OUR CITY CAMPAIGN.

A gentleman who takes much interest in the prosperity of our city said to us yesterday, "I'll tell you what campaign you ought to open up next. It is of more importance than manufacturing, electric Street Railway or anything else. I refer to the improvement of our streets." And this gentleman is correct. As he suggested, from three to five thousand dollars are being invested every year in temporary improvements, a very large proportion, so temporary that they are wasted away by the first hard rain. What we want and what the interests of the city demand, is more solid, permanent improvement of the streets. Many of our side walks are a shame to any city, washed into gulleys and gorges, with rocks and roots sticking out, making it unsafe to walk on them except in bright day light, or with a good lantern at night. The city should grade both streets and side walks and put stone curbing to the latter to secure uniformity, and then put crushed rock on the streets and side walks and collect from property owners for doing their paving for them, or do it at the city's expense, or require the property owners to do it all themselves. It should be done somehow. We really incline to the opinion that all street improvements should be made at public expense, but that does not seem to be the construction of the city charter. The city should get a first class rock crusher and during the summer put the streets in a more presentable shape. Our city fathers should get out of the ruts and make such improvements on our streets every year as will be permanent.

Several of the side walks running from Wilmington to Blount street are not used at all, for the reason that they are not in a condition to be used. This is the case in many parts of the city. The fencing had about as well be moved out to where the curbing should be, so far as the use these sidewalks are to pedestrians. THE VISITOR has often referred to these needed improvements, but our city authorities seem slow to recognize their importance. Everybody expects the streets to be paved and fixed up nicely some day, but we are waiting for somebody else to do it and every year the city is growing and the job is getting bigger, and more repulsive and we are continuing to put the mud back to the centre again by the next heavy rain.

THE PRICE OF SILVER.

The London quotation of silver on March the 28th was 39 pence per troy ounce, which is a little over 85 cents in this country. Silver was offered however at 85 cents per ounce in New York which makes the gold value of a silver dollar 67 7/8 cents. Since then the New York quotations have gone as high as 8 1/2 cents an ounce. Silver like everything else, is governed in price by the supply and demand. Both the production and the consumption of silver have been increasing considerably for the past ten years, the former outstripping the latter however and hence the unavoidable depression in its gold value.

MY APPEAL FOR A HOME.

Correspondence of VISITOR.

I am a waif, and looking for a providing hand in a good home. My present place of sojourn is next door to the reading room of the Raleigh and Gaston Railroad, in the city of Raleigh. I am about two years old, and physically bright, strong, and perfectly healthy. I descended from large sized people, they, also, being of good intellectual calibre. My grandfather was a Baptist preacher, and of local prominence in another county. He preached the gospel and served churches as pastor for small pay. My grandfather was a teacher of youth, but was victimized by misfortune. He stood high in his section as a Mason, and often came to Raleigh as a representative to the Grand Lodge of Masons. My mother is his daughter. My father is a practicing physician in another county, but does not provide for his progeny. So I turn to some friend of humanity, to some disciple of Christ, and ask to be taken to a home. I am pronounced by those who have seen me a fine specimen of childhood. Who knows what I would be if some kind one would take and provide for me?

My name, too, is David. The writings of my illustrious namesake are now being studied by the various day Schools of the world. He said of himself, "Behold, I was shapen in iniquity, and in sin did my mother conceive me." thus declaring the depravity of poor human nature. There is no exception to this humiliating truth. But the cure exists in Christ, through faith, in his name. He directs that children should be trained up in the way they should go.

Reader, come to see me. I am now taken care of by a friendly hand, but I want a permanent home.

HUMANITY EVA UPTON'S FATE.

NEWARK, N. J., May 2.—William Randolph, a colored man, living at 10 Lum street, was arrested on the charge of assault upon his wife with intent to kill. Randolph is a laborer, forty nine years of age, and his wife is the famous Eva Upton, thirty six years old and white. When she married Randolph some years ago she was considered one of the handsomest women in Newark, and her marriage with a colored man created a profound sensation. Tonight the couple sat down to supper, and Randolph becoming enraged, seized a heavy glass butter dish from the table and brought it down with terrific force upon his wife's head. The blow laid open the scalp to the bone. Again and again the infuriated man struck his wife with the dish. He then sprang upon her, beat her about the breast and body and kicked her repeatedly. He was finally arrested and taken to the police station. The woman's condition is extremely critical.

NEGRO UPRISING IN TENNESSEE.

NASHVILLE, TENN., May 1.—A negro uprising is reported from Greene, a town thirty miles from Nashville. The news of the lynching of Eph Grizzard caused the negroes to band together. They are said to be in complete possession of the town.

That Tired Feeling

Is a dangerous condition due directly to depleted or impure blood. It should not be allowed to continue, as in its debility the system is especially liable to serious attacks of illness. It is remarkable how beneficial Hood's Sarsaparilla is in this enervating state.

Hood's Sarsaparilla Possessing just those elements which the system needs and readily seizes, this medicine purifies the blood, and imparts a feeling of serene strength which is comforting and satisfying. Hood's Sarsaparilla is the best remedy for that weakness which prevails at change of season, climate or life. "I have been convinced that Hood's Sarsaparilla is one of the greatest medicines in the world. I say this for the benefit of all other tired out, run down, hard-working women. Hood's Sarsaparilla is not only excellent as a blood purifier, but for all other female complaints, even if of long standing." Mrs. M. A. SCARLETT, Northville P. O., Mich.
