THE BRAVEST BATTLE THAT WAS EVER FOUGHT.

The bravest battle that ever was fought
Shall I tell you where and when?
On the maps of the world you will find it not;
'Twas fought by the mothers of men.

Nay, not with cannon, or battle shot,
With sword, or nobler pen;
Nay, not with eloquent word or thoughts
From mouths of wonderful men.

But deep in a swelled up woman's heart,
A woman that would not yield,
But bravely, silently bore her part,
Lo! there is that battlefield!

No marshalling troop, no bivouac song;
No banner to gleam and wave;
But, oh! these battles they last so long,
From babyhood to the grave.

Yet, faithful still as a bride of stars,
She fights in her walled up town,
Fights on and on, in the endless wars
Then silent, unseen, goes down.

O ye with banners and battle shot,
And soldiers to shout and praise,
I tell you the kingliest victories fought
Are fought in these silent ways.

Oh, spotless woman in a world of shame!
With splendid and silent scorn,
Go back to God as white as you came
The kingliest warrior born.

THE EARS OF INSECTS AND ANIMALS.

It would be quite natural of course, to look on the side of the head of any living creature (providing he had a head) for the organ of hearing; such investigation, however, no odds how thorough, would be void of results in many instances. In the clam it is found on the base of his 'foot' or feeler. In the most of grass hoppers it is in the foreleg, while several species of insects have it in the wing. Lobsters and crabs will have the auditory sac at the base of the antennae or feelings.

"MINNEHAHA" IN A BOTTLE

St. Louis Post Despatch.

The latest among the many wonderful discoveries which chemistry has given us is the 'laughing water.' A draught in the morning on an empty stomach from this wonderful chemical compound will banish all cares and produce nothing but a happy and contented feeling. At first a sensation of intoxication comes over the person, which is tempered down in a few minutes to one of merriment and gladness, an exhilaration which lasts a long time and is perfectly free from the unpleasant aftermath of an ordinary spree.

There is no fake about this at all, if the French press is to be believed, for the French Academy has for some time busied itself with this invention, whose author is a physician at Rheims. It is due to modern science, therefore, that laughter will in the future be kept on draught or corked up tight in a bottle. Two of the component parts of this wonderful chemical are phosphite of potash and ergot of rye.

That Tired Feeling

Which is so specially overpowering when the seasons change, and that prostration following severe attacks of illness, are overcome by Hood's Sarsaparilla, which imparts the strength and appetite so much desired. Hood's Sarsaparilla has accomplished wonders for people who were "all run down."

Hood's Pills have won high praise for their easy yet efficient action. Try them.
