trees before ripening.

The peach crop in this section will be almost a complete failure. The apple trees and other fruit have not bloomed yet.

LIGHTNING SPARED THE PIOUS PAIR.

During a heavy rain lightning struck the parsonage of the Methodist Episcopal church, a nice four room cottage, completely demolishing the building with the exception of the east room, in which were sitting the pastor, the Rev. Jerome Haralson, and his wife. That they were not instantly killed everybody pronounces a miracle, for everything in their room all around them was broken in small pieces. A more complete wreck was never seen. There is not a whole nail or piece of timber in the building except in the little room they occupied. Not only the building was wrecked but the fence around it was torn down. The shock broke a considerable amount of crockery for those living in the neighborhood of the parsonage. -Haskell Cor. Galveston News.

A JUROR DIES OF EXHAUSTION.

WASHINGTON, April 13. -James W. Cooper, one of the colored jurors who served in the Schneider murder trial, died today from mental and physical exhaustion. He was a robust man and accustomed to outdoor life. The long confinement and mental strain told on him severely and when he was discharged he had lost over thirty pounds of flesh. The trial lasted thirty days and ended last Saturday in a verdict of murder in the first degree. Young Schneider, after maintaining throughout the entire trial an air of confidence and bravado, has collapsed utterly since his conviction and seems likely to die or lose his mind.

VANITY'S CLEVER DEVICES

All kinds of harmless little vanities are indulged in by the woman who wishes to make the most of nature's gifts. Two very sure methods which she employs for whitening the skin are found, not in cosmetics, but by using tulle as soft and white as a snow wreath under the very open network of black lace. Sleeves and gimp of the flimsiest patters when treated in this way will reflect credit upon neck and arms, even if they are not as round and fair as one could wish. So well has this pretty device worked that a great many complexions are beautified by simply basting tulle beneath the black lace piece of dotted net which is to serve as veil.

KEEP COOL THIS SUMMER.

The Raleigh Street Railway Company, in response to what seems demanded by the best interest and comfort of the people of Raleigh, has arranged to supply current from its 500 volt railway circuit for running stationary motors. This constant potential of 500 volts is not dangerous in its effects and can be safely introduced into private residences and other buildings. As the field for the motor has been extended, the ease and safety with which it can be operated has been demonstrated, while its entire freedom from noise and dirt has caused it to grow in popular favor, until at the present time there are a vast number of machines driven successfully by electric motors, such as printing presses, elevators, spice and coffee mills of all kinds, ice cream freezers, etc.

There is a special field in which the rapidity with which electric motors have been pressed into service is truly remarkable. During the hot summer days and nights, "The Silent Force," by means of the equally silent fan, renders the air of offices, stores, dining rooms, parlors, etc., cool and bracing. Such fan motors we are now prepared to run from our railroad circuit.

It will be seen from our monthly rates below that with a small outlay for a fan which lasts for an indefinite period, you can have a fan of 1/2 H.P. for \$3.00 per month or 1/4 H.P. for \$4.50 per month, running in your room from 6:15 in the morning to 11:30 at night. One of these fans may be relied upon to keep a room cool and comfortable through the hottest summer days, the eighth Horse Power being used for a room of ordinary size the quarter for a large room.

The fan motors are compact and of little weight and can be moved from place to place in a room, as convenience requires. Other forms of fans for larger areas are equally practicable and our customers are urged to use their own taste and judgment in selection.

Table with 2 columns: Horse Power and Price per month. Includes rates for 1/4, 1/2, 3/4, 1, 2, 3, 4, 5, 6, 8, 10 Horse Power.

Special rates for elevator work. By comparison of our rates with those in other cities it will be seen that they are very low. We charge about the same that is charged in most cities for a day service of ten hours, while we give service of over 17 hours. We will be glad to explain the terms upon which these motors and equipments may be obtained, we selling you the fan or motor at 10 per cent discount from list prices and charging for putting them in according to the time required, or referring you to dealers in the city who will make you an estimate upon the motor equipment complete.

S. W. HUFF, General Manager.

SOUTHERN BAPTIST CONVENTION, ATLANTA, GA.

For above occasion the Richmond and Danville Railroad will sell reduced rate round trip tickets to Atlanta, Ga., and return at following rates from points named below; intermediate points in same proportion. Tickets on sale May 3d to 6th inclusive, limited returning May 17th, '89:

Castoria

For Infants and Children Castoria promotes Digestion, and removes Flatulency, Constipation, Sour Stomach, Diarrhoea, and Feverishness. Thus the child is rendered healthy and its sleep natural. Castoria contains no Morphia or other narcotic property.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D., 111 South 6th St., Brooklyn, N. Y.

"I use Castoria in my practice, and find it specially adapted to affections of children." ALEX. ROBERTSON, M. D., 1087 2d Ave., New York.

"From personal knowledge and observation I can say that Castoria is an excellent medicine for children, acting as a laxative and relieving the pent up bowels and general system very much. Many mothers have told me of its excellent effect upon their children." Dr. G. C. OSBORN, Lowell, Mass.
