Manager Huff, of the electric street railway told us today, that he felt much encouraged at the patronage now being bestowed, and that it rendered him hopeful of making continued improvements. We are glad to hear this and, in common with all our people feel that the road is an institution not only of necessity, but one in which we should take a deep interest and do all in our power to foster.

Our Durham friends are still much exercised about a government building. The only way to get it is to keep hammering away. We were a long time about it in Raleigh, but energy and patience made the trip. Sometime before the war Gen. Branch got the appropriation for the lot, but it was not until some time after peace when we got the building. Let our Durham friends not be discouraged.
