

Encampment Grounds
 Good progress is being made by the Quarter-master General in the arrangement of the grounds at Wright's ville, for the coming encampment. The camp grounds have a frontage of some 1,470 feet. There are four large pavilions, and in rear of these the tents are pitched. The tents for the officers of the general staff who will be on duty are at the front and centre. There will be three officers of the regular army and a detachment of regular artillery men. The battery of heavy guns and mortars is at the centre of the camp in front of Wright's ville inlet. The elevation is the highest for a great many miles along the coast, and the view is a most admirable one.

Piscatorial.
 There is now no place within easy striking distance of Raleigh where a successful day's fishing can be enjoyed. Nearly all the ponds in the vicinity have either been drawn off or broken. We should think, that a Piscatorial Association, on a cheap plan, would be a convenience of a highly appreciative character. A pond in some locality near the city, well stocked with fish would afford our people fond of the amusement a good chance to indulge in the pastime. Several cities and towns, within our knowledge have such ponds, notably Richmond and Petersburg, and they are very liberally patronized. Let us hope that, by next season, some of our disciples of Isaac Walton will get the scheme.

Personal Mention.
 Mr. and Mrs. B. C. Woodall, of Durham are visiting friends in this city. Mrs. T. B. Moseley, who has been visiting friends in Durham has returned home. Mrs. J. J. Bernard has returned from a pleasant visit to Durham. Mr. Charles Fendt is in the city visiting his father in law, Maj. W. H. Martin. Miss Mary Young has returned from a visit to Chapel Hill. Mrs. J. P. Riddle, of Columbia, S. C., is visiting relatives in this city.

A Mistake.
 Gentlemen of the Board of Aldermen: We are disposed to give prompt praise in all that you do for the welfare of the city of Raleigh. We believe that your intentions are good, but like all other mortals you sometimes make mistakes. In substituting gas for electric lights in some cases you have committed an error. It is a retrograde movement not at all in keeping with the progress of the times, and we are candid enough to tell you, that our people do not endorse it. In fact your course in this respect, has in some instances created indignation. If it is possible to do so, your action should be reversed. The people of the city demand the most approved system of light, such as are in operation in all the important cities and towns of the country. There is no mistaking the tone of public sentiment in this matter.

That Tired Feeling
 Is a dangerous condition due directly to depleted or impure blood. It should not be allowed to continue, as in its debility the system is especially liable to serious attacks of illness. It is remarkable how beneficial Hood's Sarsaparilla is in this enervating state.
 Possessing just those elements which the system needs and readily seizes, this medicine purifies the blood, and imparts a feeling of serene strength which is comforting and satisfying. Hood's Sarsaparilla is the best remedy for that weakness which prevails at change of season, climate or life.
 "I have been convinced that Hood's Sarsaparilla is one of the greatest medicinal remedies in the world. I say this for the benefit of all other tired out, run down, hard-working women. Hood's Sarsaparilla is not only excellent as a blood purifier, but for all other female complaints, even if of long standing."
