Three Propositions.

The Board of Aldermen meet in regular monthly session next Friday night. It will be an important meeting, provided notice is taken of the public desire on three propositions. In the first place, the people want, and expect some distinct understanding as to whether anything is to come of Alderman Poge's patriotic resolution relative to a centennial celebration in Raleigh this year. They want to know if the tender made by the Agricultural Society to cooperate with the city authorities and make the centennial observances a part of the program at the next State Fair is acceptable. If the board intend to take any further cognizance of what can be stated as the well known wishes of a great portion of the community, it is now time to further action; if not, then say so—this will end it.

And now, for another proposition. If the Board feels justified in allowing the centennial year of our municipal existence to pass without something like a public celebration of the occasion, then, let us substitute something in the nature of a public acknowledgment of the Fourth of July.

If neither of these propositions seems to be acceptable to our City Fathers, then, we are willing to fall back upon our third proposition, and ask, that our Aldermen inaugurate some steps for a public expression of the joy of our people over the completion of the new Union depot.

In a word there is a general sentiment in the community favorable to a due appreciation of the three propositions. We need something to enliven the dull season. All such occasions are conceded to be a help to the business interests of the community. It affords a chance for intermingling the views of the people from different sections of the State, most of whom leave more or less money in our midst. In substantiation of this, we can point to other cities, prominently the various capitals of States Richmond, Va., for instance is rarely, for any considerable length of time, free from such occasions, which the business men of that city acknowledge are the sources of much commercial benefit. Even if it be so, that certain lines of business are benefited, it is so much gain to the general good of the people.

We most sincerely hope, that our Board of Aldermen will take a broad view of these matters. We are as much opposed as any of our citizens, to any extravagant outlay of the people's money. We say that, in most cases, it is wrong, but, where it is apparent that a moderate expenditure will operate for the influx of many visitors and the disbursement of an unusual sum of money among our merchants, then, such expenditures become blessings rather than burdens.

Let our Aldermen look into these matters. The people expect it.

Returned.

The Sunday school of the Baptist Tabernacle returned from the excursion to Winston last night about ten o'clock. There was a very large crowd filling eleven coaches. All enjoyed themselves finely, and nothing happened to mar the occasion in the least.
